

ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 2186-BYRJWV
Issue Date: September 22, 2021

Drain Bros. Excavating Limited
2130 8th Rd N
Dummer, Ontario
K0L 2H0

Site Location: 6830 Highway 7
6830 Highway 7 Lot 6, Concession 6 (Havelock)
Havelock-Belmont-Methuen Township, County of
Peterborough

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

Description Section

A biodiesel production facility, consisting of the following processes and support units:

- material receiving;
- pretreatment processor;
- two (2) Methes Denami 600 continuous flow biodiesel processors;
- quality control laboratory;
- storage tanks for finished product and raw materials;
- truck loading area;
- combined heat and power system consisting of two (2) natural gas-fired engines equipped with selective catalytic reduction equipment;

including the Equipment and any other ancillary and support processes and activities, operating at a Facility Production Limit of up to 10 million litres of biodiesel per year discharging to the air as described in the Original ESDM Report.

For the purpose of this environmental compliance approval, the following definitions apply:

1. "ACB list" means the document entitled "Air Contaminants Benchmarks (ACB) List: Standards, guidelines and screening levels for assessing point of impingement concentrations of air

contaminants”, as amended from time to time and published by the Ministry and available on a Government website;

2. "Acceptable Point of Impingement Concentration" means a concentration accepted by the Ministry as not likely to cause an adverse effect for a Compound of Concern that,
 - a. is not identified in the ACB list, or
 - b. is identified in the ACB list as belonging to the category “Benchmark 2” and has a concentration at a Point of Impingement that exceeds the concentration set out for the contaminant in that document.

With respect to the Original ESDM Report, the Acceptable Point of Impingement Concentration for a Compound of Concern mentioned above is the concentration set out in the Original ESDM Report;

3. "Acoustic Assessment Report" means the report, prepared in accordance with Publication NPC-233 and Appendix A of the Basic Comprehensive User Guide, by Trevor Copeland and Trevor Ross, Cambium Inc., dated January 15, 2021, and submitted in support of the application, that documents all sources of noise emissions and Noise Control Measures present at the Facility, as updated in accordance with Condition 5 of this Approval;
4. "Acoustic Assessment Summary Table" means a table prepared in accordance with the Basic Comprehensive User Guide summarising the results of the Acoustic Assessment Report, as updated in accordance with Condition 5 of this Approval;
5. "Acoustic Audit” means an investigative procedure consisting of measurements and/or acoustic modelling of all sources of noise emissions due to the operation of the Facility, assessed to determine compliance with the Performance Limits for the Facility regarding noise emissions, completed in accordance with the procedures set in Publication NPC-103 and reported in accordance with Publication NPC-233;
6. "Acoustic Audit Report" means a report presenting the results of an Acoustic Audit, prepared in accordance with Publication NPC-233;
7. "Acoustical Consultant" means a person currently active in the field of environmental acoustics and noise/vibration control, who is familiar with Ministry noise guidelines and procedures and has a combination of formal university education, training and experience necessary to assess noise emissions from a Facility;
8. "Adjacent Facility" means the Kawartha Ethanol Inc. ethanol production facility located at 6830 Highway 7, Havelock, Ontario and the Drain Bros. Excavating Limited quarrying and aggregate production facility located at 6830 Highway 7, Havelock, Ontario;
9. "Approval" means this entire Environmental Compliance Approval and any Schedules to it;

