

ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 9977-BPDKSM
Issue Date: April 27, 2021

Laplante Poultry Farms Ltd.
3105 Dunning Road
Sarsfield, Ontario
K0A 3E0

Site Location: 17141 Rombough Road
Part of Lot 15, Concession 2, Reference Plan 52R-2304
North Stormont Township, United Counties of Stormont,
Dundas and Glengarry
K0C 1V0

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

A poultry (chicken) processing facility, consisting of the following sources:

- the poultry processing building with entrails storage tanks, discharging to one (1) biofilter equipped with wood chip media mixed with 25% compost, with an empty bed residence time of 13 minutes, discharging into the air at a volumetric flow rate of 0.0114 cubic metre per second through a stack, having an exit diameter of 0.15 metre, extending 1.5 metres above roof and 6.5 metres above grade;
- the wastewater treatment system and Dissolved Air Flotation (DAF) building, discharging to one (1) biofilter equipped with wood chip media mixed with 25% compost, with an empty bed residence time of 13 minutes, discharging into the air at a volumetric flow rate of 0.0114 cubic metre per second through a stack, having an exit diameter of 0.15 metre, extending 3.4 metres above grade;
- two (2) 180 kilowatts diesel fired generator sets providing 3-phase power to the chillers;

all in accordance with the Application for Approval (Air & Noise) submitted by Laplante Poultry Farms Ltd., dated March 18, 2019, and signed by Robert Laplante; the supporting information, including the Emission Summary and Dispersion Modelling Report, submitted by Maat Environmental Engineering Corp., dated March 19, 2019, and signed by Derk Maat; Acoustic Assessment submitted by HGC Engineering, signed by Petr Chocensky and dated July 30, 2020; and additional information submitted by Maat Environmental Engineering Corpt., dated April 21, 2020, and signed by Derk Maat.

For the purpose of this environmental compliance approval, the following definitions apply:

1. "AERMOD" means the dispersion model developed by the American Meteorological Society/U.S. Environmental Protection Agency Regulatory Model Improvement Committee (AERMIC) including the PRIME (Plume Rise Model Enhancement) algorithm;
2. "Acoustic Audit" means an investigative procedure consisting of measurements and/or acoustic modelling of all sources of noise emissions due to the operation of the *Facility*, assessed to determine compliance with the sound level limits for the *Facility* regarding noise emissions, completed in accordance with the procedures set in *Publication NPC-103* and reported in accordance with *Publication NPC-233* ;
3. "Acoustic Audit Report" means a report presenting the results of an *Acoustic Audit*, prepared in accordance with *Publication NPC-233* ;
4. "Acoustic Assessment Report " means the report, prepared in accordance with *Ministry Publication NPC-233*, by HGC Engineering and dated July 30, 2020 submitted in support of the application that documents all sources of noise emissions and *Noise Control Measures* present at the *Facility* ;
5. "Acoustic Barrier" means the noise barrier specified in Section 4 and Figure 4 of the *Acoustic Assessment Report* ;
6. "Approval" means this Environmental Compliance Approval, including the application and supporting documentation listed above;
7. "Best Management Practices for Industrial Sources of Odour " means the *Ministry* Publication "Best Management Practices for Industrial Sources of Odour", dated January 31, 2017, as amended;
8. "Biofilters" means the two (2) biofilters described in this *Approval* and in the supporting documentation referred to herein, to the extent approved by this *Approval*;
9. "Company" means Laplante Poultry Farms Ltd., that is responsible for the construction or operation of the *Facility* and includes any successors and assigns;
10. "Director" means a person appointed for the purpose of section 20.3 of the *EPA* by the *Minister* pursuant to section 5 of the *EPA*;
11. "District Manager" means the District Manager of the appropriate local district office of the *Ministry*, where the *Facility* is geographically located;
12. "EPA" means the Environmental Protection Act, R.S.O. 1990, c.E.19, as amended;
13. "Equipment" means the equipment described in the *Company* 's application, this *Approval* and in the supporting documentation submitted with the application, to the extent approved by this *Approval*;

