

## Certificate of Property Use

Environmental Protection Act, R.S.O. 1990, c.E.19, s.168.6

Certificate of Property use number 0554-BJRHS6  
Risk Assessment number 2724-AKBPKV

**Owner:** 5200 Yonge G.P. Inc.  
for and on behalf of  
5200 Yonge Limited Partnership  
3700 Steeles Avenue West Suite 800  
Woodbridge ON L4L 8M9

and

All of the Unit Holders  
Toronto Standard Condominium Plan No. 2737  
c/o TSE Management Services Inc.  
30 East Beaver Creek Road  
Richmond Hill ON L4B 1J2

**Site:** 5180-5200 Yonge Street, Toronto, Ontario

**with a legal description as follows:**

See Schedule 'D' attached hereto:

**The conditions of this Certificate of Property Use (CPU) address the Risk Management Measures in the Risk Assessment noted above and described in detail in Part 1 below (Risk Assessment). In the event of a conflict between the CPU and the Risk Assessment, the conditions of the CPU take precedence.**

**Summary:**

***Refer to Part 1 of the CPU, Interpretation, for the meaning of all the defined capitalized terms that apply to the CPU.***

- i) CPU requirements addressed in Part 4 of the CPU, Director Requirements, are summarized as follows:
- |   |     |
|---|-----|
| a. Installing/maintaining any equipment   | Yes |
| b. Monitoring any contaminant   | Yes |
| c. Refraining from constructing any building specified  | Yes |
| d. Refraining from using the Property for any use specified   | No  |
| e. Other: Maintaining a barrier to site soils, and preparing and implementing a health and safety plan for the Property | Yes |
- ii) Duration of Risk Management Measures identified in Part 4 of the CPU is summarized as follows:
- a. The barrier to site soils over the entirety of the Property shall be maintained indefinitely until the Director alters or revokes the CPU.
  - b. The soil management plan and the health and safety plan shall be required for the Property during any activities potentially in contact with or exposing site soils for as long as the Contaminants of Concern are present on the Property.
  - c. All other Risk Management Measures shall continue indefinitely until the Director alters or revokes the CPU.

## Part 1: Interpretation

In the CPU the following terms shall have the meanings described below:

“Adverse Effect” has the same meaning as in the Act; namely,

- (a) impairment of the quality of the natural environment for any use that can be made of it;
- (b) injury or damage to property or to plant or animal life;
- (c) harm or material discomfort to any person;
- (d) an adverse effect on the health of any person;
- (e) impairment of the safety of any person;
- (f) rendering any property or plant or animal life unfit for human use;
- (g) loss of enjoyment of normal use of property; and,
- (h) interference with the normal conduct of business.

“Act” means the *Environmental Protection Act*, R.S.O. 1990, c. E.19.

“Building” means an enclosed structure occupying an area greater than ten square metres consisting of a wall or walls, roof and floor.

“Building Area” means the horizontal area of a Building at Grade within the outside surface of the exterior wall or walls.

“Building Code” means the Ontario Regulation 332/12; ‘Building Code’ as amended January 1, 2019.

“Contaminant” has the same meaning as in the Act; namely any solid, liquid, gas, odour, heat, sound, vibration, radiation or combination of any of them, resulting directly or indirectly from human activities that causes or may cause an Adverse Effect.

“Contaminants of Concern” has the meaning as set out in section 3.2 of the CPU.

“CPU” means this Certificate of Property Use as may be altered from time to time and bearing the document number 0554-BJRHS6.

"Director" means the undersigned Director or any other person appointed as a Director for the purpose of issuing a certificate of property use.

“EBR” means the *Environmental Bill of Rights, 1993*, S.O. 1993, c. 28.

“Grade” has the same meaning as in the Building Code.

“Licensed Professional Engineer” means a person who holds a licence, limited licence or temporary licence under the *Professional Engineers Act*, R.S.O. 1990, c. P.28.

"Ministry" means Ontario Ministry of the Environment, Conservation and Parks.

“O. Reg. 153/04” means Ontario Regulation 153/04, “Record of Site Condition – Part XV.1 of the Act” made under the Act.

“O. Reg. 347/90 means Ontario means R.R.O. 1990, Regulation 347 General - Waste Management” made under the Act.

“Owner” means the owner(s) of the Property, beginning with the person(s) to whom the CPU is issued, described in the “Owner” section on Page 1 above, and any subsequent owner(s) of the Property.