10. "Basic Comprehensive User Guide" means the Ministry document titled "Basic Comprehensive Certificates of Approval (Air) User Guide" dated March 2011, as amended;
11. "Company" means Drain Bros. Excavating Limited that is responsible for the construction or operation of the Facility and includes any successors and assigns in accordance with section 19 of the EPA;
12. "Compound of Concern" means a contaminant described in paragraph 4 subsection 26 (1) of O. Reg. 419/05, namely, a contaminant that is discharged from the Facility in an amount that is not negligible;
13. "Description Section" means the section on page one of this Approval describing the Company's operations and the Equipment located at the Facility and specifying the Facility Production Limit for the Facility;
14. "Director" means a person appointed for the purpose of section 20.3 of the EPA by the Minister pursuant to section 5 of the EPA;
15. "District Manager" means the District Manager of the appropriate local district office of the Ministry, where the Facility is geographically located;
16. "Emission Summary Table" means a table described in paragraph 14 of subsection 26 (1) of O. Reg. 419/05;
17. "Environmental Assessment Act" means the Environmental Assessment Act, R.S.O. 1990, c.E.18;
18. "EPA" means the Environmental Protection Act, R.S.O. 1990, c.E.19;
19. "Equipment" means the Company's equipment or processes described in the ESDM Report, the Acoustic Assessment Report, this Approval and in the Schedules referred to herein and any other equipment or processes;
20. "Equipment with Specific Operational Limits" means the combine heat and power system in this Approval and any Equipment related to the thermal oxidation of waste or waste derived fuels, fume incinerators or any other Equipment that is specifically referenced in any published Ministry document that outlines specific operational guidance that must be considered by the Director in issuing an Approval;
21. "ESDM Report" means the most current Emission Summary and Dispersion Modelling Report that describes the Facility. The ESDM Report is based on the Original ESDM Report and is updated after the issuance of this Approval in accordance with section 26 of O. Reg. 419/05 and the Procedure Document;
22. "Facility" means the entire Drain Bros. Excavating Limited biodiesel production and CHP operation located on the Property where the Equipment is located;

23. "Facility Production Limit" means the production limit placed by the Director on the main product(s) or raw materials used by the Facility;
24. "Independent Acoustical Consultant" means an Acoustical Consultant not representing the Company, and not involved in the noise impact assessment or the design/implementation of noise control measures for the Facility/Equipment. The Independent Acoustical Consultant shall not be retained by the consultant involved in the noise/vibration impact assessment or the design/implementation of noise/vibration control measures for the Facility/Equipment;
25. "Log" means a document that contains a record of each change that is required to be made to the ESDM Report and Acoustic Assessment Report, including the date on which the change occurred. For example, a record would have to be made of a more accurate emission rate for a source of contaminant, more accurate meteorological data, a more accurate value of a parameter that is related to a source of contaminant, a change to a Point of Impingement and all changes to information associated with a Modification to the Facility that satisfies Condition 2;
26. "Manager" means the Manager, Technology Standards Section, Technical Assessment and Standards Development Branch, or any other person who represents and carries out the duties of the Manager, Technology Standards Section, Technical Assessment and Standards Development Branch, as those duties relate to the conditions of this Approval;
27. "Minister" means the Minister of the Environment, Conservation and Parks or such other member of the Executive Council as may be assigned the administration of the EPA under the Executive Council Act;
28. "Ministry" means the ministry of the Minister;
29. "Modification" means any construction, alteration, extension or replacement of any plant, structure, equipment, apparatus, mechanism or thing, or alteration of a process or rate of production at the Facility that may discharge or alter the rate or manner of discharge of a Compound of Concern to the air or discharge or alter noise or vibration emissions from the Facility;
30. "Noise Control Measures" means measures to reduce the noise emissions from the Facility and/or Equipment including, but not limited to, silencers, acoustic louvres, enclosures, absorptive treatment, plenums and barriers. It also means the Noise Control Measures, as outlined in as outlined in Table 4 of the Acoustic Assessment Report dated January 15, 2021, and signed by Trevor Copeland and Trevor Ross, Cambium Inc., and detailed in Schedule B of this Approval;
31. "O. Reg. 419/05" means Ontario Regulation 419/05: Air Pollution – Local Air Quality;
32. "Original ESDM Report" means the Emission Summary and Dispersion Modelling Report which was prepared in accordance with section 26 of O. Reg. 419/05 and the Procedure Document by Sadie Bachynski, P.Eng. / Cambium Inc. and dated January 13, 2021 submitted in support of the application, and includes any changes to the report made up to the date of issuance of this Approval;