14. "*ESDM Report*" means the Emission Summary and Dispersion Modelling Report which was prepared in accordance with section 26 of *O. Reg. 419/05* and the *Procedure Document* by Derk Maat, Maat Environmental Engineering Corp. and dated March 19, 2019 submitted in support of the application, and includes any changes to the report made up to the date of issuance of this *Approval*;
15. "*Facility*" means the entire operation located on the property where the *Equipment* is located;
16. "*Independent Acoustical Consultant*" means an *Acoustical Consultant* who is not representing the *Company* and was not involved in preparing the *Acoustic Assessment Report* or the design/implementation of *Noise Control Measures* for the *Facility* and/or *Equipment*. The *Independent Acoustical Consultant* shall not be retained by the *Acoustical Consultant* involved in the noise impact assessment or the design/implementation of *Noise Control Measures* for the *Facility* and/or *Equipment*;
17. "*Manual*" means a document or a set of documents that provide written instructions to staff of the *Company* ;
18. "*Minister*" means the Minister of the Environment, Conservation and Parks or such other member of the Executive Council as may be assigned the administration of the *EPA* under the Executive Council Act;
19. "*Ministry*" means the ministry of the government of Ontario responsible for the *EPA* and includes all officials, employees or other persons acting on its behalf;
20. "*Noise Control Measures* " means measures to reduce the noise emissions from the *Facility* and/or *Equipment* including, but not limited to, silencers, barriers and enclosures. It also means noise control measures and the *Acoustic Barrier* outlined in the *Acoustic Assessment Report*;
21. "*O. Reg. 419*" means the Ontario Regulation 419/05, Air Pollution – Local Air Quality, as amended;
22. "*Odour Management Plan*" means a document, prepared by a *Professional Engineer* , which describes the measures to minimize odour emissions from the *Facility* and/or *Equipment* ;
23. "*Point of Impingement*" has the same meaning as in section 2 of *O. Reg. 419*;
24. "*Pre-Test Plan*" means a plan for the *Source Testing* including the information required in Section 5 of the *Source Testing Code*;
25. "*Procedure Document*" means *Ministry* guidance document titled "Procedure for Preparing an Emission Summary and Dispersion Modelling Report" dated March 2018, as amended;
26. "*Professional Engineer* " means Professional Engineer as defined within the Professional Engineers Act, R.S.O. 1990, as amended;

27. "*Publication NPC-103*" means the *Ministry* Publication NPC-103 of the Model Municipal Noise Control By-Law, Final Report, August 1978, published by the *Ministry* as amended;
28. "Publication NPC-233" means the *Ministry* Publication NPC-233, "Information to be Submitted for Approval of Stationary Sources of Sound", October, 1995 as amended;
29. "*Publication NPC-300*" means the *Ministry* Publication NPC-300, "Environmental Noise Guideline, Stationary and Transportation Sources – Approval and Planning, Publication NPC-300", August 2013, as amended;
30. "*Sensitive Receptor*" means any location where routine or normal activities occurring at reasonably expected times would experience adverse effect(s) from odour discharges from the *Facility*, including one or a combination of:
 - a. private residences or public facilities where people sleep (e.g.; single and multi-unit dwellings, nursing homes, hospitals, trailer parks, camping grounds, etc.),
 - b. institutional facilities (e.g; schools, churches, community centres, day care centres, recreational centres, etc.),
 - c. outdoor public recreational areas (e.g.; trailer parks, play grounds, picnic areas, etc.), and
 - d. commercial areas where there are continuous public activities (e.g.; commercial plazas and office buildings);
31. "*Source Testing*" means sampling and testing to measure the rate of emissions of odour and total reduced sulphur compounds as required under this *Approval* from the *Biofilters* exhaust under process conditions which yield the worst case emissions within the approved operating range of the *Biofilters* and satisfies paragraph 1 of subsection 11(1) of *O. Reg. 419* ; and
32. "*Source Testing Code*" means the Ontario Source Testing Code, dated June 2010, prepared by the *Ministry*, as amended.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1. PERFORMANCE CONDITION