"OWRA" means the *Ontario Water Resources Act*, R.S.O. 1990, c. O.40.

“Property” means the property that is the subject of the CPU and described in the “Site” section on page 1 above.

“Property Specific Standards” means the property specific standards established for the Contaminants of Concern set out in the Risk Assessment and in section 3.2 of the CPU and are the same standards specified in the Risk Assessment.

"Provincial Officer" means a person who is designated as a provincial officer for the purposes of the Act.

“Qualified Person” means a person who meets the qualifications prescribed in subsection 5 (2) of O. Reg. 153/04, namely a person who:

- a. Holds a licence, limited licence or temporary licence under the *Professional Engineers Act*, or
- b. Holds a certificate of registration under the *Professional Geoscientists Act, 2000*, and is a practising member, temporary member, or limited member of the Association of Professional Geoscientists of Ontario.

"Risk Assessment" means the Risk Assessment number 2724-AKBPKV accepted by the Director on November 14, 2019 and set out in the following documents:

- Report entitled “Risk Assessment for the North Portion of 5200 Yonge Street, Toronto, Ontario” prepared by BluMetric Environmental, dated February 2018;
- Report entitled “Revised, Risk Assessment for the North Portion of 5200 Yonge Street, Toronto, Ontario” prepared by BluMetric Environmental, dated November 2018;
- Email entitled “Re: RA1592-17b – 5200 Yonge Street, Toronto – request for additional information” from BluMetric, dated December 7, 2018, with following attachment:
  - 5200 Yonge Revised App A with Verbatim Comments Dec 2018.pdf;
- Report entitled “Revision 2, Risk Assessment for the North Portion of 5200 Yonge Street, Toronto, Ontario” prepared by BluMetric Environmental, dated April 2019; and
- Report entitled “Revision 3, Risk Assessment for the North Portion of 5200 Yonge Street, Toronto, Ontario” prepared by BluMetric Environmental, dated August 2019.

"Risk Management Measures" means the risk management measures specific to the Property described in the Risk Assessment and/or Part 4 of the CPU.

“Storage Garage” has the same meaning as in the Building Code.

“Sub Slab Venting Layer” means an engineered venting layer and associated Venting Components below the Vapour Barrier materials for building construction, as described in the Risk Assessment and as designed by a Licensed Professional Engineer, which operates in a passive manner and the venting of vapours away from a building and can be converted to an active system as a contingency measure.

“Tribunal” has the same meaning as in the Act; namely, the Environmental Review Tribunal.

“Vapour Barrier” means a geo-synthetic barrier (including but not limited to geomembrane or spray applied equivalent) meeting the appropriate gas permeability and chemical resistance specifications to be considered impermeable and resistant to the Contaminants of Concern as per Risk Assessment and is considered appropriate by the Licensed Professional Engineer and Qualified Person for its application.

Venting Components” means a network of perforated piping/plenums or venting composites embedded in granular materials of sufficient permeability or other venting products with continuous formed void space that convey vapours and direct these vapours into vent risers that terminate above the roof elevation with active venting.

## Part 2: Legal Authority

- 2.1 Section 19 of the Act states that a certificate of property use is binding on the executor, administrator, administrator with the will annexed, guardian of property or attorney for property of the person to whom it was directed, and on any other successor or assignee of the person to whom it was directed.
- 2.2 Subsection 132(1.1) of the Act states that the Director may include in a certificate of property use a requirement that the person to whom the certificate is issued provide financial assurance to the Crown in right of Ontario for any one or more of,
- a. the performance of any action specified in the certificate of property use;
  - b. the provision of alternate water supplies to replace those that the Director has reasonable and probable grounds to believe are or are likely to be contaminated or otherwise interfered with by a contaminant on, in or under the property to which the certificate of property use relates; and
  - c. measures appropriate to prevent adverse effects in respect of the property to which the certificate of property use relates.
- 2.3 Subsection 168.6 (1) of the Act states that if a risk assessment related to the property has been accepted under clause 168.5 (1) (a), the Director may issue a certificate of property use to the owner of the property, requiring the owner to do any of the following things:
1. Take any action that is specified in the certificate and that, in the Director's opinion, is necessary to prevent, eliminate or ameliorate any adverse effect that has been identified in the risk assessment, including installing any equipment, monitoring any contaminant or recording or reporting information for that purpose.
  2. Refrain from using the property for any use specified in the certificate or from constructing any building specified in the certificate on the property.
- 2.4 Subsection 168.6(2) of the Act states that a certificate of property use shall not require an owner of property to take any action that would have the effect of reducing the concentration of a contaminant on, in or under the property to a level below the level that is required to meet the standards specified for the contaminant in the risk assessment.
- 2.5 Subsection 168.6(3) of the Act states that the Director may, on his or her own initiative or on application by the owner of the property in respect of which a certificate has been issued under subsection 168.6(1),
- a. alter any terms and conditions in the certificate or impose new terms and conditions; or
  - b. revoke the certificate.