33. "Point of Impingement" has the same meaning as in section 2 of O. Reg. 419/05;
34. "Point of Reception" means Point of Reception as defined by Publication NPC-300;
35. "Pre-Test Plan" means a plan for the Source Testing including the information required in Section 5 of the Source Testing Code;
36. "Procedure Document" means Ministry guidance document titled "Procedure for Preparing an Emission Summary and Dispersion Modelling Report" dated March 2018, as amended;
37. "Processes with Significant Environmental Aspects" means the Equipment which, during regular operation, would discharge one or more contaminants into the air in an amount which is not considered as negligible in accordance with section 26 (1) 4 of O. Reg. 419/05 and the Procedure Document;
38. "Property" means, in accordance with s. 4, O. Reg. 419/05, the single property occupied by Drain Bros. Excavating Limited and Kawartha Ethanol Inc., as described in the Company's application, this Approval and in the supporting documentation submitted with the application, to the extent approved by this Approval;
39. "Publication NPC-103" means Publication NPC-103, Procedures, August 1978;
40. "Publication NPC-207" means the Ministry draft technical publication "Impulse Vibration in Residential Buildings", November 1983, supplementing the Model Municipal Noise Control By-Law, Final Report, published by the Ministry, August 1978, as amended;
41. "Publication NPC-233" means the Ministry Publication NPC-233, "Information to be Submitted for Approval of Stationary Sources of Sound", October, 1995, as amended;
42. "Publication NPC-300" means the Ministry Publication NPC-300, "Environmental Noise Guideline, Stationary and Transportation Sources – Approval and Planning, Publication NPC-300", August 2013, as amended;
43. "Schedules" means the following schedules attached to this Approval and forming part of this Approval namely:
 - Schedule A - Supporting Documentation;
 - Schedule B - Noise Control Measures; and
 - Schedule C - Maximum Limits;
44. "Source Testing" means sampling and testing to measure emissions resulting from operating the Targeted Sources under conditions which yield the worst case emissions within the approved operating range of the Targeted Sources which satisfies paragraph 1 of subsection 11(1) of O. Reg. 419/05;
45. "Source Testing Code" means the Ontario Source Testing Code, dated June 2010, prepared by the

Ministry, as amended;

46. "Targeted Source" means the two (2) natural gas-fired engines equipped with selective catalytic reduction equipment which comprises the combined heat and power system, described in the Company's application, this Approval and in the supporting documentation submitted with the application, to the extent approved by this Approval;
47. "Test Contaminant" means Nitrogen Oxides (expressed as nitrogen dioxide equivalent);
48. "Toxicologist" means a qualified professional currently active in the field of risk assessment and toxicology that has a combination of formal university education, training and experience necessary to assess contaminants;
49. "Truck(s)" means highway truck(s) or dump truck(s) or quarry rock truck(s) or armor stone haul truck(s); and
50. "Written Summary Form" means the electronic questionnaire form, available on the Ministry website, and supporting documentation, that documents the activities undertaken at the Facility in the previous calendar year.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1. GENERAL

1. Except as otherwise provided by this Approval, the Facility shall be designed, developed, built, operated and maintained in accordance with the terms and conditions of this Approval and in accordance with the following Schedules attached hereto:
 - Schedule A - Supporting Documentation;
 - Schedule B - Noise Control Measures; and
 - Schedule C - Maximum Limits.