1. The *Company* shall operate only one (1) of the two (2) 180 kilowatts diesel fired generator sets at any time.

2. NOISE

1. The *Company* shall:

- a. limit operation of the generator sets and chillers to a maximum of fifteen (15) minutes per sixty (60) minute period during evening and night-time hours (7 p.m. to 7 a.m.);
- b. limit idling of livestock trucks to a maximum of twenty (20) minutes per sixty (60) minute period during evening and night-time hours (7 p.m. to 7 a.m.);
- c. limit the arriving and departing of livestock trucks to one (1) truck per sixty (60) minute period during the evening and night-time hours (7 p.m. to 7 a.m.);
- d. limit operation of the tractor to a maximum of thirty (30) minutes per sixty (60) minute period during evening and night-time hours (7 p.m. to 7 a.m.);
- e. restrict the arriving and departing of the refrigerated trailer truck to the daytime hours (7 a.m. to 7 p.m.);
- f. restrict the loading of the refrigerated trailer to the daytime hours (7 a.m. to 7 p.m.);
- g. restrict the idling of the waste removal truck to the daytime hours (7 a.m. to 7 p.m.);
- h. restrict the arriving and departing of waste removal trucks to one (1) truck per sixty (60) minute period during the daytime hours (7 a.m. to 7 p.m.);
- i. limit the number of pressure blowers in the wastewater treatment facility operating at the same time to a maximum of three (3);
- j. implement within sixty (60) days from the date of this *Approval* the *Noise Control Measures* outlined in the *Acoustic Assessment Report* ;
- k. ensure, subsequent to the implementation of the *Noise Control Measures* that the noise emissions from the *Facility* comply with the limits set out in *Ministry Publication NPC-300*; and
- l. ensure that the *Noise Control Measures* are properly maintained and continue to provide the acoustic performance outlined in the *Acoustic Assessment Report*.

3. OPERATION AND MAINTENANCE

1. The *Company* shall ensure that the *Equipment* is properly operated and maintained at all times. The *Company* shall:

- a. prepare, not later than three (3) months after the date of this *Approval* , and update, as necessary, a *Manual* outlining the operating procedures and a maintenance program for the *Equipment*, including:
 - i. routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the *Equipment* suppliers;
 - ii. emergency procedures, including spill clean-up procedures;
 - iii. procedures for any record keeping activities relating to operation and maintenance of the *Equipment*;
 - iv. all appropriate measures to minimize noise and odorous emissions from all potential sources; and
 - v. the frequency of inspection and replacement of the filter materials in the *Biofilters*;
- b. implement the recommendations of the *Manual*.

4. ODOUR MANAGEMENT PLAN

1. The *Company* shall, at all times, take all reasonable measures to minimize odorous emissions and odour impacts from all potential sources at the *Facility*.
2. The *Company* shall prepare and submit to the *District Manager* for review not later than three (3) months from the date of this *Approval* , an *Odour Management Plan* that includes measures to minimize odour impacts of the *Facility* at the *Sensitive Receptors* .
3. The *Odour Management Plan* shall include:
 - a. *Facility* and process descriptions including a list of potential sources of odour;
 - b. a list of measures that can minimize the odour impact of the *Facility* on nearby *Sensitive Receptors* , including:
 - i. minimizing fugitive odour emissions from the *Facility* buildings; and
 - ii. maintaining the *Facility* buildings under negative pressure;
 - c. best management practices described in *Ministry* 's *Best Management Practices for Industrial Sources of Odour* of effective odour reduction measures, including:
 - i. periodic preventative activities and their frequency;