- 2.6 Subsection 168.6(4) of the Act states that if a certificate of property use contains a provision requiring the owner of property to refrain from using the property for a specified use or from constructing a specified building on the property,
- a. the owner of the property shall ensure that a copy of the provision is given to every occupant of the property;
  - b. the provision applies, with necessary modifications, to every occupant of the property who receives a copy of the provision; and
  - c. the owner of the property shall ensure that every occupant of the property complies with the provision.
- 2.7 Subsection 197(1) of the Act states that a person who has authority under the Act to make an order or decision affecting real property also has authority to make an order requiring any person with an interest in the property, before dealing with the property in any way, to give a copy of the order or decision affecting the property to every person who will acquire an interest in the property as a result of the dealing.
- 2.8 Subsection 197(2) of the Act states that a certificate setting out a requirement imposed under subsection 197(1) may be registered in the proper land registry office on the title of the real property to which the requirement relates, if the certificate is in a form approved by the Minister, is signed or authorized by a person who has authority to make orders imposing requirements under subsection 197(1) and is accompanied by a registrable description of the property.
- 2.9 Subsection 197(3) of the Act states that a requirement, imposed under subsection 197(1) that is set out in a certificate registered under subsection 197(2) is, from the time of registration, deemed to be directed to each person who subsequently acquires an interest in the real property.
- 2.10 Subsection 197(4) of the Act states that a dealing with real property by a person who is subject to a requirement imposed under subsection 197(1) or 197(3) is voidable at the instance of a person who was not given the copy of the order or decision in accordance with the requirement.

### **Part 3: Background**

- 3.1 The Risk Assessment was undertaken for the Property on behalf of the Owner to assess the human health risks and ecological risks associated with the presence or discharge of Contaminants on, in or under the Property and to identify appropriate Risk Management Measures to be implemented to ensure that the Property is suitable for the intended use: “residential use”, as defined in O. Reg. 153/04.

- 3.2 The Contaminants on, in or under the Property that are present above the Residential/Parkland/Institutional Property Use Standards within **Table 3** of the **Soil, Ground water and Sediment Standards for Use under Part XV.1 of the Act** published by the Ministry and dated April 15, 2011 for medium/fine textured soils or for which there are no such standards are defined as the Contaminants of Concern. The Property Specific Standards for the Contaminants of Concern are set out in Schedule "A", the Air Trigger Levels are set out in Schedule 'B' and attached to and forming part of the CPU with the following figures:
- Plan of Survey with the Property outlined in red; and
  - Figure I-1 and Drawing RA-12.
- 3.3 I am of the opinion, for the reasons set out in the Risk Assessment that the Risk Management Measures described therein and outlined in Part 4 of the CPU are necessary to prevent, eliminate or ameliorate an Adverse Effect on the Property.

## **Part 4: Director Requirements**

Pursuant to the authority vested in me under section 168.6(1) of the Act, I hereby require the Owner to do or cause to be done the following:

### Risk Management Measures

- 4.1 Implement, and thereafter maintain or cause to be maintained, the Risk Management Measures.
- 4.2 Without restricting the generality of the foregoing in Item 4.1, carry out or cause to be carried out the following key elements of the Risk Management Measures:
- a. The Property shall be covered by a barrier to site soils designed, installed and maintained in accordance with the Risk Assessment so as to prevent exposure to the Contaminants of Concern. The barrier to site soils shall consist of a hard cap, fill/soil cap and/or fence as specified below:
    - i. Hard caps on the Property shall consist of asphalt underlain by granular fill to a minimum thickness of 450 mm (as illustrated in figure I-1 of the CPU).
    - ii. For portion(s) of the Property, not under development or not in use, these areas shall have a fence barrier to prevent the general public from accessing the site and a dust control plan to prevent surface soil from impacting the adjacent properties.
  - b. An inspection and maintenance program shall be prepared and implemented to ensure the continuing integrity of the barriers to site soils risk management measures (including any fence barrier and Storage Garage) as long as the Contaminants of Concern are present on the Property. The inspection program shall include, at a minimum, semi-annual (every six months) inspections of the

barrier to site soils integrity. Any barrier to site soils deficiencies shall be repaired forthwith. Inspection, deficiencies and repairs shall be recorded in a log book maintained by the Owner and made available upon request by a Provincial Officer.