2. LIMITED OPERATIONAL FLEXIBILITY

1. Pursuant to section 20.6 (1) of the EPA and subject to Conditions 2.2 and 2.3 of this Approval, future construction, alterations, extensions or replacements are approved in this Approval if the future construction, alterations, extensions or replacements are Modifications to the Facility that:
 - a. are within the scope of the operations of the Facility as described in the Description Section of this Approval;
 - b. do not result in an increase of the Facility Production Limit above the level specified in the

Description Section of this Approval; and

- c. result in compliance with the performance limits as specified in Condition 4.
2. Condition 2.1 does not apply to,
 - a. the addition of any new Equipment with Specific Operational Limits or to the Modification of any existing Equipment with Specific Operational Limits at the Facility; and
 - b. Modifications to the Facility that would be subject to the Environmental Assessment Act.
3. Condition 2.1 of this Approval shall expire ten (10) years from the date of this Approval, unless this Approval is revoked prior to the expiry date. The Company may apply for renewal of Condition 2.1 of this Approval by including an ESDM Report and an Acoustic Assessment Report that describes the Facility as of the date of the renewal application.

3. REQUIREMENT TO REQUEST AN ACCEPTABLE POINT OF IMPINGEMENT CONCENTRATION

1. Prior to making a Modification to the Facility that satisfies Condition 2.1.a. and 2.1.b., the Company shall prepare a proposed update to the ESDM Report to reflect the proposed Modification.
2. The Company shall request approval of an Acceptable Point of Impingement Concentration for a Compound of Concern if the Compound of Concern is not identified in the ACB list as belonging to the category “Benchmark 1” and a proposed update to an ESDM Report indicates that one of the following changes with respect to the concentration of the Compound of Concern may occur:
 - a. The Compound of Concern was not a Compound of Concern in the previous version of the ESDM Report and
 - i. the concentration of the Compound of Concern exceeds the concentration set out for the contaminant in the ACB list; or
 - ii. the Compound of Concern is not identified in the ACB list; or
 - b. The concentration of the Compound of Concern in the updated ESDM Report exceeds the higher of,
 - i. the most recent Acceptable Point of Impingement Concentration, and
 - ii. the concentration set out for the contaminant in the ACB list, if the contaminant is identified in that document.
3. The request required by Condition 3.2 shall propose a concentration for the Compound of

Concern and shall contain an assessment, performed by a Toxicologist, of the likelihood of the proposed concentration causing an adverse effect at Points of Impingement.

4. If the request required by Condition 3.2 is a result of a proposed Modification described in Condition 3.1, the Company shall submit the request, in writing, to the Director at least 30 days prior to commencing to make the Modification. The Director shall provide written confirmation of receipt of this request to the Company.
5. If a request is required to be made under Condition 3.2 in respect of a proposed Modification described in Condition 3.1, the Company shall not make the Modification mentioned in Condition 3.1 unless the request is approved in writing by the Director.
6. If the Director notifies the Company in writing that the Director does not approve the request, the Company shall,
 - a. revise and resubmit the request; or
 - b. notify the Director that it will not be making the Modification.
7. The re-submission mentioned in Condition 3.6 shall be deemed a new submission under Condition 3.2.
8. If the Director approves the request, the Company shall update the ESDM Report to reflect the Modification.
9. Condition 3 does not apply if Condition 2.1 has expired.

4. PERFORMANCE LIMITS

1. Subject to Condition 4.2, the Company shall not discharge or cause or permit the discharge of a Compound of Concern into the air if,
 - a. the Compound of Concern is identified in the ACB list as belonging to the category "Benchmark 1" and the discharge results in the concentration at a Point of Impingement exceeding the Benchmark 1 concentration; or
 - b. the Compound of Concern is not identified in the ACB list as belonging to the category "Benchmark 1" and the discharge results in the concentration at a Point of Impingement exceeding the higher of,
 - i. if an Acceptable Point of Impingement Concentration exists, the most recent Acceptable Point of Impingement Concentration, and
 - ii. the concentration set out for the contaminant in the ACB list, if the contaminant is identified in that document.