- ii. inspection and maintenance procedures;
 - iii. monitoring initiatives; and,
 - iv. record keeping practices for odour complaints and steps taken to address each complaint.
4. The *Company* shall:
- a. implement the *Odour Management Plan* as soon as practicable after the *Odour Management Plan* is accepted by the *District Manager* in writing;
 - b. update and revise the *Odour Management Plan* as needed, or at a frequency directed or agreed to in writing by the *District Manager* .
5. The *Company* shall record, and retain such records, each time a specific preventative and odour impact reduction measure described in the *Odour Management Plan* is implemented.
6. If the *District Manager* does not accept the *Odour Management Plan*, the *District Manager* may require the *Odour Management Plan* to be revised and re-submitted.

5. MONITORING

1. The *Company* shall monitor and record the physical parameters of the *Biofilters* as outlined in Schedule A.

6. SOURCE TESTING

1. The *Company* shall perform *Source Testing* in accordance with the procedures in Schedule B to determine the rates of emissions of odour and total reduced sulphur compounds from the *Biofilters* .

7. COMPLAINTS RECORDING PROCEDURE AND RESPONSE PLAN

1. A designated representative of the *Company* shall be available to receive environmental complaint twenty-four (24) hours per day, seven (7) days per week.
2. If at any time, the *Company* receives any environmental complaint from the public regarding the operation of the *Facility* approved by this *Approval*, the *Company* shall respond to the environmental complaint according to the following procedures:
- a. Step 1 : Record of Environmental Complaint
 - i. The *Company* shall record each environmental complaint. The information to be recorded shall include the following:

- I. name, address and the telephone number of the complainant, if known;
 - II. time and date of the environmental complaint; and
 - III. details of the environmental complaint.
- b. Step 2 : Investigation and Handling of Environmental Complaint
- i. After the environmental complaint has been received by the *Company*, the *Company* shall immediately report to the *District Manager* on the receipt of the environmental complaint. The *Company* shall immediately initiate investigation of the environmental complaint. The investigation shall include, as a minimum, the following:
 - I. determination of the activities undertaken in the *Facility* at the time of the environmental complaint;
 - II. meteorological conditions including, but not limited to the ambient temperature, approximate wind speed and its direction;
 - III. determination if the environmental complaint is attributed to activities in the *Facility* and if so, the possible cause(s) of the environmental complaint; and
 - IV. determination of the remedial action(s) to address the cause(s) of the environmental complaint, and implementation of the remedial action(s) as soon as practicably possible.
3. The *Company* shall document the response provided to the complainant, if known, and shall make the document(s) available for inspection by staff of the *Ministry* upon request. The response shall include the results of the investigation of the environmental complaint, the action(s) taken or planned to be taken to address the cause(s) of the environmental complaint, and if follow-up response(s) would be provided.
4. The *Company* shall, within three (3) business days of recording an environmental complaint, submit a report to the *District Manager* on that environmental complaint including action(s) taken or planned to be taken to address the cause(s) of the environmental complaint and on all proposed action(s) to prevent recurrence of the environmental complaint in the future.
5. If at any time the *District Manager* is of the opinion that the remedial action(s) of the *Facility* taken to address the cause(s) of the environmental complaint as per Condition No. 7(2)(b)(i)(IV) of this *Approval* to be unsuitable, insufficient or ineffective, the *District Manager* may direct the *Company*, in writing, to take further measures to address the cause(s) of the environmental complaint.

8. ACOUSTIC AUDIT

1. Upon written request of the *District Manager*, the *Company* shall, within sixty (60) days of the request, submit written notice to the *District Manager* of retainment of an *Independent Acoustical Consultant*.
2. Within ninety (90) days of the written notice submitted to the *District Manager*; the *Company* shall;
 - a. carry out *Acoustic Audit* measurements in accordance with the procedures in *Ministry Publication NPC-103*; and
 - b. submit an *Acoustic Audit Report* on the results of the *Acoustic Audit* , prepared by an *Independent Acoustical Consultant* , in accordance with the requirements of *Ministry Publication NPC-233* , to the *District Manager* and the *Director*.
3. The *Director* :
 - a. may not accept the results of the *Acoustic Audit* if the requirements of *Ministry Publication NPC-233* were not followed; and
 - b. may require the *Company* to repeat the *Acoustic Audit* if the results of the *Acoustic Audit* are found unacceptable to the *Director* .