- c. The Owner shall maintain the seals around the sumps to ensure that intrusion of vapours to indoor air does not occur. The Owner shall inspect the sumps on a semi-annual basis (every six months) and record the inspections and any deficiencies and repairs in a log book maintained by the Owner and available for review by a Provincial Officer upon request.
- d. A site-specific health and safety plan shall be developed for the Property and implemented during all intrusive, below-grade construction activities potentially coming in contact with or exposing groundwater and a copy shall be maintained on the Property for the duration of these intrusive activities. The Owner shall ensure that the health and safety plan take into account the presence of the Contaminants of Concern and is implemented prior to any intrusive work being done on the Property in order to protect workers from exposure to the Contaminants of Concern. The health and safety plan shall be prepared in accordance with applicable Ministry of Labour health and safety regulations, shall address any potential risks identified in the Risk Assessment, and shall include, but not be limited to any trenches that are at least 1 m deep which are deeper than the width shall include ventilation requirements, to follow occupational hygiene requirements, requirements for personal protective equipment, and contingency plan requirements including site contact information as per the Risk Assessment. Prior to initiation of any project (as defined in the *Occupational Health and Safety Act*, as amended) on the Property, the local Ministry of Labour office shall be notified of the proposed activities and that the Property contains contaminated groundwater. Implementation of the health and safety plan shall be overseen by persons qualified to review the provisions of the plan with respect to the proposed site work and conduct daily inspections. The Owner shall retain a copy of the plan, which shall be made available for review by the Ministry upon request.
- e. Refrain from constructing any Building on the Property unless the Building includes a Storage Garage, and:
  - i. The Storage Garage is constructed at or below the Grade of the Building;
  - ii. The Storage Garage area covers the entire Building Area at Grade; and
  - iii. The Storage Garage complies with all applicable requirements of the Building Code, such as the provisions governing:
    - 1. design of a mechanical ventilation system as set out in Division B, Article 6.2.2.3. (Ventilation of Storage and Repair Garages) of the Building Code;
    - 2. interconnection of air duct systems as set out in Division B, Sentence (2) of Article 6.2.3.9. (Interconnection of Systems) of the Building Code; and
    - 3. air leakage as set out in Division B, Section 5.4. (Air Leakage) of the Building Code; and
  - iv. The mechanical ventilation system for the Storage Garage is designed to provide, and provides during operating hours, a continuous supply of outdoor air at a rate of not less than 3.9 litres per second for each square metre of floor area or be activated on as-needed basis by carbon monoxide or nitrogen dioxide monitoring devices or other devices as permitted by the Building Code,

as set out in the Risk Assessment.

- f. Refrain from constructing any Building on the Property, unless:
  - i. The intended and actual use of the Building on its First Storey and Second Storey and below Grade is not residential use, parkland use or institutional use, or a combination thereof;
  - ii. The ventilation and air duct systems serving the First Storey and Second Storey of the Building and any area below this are separate systems from the ones serving all stories above the Second Storey; and
  - iii. The Building complies with all applicable requirements of the Building Code, such as the provisions governing:
    - 1. interconnection of air duct systems as set out in Division B, Sentence (2) of Article 6.2.3.9. (Interconnection of Systems) of the Building Code; and
    - 2. air leakage as set out in Division B, Section 5.4. (Air Leakage) of the Building Code.
  