2. Condition 4.1 does not apply if the benchmark set out in the ACB list has a 10-minute averaging period and no ambient monitor indicates an exceedance at a Point of Impingement where human activities regularly occur at a time when those activities regularly occur.
3. The Company shall:
 1. at all times operate the Equipment/Facility in accordance with the Acoustic Assessment Report dated January 15, 2021, and signed by Trevor Copeland and Trevor Ross, Cambium Inc.;
 2. implement the Noise Control Measures, as outlined in Table 4 of the Acoustic Assessment Report dated January 15, 2021, and signed by Trevor Copeland and Trevor Ross, Cambium Inc. and detailed in Schedule B of this Approval;
 3. ensure that any and all Trucks arrive at and depart from the Facility in accordance with Schedule B of this Approval;
 4. ensure, subsequent to the implementation of all Noise Control Measures for the Facility and Adjacent Facility, as detailed in Table 4 of the Acoustic Assessment Report, that the combined noise emissions from the Facility and Adjacent Facility comply with the limits set out in Ministry Publication NPC-300; and
 5. ensure that all Noise Control Measures, are properly maintained and continue to provide the acoustical performance outlined in the Acoustic Assessment Report.
4. The Company shall ensure that the vibration emissions from the Facility and Adjacent Facility comply with the limits set out in Ministry Publication NPC-207.
5. The Company shall operate any Equipment with Specific Operational Limits approved by this Approval in accordance with the Original ESDM Report.

5. DOCUMENTATION REQUIREMENTS

1. The Company shall maintain an up-to-date Log.
2. No later than March 31 in each year, the Company shall update the Acoustic Assessment Report and shall update the ESDM Report in accordance with section 26 of O. Reg. 419/05 so that the information in the reports is accurate as of December 31 in the previous year.
3. While preparing, or proposing to update or updating the ESDM Report and the Acoustic Assessment Report, the Company shall consider the most current information from the Adjacent Facility.
4. The Company shall make the Emission Summary Table (see section 27 of O. Reg. 419/05) and Acoustic Assessment Summary Table available for examination by any person, without charge, by posting it on the Internet or by making it available during regular business hours at the

Facility.

5. The Company shall, within three (3) months after the expiry of Condition 2.1 of this Approval, update the ESDM Report and the Acoustic Assessment Report such that the information in the reports is accurate as of the date that Condition 2.1 of this Approval expired.
6. Conditions 5.1 and 5.2 do not apply if Condition 2.1 has expired.

6. REPORTING REQUIREMENTS

1. Subject to Condition 6.2, the Company shall provide the Director no later than June 30 of each year, a Written Summary Form to be submitted through the Ministry's website that shall include the following:
 - a. a declaration of whether the Facility was in compliance with section 9 of the EPA, O. Reg. 419/05 and the conditions of this Approval;
 - b. a summary of each Modification satisfying Condition 2.1.a. and 2.1.b. that took place in the previous calendar year that resulted in a change in the previously calculated concentration at a Point of Impingement for any Compound of Concern or resulted in a change in the sound levels reported in the Acoustic Assessment Summary Table at any Point of Reception.
2. Condition 6.1 does not apply if Condition 2.1 has expired.

7. OPERATION AND MAINTENANCE

1. The Company shall prepare and implement, not later than three (3) months from the date of this Approval, operating procedures and maintenance programs for all Processes with Significant Environmental Aspects, which shall specify as a minimum:
 - a. frequency of inspections and scheduled preventative maintenance;
 - b. procedures to prevent upset conditions;
 - c. procedures to minimize all fugitive emissions;
 - d. procedures to prevent and/or minimize odorous emissions;
 - e. procedures to prevent and/or minimize noise emissions; and
 - f. procedures for record keeping activities relating to the operation and maintenance programs.
2. The Company shall ensure that all Processes with Significant Environmental Aspects are operated and maintained in accordance with this Approval, the operating procedures and maintenance programs.