9. RECORD RETENTION

1. The *Company* shall retain, for a minimum of two (2) years from the date of their creation, all records and information related to or resulting from the operation and maintenance activities required by this *Approval* . These records shall be made available to staff of the *Ministry* upon request. The *Company* shall retain:
 - a. all records on the maintenance, repair and inspection of the *Facility* and *Equipment* ;
 - b. all records of fan failure such that there is no process air flow through the *Biofilters* ;
 - c. all reports of the *Source Testing* ;
 - d. all measures taken to minimize odour emissions from all potential sources; and
 - e. all records on environmental complaints and record created in accordance with Condition No. 7 of the *Approval* .

SCHEDULE A

Biofilter Parameters

The *Company* shall monitor and record the operating parameters of the *Biofilters* , through a combination of sensors, meters, physical probes or equivalent means, as recommended by the supplier of the *Biofilters* . In the development of the monitoring program for the *Biofilters* , the following physical parameters shall be monitored either at a minimum frequency of once per month, or as specified in the manual of the *Biofilters* manufacturer(s):

1. pressure drop across the biofilter bed (kilopascals);
2. temperature of the filter beds media (degrees Celcius);
3. temperature of the air stream (degrees Celcius);
4. relative humidity of the air streams (percent);
5. moisture content of the filter beds media (percent);
6. pH of the filter beds media;
7. total microbial counts of the media;
8. exhaust flow rate of the biofilter (cubic metres per second).

SCHEDULE B

Source Testing Procedures

1. The *Company* shall submit to the *Manager* a *Pre-Test Plan* for the *Source Testing* required under this *Approval* for each of the following *Biofilters*. The *Company* shall finalize the *Pre-Test Plan* in consultation with the *Manager*.
 1. The *Biofilter* serving the process building not later than three (3) months from this *Approval* .
 2. The *Biofilter* serving the DAF building not later than three (3) months after the building is completed, or on or before a date directed by or agreed upon in consultation with the *District Manager* .
2. The *Company* shall not commence the *Source Testing* required under this *Approval* until the *Manager* has approved the *Pre-Test Plan*.
3. The *Company* shall complete the *Source Testing* for the *Biofilters* within two (2) months after the *Manager* has approved the *Pre-Test Plan* or within a period directed to or agreed upon in writing by the *District Manager* or the *Manager*.
4. The *Company* shall notify the *Manager* , the *District Manager* and the *Director* in writing of the location, date and time of any impending *Source Testing* required by this *Approval*, at least fifteen (15) days prior to the *Source Testing*.
5. The *Company* shall submit a report (electronic format) on the *Source Testing* to the *Manager*, the *District Manager* and the *Director* not later than three (3) months after completing the *Source Testing*. The report shall be in the format described in the *Source Testing Code*, and shall also include, but not be limited to:
 1. an executive summary;
 2. an identification of the applicable North American Industry Classification System code (NAICS) for the *Facility*;
 3. records of operating conditions at the time of *Source Testing*, including but not limited to the following:
 - a. production data and equipment operating rate as a percentage of maximum capacity;
 - b. *Facility* /process information related to the operation of the *Biofilters*;
 - c. description of the emission sources controlled by the *Biofilters*; at the time of *Source Testing*; and
 - d. any other monitored data for the *Biofilters* at the time of *Source Testing*;
 4. results of *Source Testing*, including the emission rates, emission concentrations, and relevant emission factors of the *Test Contaminants* from the *Biofilters*;