- g. The air monitoring program on the Property shall commence prior to occupancy of any building on the Property. All air monitoring programs shall be done in accordance to USEPA Method TO-15 for the Contaminants of Concerns listed in Schedule 'B' of the CPU. The air monitoring program shall be carried out as follows:
  - i. The indoor air monitoring shall be carried out on a quarterly basis (every three months) and thereafter until such time as the Director, upon application by the Owner, has reviewed the data available and either alters or revokes the CPU.
  - ii. The locations and methodology of the indoor air monitoring shall follow the requirements of the Risk Assessment.
  - ii. If the air concentration for any Contaminants of Concern exceeds Schedule 'B' for any trigger level, the Owner shall immediately notify the Director in writing of the exceedance along with a copy of the laboratory's certificate of analysis, chain of custody, field notes indicating the initial and final canister pressures, atmospheric pressure, weather and temperature, soil vapour construction logs.
  - iii. The Owner shall keep a copy of all sampling data available for inspection by a Provincial Officer upon request.
  - iv. If the indoor air concentration for the Contaminants of Concern exceed Schedule 'B' for any trigger level, then indoor air monitoring shall recommence for all Contaminants of Concern within 15 days of receipt of the analytical results and be carried out as follows:
    - 1. If none of the concentrations of the Contaminants of Concern exceed Schedule 'B' (trigger levels) on the recommenced indoor air monitoring event, then the indoor monitoring event shall be carried out on a quarterly basis (every three months) for a twelve (12) month period (4 additional monitoring events).
    - 2. If any of the concentrations of the Contaminants of Concern exceeds Schedule 'B' (trigger levels), on the recommenced indoor air monitoring event, then within 30 days of the receipt of the analytical results, Either:
      - i. develop and submit a detailed contingency plan to the Director (as outlined in the Risk Assessment); or
      - ii. develop and submit a report to the Director that details these

indoor air exceedances are due to background sources.  
The indoor air monitoring shall continue on a quarterly basis (every 3 month) until such time as the Director, upon application by the Owner, has reviewed the data available and either alters or revokes the CPU.

- h. The groundwater monitoring program shall be carried out on a semi-annual basis (once every six months) for first year and annually (once a year) in the second year and thereafter until such time as the Director, upon application by the Owner, has reviewed the data available and either amends or revokes the CPU. The groundwater monitoring shall be carried out as follows:
  - i. The groundwater monitoring program shall consist of the sampling of six (6) groundwater monitoring wells labeled as BH204, BH204B, BH206, BH206B, BH 207 and BH207B as shown on Drawing RA-12 of the CPU.
  - ii. The Contaminants of Concern to be monitored shall consist of groundwater Contaminants of Concern in Schedule 'A'.
  - iii. Water from all monitoring wells shall be sampled according to Ministry's Protocol for Analytical Methods Used in the Assessment of Properties under Part XV.1 of the Environmental Protection Act (MOE, 2004b) as amended from time to time.
  - iv. The Owner shall keep a copy of all sampling data available for inspection by a Provincial Officer upon request.
  - v. Should there be a reason to change the selected groundwater monitoring wells or two consecutive groundwater monitoring events indicate an increasing trend for any Contaminants of Concern; the Owner shall immediately notify the Director in writing of the exceedance(s), along with a copy of the laboratory's certificate of analysis, chain of custody and borehole logs.
  - vi. If the groundwater concentration for the Contaminants of Concern for two consecutive groundwater monitoring events indicate an increasing trend for any Contaminants of Concern, then the groundwater monitoring shall recommence for all Contaminants of Concern within thirty (30) days of receipt of the analytical results and be carried out as follows:
    - a. If any of the concentrations of the Contaminants of Concern indicate an increasing trend on the recommenced groundwater monitoring event; then within 30 days of the receipt of the analytical results; develop and submit a contingency plan to the Director (as outlined in the Risk Assessment); and
    - b. The groundwater monitoring shall continue on a quarterly basis (every 3 months) until such time as the Director, upon application by the Owner, has reviewed the data available and either alters or revokes the CPU.
- i. The Owner shall retain a copy of the site plan prepared and signed by a Qualified Person prior to occupancy which will describe the Property, placement and quality of all of the barriers to site soils. The site plan will include a plan and cross section drawings specifying the vertical and lateral extent of the barriers. This site plan shall be retained by the Owner for inspection upon request by a Provincial Officer. The site plan shall be revised following the completion of any alteration to the extent of the barriers to site soils.
- j. The Owner shall prepare by March 31 each year, an annual report documenting

activities relating to the Risk Management Measures undertaken during the previous calendar year. A copy of this report shall be maintained on file by the Owner and shall be made available upon request by a Provincial Officer. The report shall include, but not be limited to, the following minimum information requirements:

- i. a copy of all records relating to the inspection and maintenance program for the barrier to site soils, Storage Garage and seals on the sumps;
- ii. a copy of all records relating to the soil management plan and to the health and safety plan;
- iii. a copy of all signed site plans including any alterations;
- iv. a copy of all records for the air monitoring programs including laboratory's certificate of analyses, chain of custody, field notes indicating the initial and final canister pressures, QA/QC program.
- v. a copy of all groundwater monitoring results including borehole logs, laboratory's certificate of analyses and chain of custody;
- vi. a copy of the updated cost estimate with respect to the matters dealt with in Item 4.12 every three years from the date of issuance of the CPU.