8. COMPLAINTS RECORDING AND REPORTING

1. If at any time, the Company receives an environmental complaint from the public regarding the operation of the Equipment approved by this Approval, the Company shall take the following steps:
 - a. Record and number each complaint, either electronically or in a log book. The record shall include the following information: the time and date of the complaint and incident to which the complaint relates, the nature of the complaint, wind direction at the time and date of the incident to which the complaint relates and, if known, the address of the complainant.
 - b. Notify the District Manager of the complaint within two (2) business days after the complaint is received, or in a manner acceptable to the District Manager.
 - c. Initiate appropriate steps to determine all possible causes of the complaint, and take the necessary actions to appropriately deal with the cause of the subject matter of the complaint.
 - d. Complete and retain on-site a report written within five (5) business days of the complaint date. The report shall list the actions taken to appropriately deal with the cause of the complaint and set out steps to be taken to avoid the recurrence of similar incidents.

9. RECORD KEEPING REQUIREMENTS

1. Any information requested by any employee in or agent of the Ministry concerning the Facility and its operation under this Approval, including, but not limited to, any records required to be kept by this Approval, shall be provided to the employee in or agent of the Ministry, upon request, in a timely manner.
2. Unless otherwise specified in this Approval, the Company shall retain, for a minimum of five (5) years from the date of their creation all reports, records and information described in this Approval, including,
 - a. a copy of the Original ESDM Report and each updated version;
 - b. a copy of each version of the Acoustic Assessment Report;
 - c. supporting information used in the emission rate calculations performed in the ESDM Reports and Acoustic Assessment Reports;
 - d. the records in the Log;
 - e. copies of each Written Summary Form provided to the Ministry under Condition 6.1 of this Approval;
 - f. records of maintenance, repair and inspection of Equipment related to all Processes with

Significant Environmental Aspects; and

- g. all records related to environmental complaints made by the public as required by Condition 8 of this Approval.

10. SOURCE TESTING

1. The Company shall ensure that the emissions of the Test Contaminant in the gases emitted from the stack of the Targeted Source shall not be greater than the emission limits specified in Schedule C of this Approval.
2. The Company shall perform Source Testing initially and once every two (2) years thereafter to determine the rate of emission of the Test Contaminant from the Targeted Source.
3. The Company shall submit, not later than three (3) months after the date of this Approval and not later than three (3) months before the date subsequent Source Testing is planned, to the Manager a Pre-Test Plan for the Source Testing of the Targeted Source. The Company shall finalize the Pre-Test Plan in consultation with the Manager.
4. The Company shall not commence the Source Testing required under this Approval until the Manager has approved the Pre-Test Plan.
5. The Company shall complete the Source Testing not later than three (3) months after the Manager has approved the Pre-Test Plan.
6. The Company shall notify the Manager, the District Manager and the Director in writing of the location, date and time of any impending Source Testing required by this Approval, at least fifteen (15) days prior to the Source Testing.
7. The Company shall submit a report (hardcopy and electronic format) on the Source Testing to the Manager, the District Manager and the Director not later than three (3) months after completing the Source Testing. The report shall be in the format described in the Source Testing Code, and shall also include, but not be limited to:
 - a. an executive summary;
 - b. an identification of the applicable North American Industry Classification System code (NAICS) for the Facility;
 - c. records of operating conditions at the time of Source Testing, including but not limited to the following:
 - i. production data;
 - ii. Facility/process information related to the operation of the Targeted Source;