5. a tabular comparison of calculated emission rates and emission factors based on *Source Testing* results for the *Test Contaminants* to relevant estimates described in the *ESDM Report*.
6. The *Director* may not accept the results of the *Source Testing* if:
 1. the *Source Testing Code* or the requirement of the *Manager* were not followed;
 2. the *Company* did not notify the *Manager*, the *District Manager* and the *Director* of the *Source Testing*; or
 3. the *Company* failed to provide a complete report on the *Source Testing*.
7. If the *Director* does not accept the result of the *Source Testing*, the *Director* may require re-testing. If re-testing is required, the *Pre-Test Plan* strategies need to be revised and submitted to the *Manager* for approval. The actions taken to minimize the possibility of the *Source Testing* results not being accepted by the *Director* must be noted in the revision.
8. The *Company* shall update their *ESDM Report* in accordance with Section 26 of *O. Reg. 419* and the *Procedure Document* with the results from the *Source Testing*, not later than three (3) months after completing the *Source Testing*. Dispersion calculations for the 10-minute average concentration of odour at the *Point of Impingements* and at the *Sensitive Receptors*, shall be calculated in accordance with the procedure outlined in Schedule C. The updated *Emission Summary Table* from the updated *ESDM Report* shall be submitted with the *Source Testing* report.

SCHEDULE C

Procedure to calculate and record the 10-minute average concentration of odour at the *Point of Impingement* and at the most impacted *Sensitive Receptor*

1. Calculate and record one-hour average concentration of odour at the *Point of Impingement* and at the most impacted *Sensitive Receptor*, employing the *AERMOD* atmospheric dispersion model or any other model acceptable to the *Director*, that employs at least five (5) years of hourly local meteorological data and that can provide results reported as individual one-hour average odour concentrations;
2. Convert and record each of the one-hour average concentrations predicted over the five (5) years of hourly local meteorological data at the *Point of Impingement* and at the most impacted *Sensitive Receptor* to 10-minute average concentrations using the One-hour Average to 10-Minute Average Conversion described below; and
3. Record and present the 10-Minute Average concentrations predicted to occur over a five (5) year period at the *Point of Impingement* and at the most impacted *Sensitive Receptor* in a histogram. The histogram shall identify all predicted 10-minute average odour concentration occurrences in terms of frequency, identifying the number of occurrences over the entire range of predicted odour concentration in increments of not more than 1/10 of one odour unit. The maximum 10-minute average concentration of odour at the *Sensitive Receptor* will be considered to be the maximum odour concentration at the most impacted *Sensitive Receptor* that occurs and is represented in the histogram, disregarding outlying data points on the histogram as agreed to by the *Director*.
 - a. Use the following formula to convert and record one-hour average concentrations at the *Point of Impingement* and at the most impacted *Sensitive Receptor* to 10-minute average concentrations:

$$X_{10\text{min}} = X_{60\text{min}} * 1.65$$

where $X_{10\text{min}}$ = 10-minute average concentration

$X_{60\text{min}}$ = one-hour average concentration

(Equation: X Subscript 10min Baseline equals X Subscript 60min Baseline times 1.65, where X Subscript 10min Baseline equals 10-minute average concentration and X Subscript 60min Baseline equals one-hour average concentration.)

The reasons for the imposition of these terms and conditions are as follows:

1. Conditions No. 1 and 2 are included to provide the minimum performance requirements considered necessary to prevent an adverse effect resulting from the operation of the *Facility*.

2. Condition No. 3 is included to emphasize that the *Equipment* must be maintained and operated according to a procedure that will result in compliance with the *EPA*, the Regulations and this *Approval*.
3. Conditions No. 4 to 8 are included to require the *Company* to gather accurate information so that compliance with the *EPA*, the regulations and this *Approval* can be verified.
4. Condition No. 9 is included to require the *Company* to retain records and provide information to the *Ministry* so that compliance with the *EPA*, the regulations and this *Approval* can be verified.

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

The Secretary*
Environmental Review Tribunal