4.3 Refrain from using the Property for any of the following use(s):

N/A

4.4 Refrain from constructing the following building(s):

No building construction unless construction is in accordance with Item 4.2 e. and 4.2 f. of the CPU.

### Site Changes

4.5 In the event of a change in the physical site conditions or receptor characteristics at the Property that may affect the Risk Management Measures and/or any underlying basis for the Risk Management Measures, forthwith notify the Director of such changes and the steps taken, to implement, maintain and operate any further Risk Management Measures as are necessary to prevent, eliminate or ameliorate any Adverse Effect that will result from the presence on, in or under the Property or the discharge of any Contaminant of Concern into the natural environment from the Property. An amendment to the CPU will be issued to address the changes set out in the notice received and any further changes that the Director considers necessary in the circumstances.

### Reports

4.6 Retain a copy of any reports required under the CPU, the Risk Assessment and any reports referred to in the Risk Assessment (until otherwise notified by the Director) and within ten (10) days of the Director or a Provincial Officer making a request for a report,

provide a copy to the Director or Provincial Officer.

### Property Requirement

- 4.7 For the reasons set out in the CPU and pursuant to the authority vested in me under subsection 197(1) of the Act, I hereby order you and any other person with an interest in the Property, before dealing with the Property in any way, to give a copy of the CPU, including any amendments thereto, to every person who will acquire an interest in the Property as a result of the dealing.

### Certificate of Requirement

- 4.8 Within fifteen (15) days from the date of receipt of a certificate of requirement issued under subsection 197(2) of the Act and as outlined in Schedule 'C', register the certificate of requirement on title to the Property, in the appropriate land registry office.
- 4.9 Within five (5) days after registering the certificate of requirement provide to the Director a copy of the registered certificate and confirmation that registration has been completed on all of the parcel register(s) for the Property.

### Owner Change

- 4.10 While the CPU is in effect, the Owner shall forthwith report in writing, to the Director any changes of ownership of the Property, except that while the Property is registered under the *Condominium Act, 1998*, S.O. 1998 c.19, no notice shall be given of changes in the ownership of individual condominium units or any appurtenant common elements on the Property.

### Financial Assurance

- 4.11 Within fifteen (15) days of the date of the CPU, the Owner shall provide financial assurance to the Crown in right of Ontario in the amount of seventy-five thousand dollars (\$75,000) in a form satisfactory to the Director and in accordance with Part XII of the Act.
- 4.12 A written report reviewing the financial assurance required by the CPU shall be included in the annual report referred to as Item 4.2 (j) with an updated cost estimate with respect to the matters dealt with in Item 4.12 above every three years from the date of issuance of the CPU.

## Part 5: General

- 5.1 The requirements of the CPU are severable. If any requirement of the CPU or the application of any requirement to any circumstance is held invalid, such finding does not invalidate or render unenforceable the requirement in other circumstances nor does it invalidate or render unenforceable the other requirements of the CPU.
- 5.2 An application under subsection 168.6(3) of the Act to,
- a. alter any terms and conditions in the CPU or impose new terms and conditions; or
  - b. revoke the CPU;
- shall be made in writing to the Director, with reasons for the request.
- 5.3 The Director may alter the CPU under subsections 132(2) or (3) of the Act to change a requirement as to financial assurance, including that the financial assurance may be increased or reduced or released in stages. The total financial assurance required may be reduced from time to time or released by an order issued by the Director under section 134 of the Act upon request and submission of such supporting documentation as required by the Director.
- 5.4 Subsection 186(3) of the Act provides that failure to comply with the requirements of the CPU constitutes an offence.
- 5.5 The requirements of the CPU are minimum requirements only and do not relieve the Owner from,
- a. complying with any other applicable order, statute, regulation, municipal, provincial or federal law; or
  - b. obtaining any approvals or consents not specified in the CPU.
- 5.6 Notwithstanding the issuance of the CPU, further requirements may be imposed in accordance with legislation as circumstances require. The Director shall also alter the CPU where the approval or acceptance of the Director is required in respect of a matter under the CPU and the Director either does not grant the approval or acceptance or does not grant it in a manner agreed to by the Owner.
- 5.7 In the event that, any person is, in the opinion of the Director, rendered unable to comply with any requirements in the CPU because of,
- a. natural phenomena of an inevitable or irresistible nature, or insurrections,
  - b. strikes, lockouts or other labour disturbances,
  - c. inability to obtain materials or equipment for reasons beyond your control, or
  - d. any other cause whether similar to or different from the foregoing beyond your control, the requirements shall be adjusted in a manner defined by the Director. To obtain such an adjustment, the Director must be notified immediately of any of the above occurrences, providing details that demonstrate that no practical alternatives are feasible in order to meet the requirements in question.

