

Exploration Permit/Permis d'exploration

Number/Numero:

PR-21-000119

This permit is issued under the authority of section 78.3 of the *Mining Act* and the Exploration Plans and Exploration Permits Regulation (O. Reg. 308/12). It is subject to the provisions of the Act and regulation as well as the terms and conditions included in this permit.

Ce permis est émis conformément aux dispositions de section 78.3 de la *Loi sur les mines* et des règlements et est sujet aux restrictions et dispositions de ce lois et règlements ainsi qu'aux conditions ci-énoncées.

Note: The issuance of this permit does not relieve the applicant from the responsibility of acquiring any other agency, board, government, etc. approval as may be required nor does it relieve the permittee from the requirements of any other legislation or guarantee access to the land.

Remarque : La délivrance de ce permis n'exempte pas le demandeur de l'obligation d'obtenir l'autorisation de tout autre organisme, commission, gouvernement, etc. qui pourrait être exigée, n'exempte pas le titulaire des dispositions de toute autre loi et ne garantit pas l'accès à la terre.

1. Project Details

Project Name *

Hammond Reef

Name of Early Exploration Proponent *

Agnico-Eagle Mines Ltd.

Is the proposed early exploration area within the project area for an existing filed closure plan? *

Yes No

Are there any mine hazards identified in the [Abandoned Mines Information System \(AMIS sites\)](#) in your project area? *

Yes No

Enter the Universal Transverse Mercator Coordinates (UTM) in North American Datum 83 (NAD 83) Grid for the centre of your project area

Zone (N) *

15

Easting (m) *

616144

Northing (m) *

5417858

2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

No

What commodity or commodities are being sought in the work program?

None. This is not an exploration activity, it is a geotechnical campaign. Test pits of 5m x 5m x 5 m in overburden will be dug for soil characterization.

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

The Hammond Reef property is accessible by road from Atikokan by following paved secondary Highway 622 for 26 km northwest to the Hardtack-Sawbill Road, then northeast approximately 26 km along this gravel road to the Hammond Reef camp

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

By the existing road. Same as above.

What type of equipment will you be using for all of the early exploration activities?

track mounted type hydraulic shovel (excavator)

What type of drilling will take place? (e.g. core drilling, reverse circulation)
none. Only test pits in overburden.

Do you anticipate the removal of the drill casing?

Yes No

If yes, when will you be removing it?

Immediately 3 to 6 months 6 to 12 months 1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). *

Geophysical surveys requiring a generator ▶ Type of Survey _____

Line cutting ▶ Estimated total line length _____ metres

Mechanized Stripping ▶ Planned Number of stripped locations 19

Estimated total area of stripping 475 square metres

Pitting and Trenching of Bedrock ▶ Planned Number of Pits/Trenches _____

Mechanized Drilling ▶ Planned drill hole diameter _____ centimetres

1 - 5 pads
 6 - 10 pads
 11 - 15 pads
 16 - 20 pads
 > 20 pads

Please identify any non-prescribed activity/activities you will be undertaking to support the prescribed early exploration activity/activities

Creating trails for the purposes of early exploration
 Creating roads for the purposes of early exploration
 Creating/setting up camp(s) to house personnel to perform your prescribed early exploration activities
Number of people in camp _____ Number of camps _____

Ground geophysical surveys without a generator
 Airborne geophysical surveys

Are you planning to store fuel or other hazardous materials on the property? *

Yes No

Please provide any other information relevant to this project.

All trails are existing on site. No test pits will be located in water or less than 30 meters from water (river, stream or lake). The objectives of the geotechnical campaign is to gain information on soils and take soil samples for geochemical analysis and grain size analysis. Organic material will be separated from soil and kept apart. All excavated material will be put back in place and preserve organic material will be replace on top to facilitate growth of vegetation. No permanent storage of fuel or hazardous materials will be done on site. Fuel and hazardous materials will be managed by contractors and temporarily stored until the end of contract.