- 5.8 Failure to comply with a requirement of the CPU by the date specified does not relieve any Owner from compliance with the requirement. The obligation to complete the requirement shall continue each day thereafter.
- 5.9 Once the provisions of Items 4.9 and 4.10 of the CPU regarding the registration of the certificate of requirement on title to the Property are complied with the ongoing obligations of the condominium unit Owners under this CPU can be carried out by the condominium corporation or its property management firm on behalf of such Owners of the Property.

## **Part 6: Hearing before the Environmental Review Tribunal**

- 6.1 Pursuant to section 139 of the Act, you may require a hearing before the Environmental Review Tribunal (the "Tribunal"), if within fifteen (15) days after service on you of a copy of the CPU, you serve written notice upon the Director and the Tribunal.
- 6.2 Pursuant to section 142 of the Act, the notice requiring the hearing must include a statement of the portions of the CPU and the grounds on which you intend to rely at the hearing. Except by leave of the Tribunal, you are not entitled to appeal a portion of the CPU, or to rely on a ground, that is not stated in the notice requiring the hearing.
- 6.3 Service of a notice requiring a hearing must be carried out in a manner set out in section 182 of the Act and Ontario Regulation 227/07: Service of Documents, made under the Act as they may be amended from time to time. The address, email address and fax numbers of the Director and the Tribunal are:

The Secretary  
Environmental Review Tribunal  
655 Bay Street, Suite 1500  
Toronto, ON, M5G 1E5  
Fax: 1-877-849-2066  
Email: [ERTTribunalSecretary@ontario.ca](mailto:ERTTribunalSecretary@ontario.ca)

and

Jimena Caicedo  
Ministry of the Environment, Conservation and Parks  
5775 Yonge St., 8<sup>th</sup> Floor  
Toronto, ON M2M 4J1  
Fax: 416-326-5536  
Email: [Jimena.Caicedo@ontario.ca](mailto:Jimena.Caicedo@ontario.ca)

6.4 Unless stayed by the Tribunal under section 143 of the Act, the CPU is effective from the date of issue.

6.5 If you commence an appeal before the Tribunal, under section 47 of the *Environmental Bill of Rights, 1993* (the “EBR”), you must give notice to the public in the Environmental Registry of Ontario. The notice must include a brief description of the CPU (sufficient to identify it) and a brief description of the grounds of appeal.

The notice must be delivered to the Minister of the Environment, Conservation and Parks who will place it on the Environmental Registry of Ontario. The notice must be delivered to the Minister of the Ministry of the Environment, Conservation and Parks, College Park 5th Flr, 777 Bay St, Toronto, ON M7A 2J3 by the earlier of:

- (a) two (2) days after the day on which the appeal before the Tribunal was commenced; and
- (b) fifteen (15) days after service on you of a copy of the CPU.

6.6 Pursuant to subsection 47(7) of the EBR, the Tribunal may permit any person to participate in the appeal, as a party or otherwise, in order to provide fair and adequate representation of the private and public interests, including governmental interests, involved in the appeal.

6.7 For your information, under section 38 of the EBR, any person resident in Ontario with an interest in the CPU may seek leave to appeal the CPU. Under section 40 of the EBR, the application for leave to appeal must be made to the Tribunal by the earlier of:

- 6.7.1 fifteen (15) days after the day on which notice of the issuance of the CPU is given in the Environmental Registry of Ontario; and
- 6.7.2 if you appeal, fifteen (15) days after the day on which your notice of appeal is given in the Environmental Registry of Ontario.

Issued at Toronto this 16<sup>th</sup> day of November 2020.