- iii. description of the emission sources controlled by the Targeted Source at the time of testing; and
 - iv. operational description of the general building ventilation at the time of testing;
 - d. results of Source Testing, including the emission rate, emission concentration, and relevant emission factor of the Test Contaminant from the Targeted Source; and
 - e. a tabular comparison of Source Testing results for the Targeted Source and Test Contaminant to original emission estimates described in the Company's application and the ESDM Report.
8. The Director may not accept the results of the Source Testing if:
- a. the Source Testing Code or the requirements of the Manager were not followed;
 - b. the Company did not notify the Manager, the District Manager and Director of the Source Testing; or
 - c. the Company failed to provide a complete report on the Source Testing.
9. If the Director does not accept the results of the Source Testing, the Director may require re-testing. If re-testing is required, the Pre-Test Plan strategies need to be revised and submitted to the Manager for approval. The actions taken to minimize the possibility of the Source Testing results not being accepted by the Director must be noted in the revised Pre-Test Plan submission to the Manager.
10. If the Source Testing results indicate the emission estimates are higher than the original emission estimates described in the Company's application and the ESDM Report, the Company shall update their ESDM Report in accordance with Section 26 of O. Reg. 419/05 with the emission estimates from the source testing report and make these records available for review by staff of the Ministry upon request. The updated Emission Summary Table from the updated ESDM Report shall be submitted with the report on the Source Testing.
11. The District Manager may not require subsequent Source Testing or relax the frequency of subsequent Source Testing if the results of the Source Testing indicate that the environmental impact from the Test Contaminant are insignificant.

11. ACOUSTIC AUDIT

- 1. The Company shall carry out Acoustic Audit measurements on the actual combined noise emissions due to the operations of the Facility and Adjacent Facility. The Company:
 - a. shall carry out Acoustic Audit measurements in accordance with the procedures in Publication NPC-103; and
 - b. shall submit an Acoustic Audit Report on the results of the Acoustic Audit, prepared by an

Independent Acoustical Consultant, in accordance with the requirements of Publication NPC-233, to the District Manager and the Director, not later than nine (9) months after fully implementing all Noise Control Measures for the Facility and Adjacent Facility as detailed in the Acoustic Assessment Report dated January 15, 2021, and signed by Trevor Copeland and Trevor Ross, Cambium Inc. and detailed in Schedule B of this Approval.

2. The Director:
 - a. may not accept the results of the Acoustic Audit if the requirements of Ministry Publication NPC-233 were not followed; and
 - b. may require the Company to repeat the Acoustic Audit if the results of the Acoustic Audit are found unacceptable to the Director.

12. REVOCATION OF PREVIOUS APPROVALS

1. This Approval replaces and revokes all Certificates of Approval (Air) issued under section 9 EPA and Environmental Compliance Approvals issued under Part II.1 EPA to the Facility in regards to the activities mentioned in subsection 9(1) of the EPA and dated prior to the date of this Approval.

Schedule A

Supporting Documentation

1. Environmental Compliance Approval Application, dated November 29, 2019, signed by Darrell Drain, President and submitted by the Company;
2. Emission Summary and Dispersion Modelling Report, prepared by Sadie Bachynski, P.Eng. / Cambium Inc. and dated January 13, 2021;
3. Acoustic Assessment Report, prepared by Trevor Copeland, P.Eng. and Trevor Ross / Cambium Inc. and dated January 15, 2021;
4. Letter dated October 30, 2020 signed by Darrell Drain, President;
5. December 4, 2020 emails from Steve tenDoeschate / Kawartha Ethanol Inc. and Trevor Copeland, P.Eng. / Cambium Inc. re: confirmation of scope change to application to have entire biodiesel production facility owned by Drain Bros. Excavating Ltd.;
6. Additional information related to air emissions submitted via emails dated January 7, 2021 and January 21, 2021 by Sadie Bachynski, P.Eng. / Cambium Inc. and Cody Givens / Cambium, respectively; and
7. Additional information related to noise emissions submitted via emails dated March 27, 2020, July 6, 2020, August 28, 2020, October 30, 2020, November 12, 20 and 30, 2020, December 2, 4, 23 and 28, 2020, and January 15 and 20, 2021.

Schedule B

Noise Control Measures

Physical

The Company shall implement the following Noise Control Measure upon issuance of future aggregate license roll number 153101000216200

Rock Drill Barrier: One (1) 825 metres long, 9 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

The Company shall implement the following Noise Control Measures not later than one (1) year after the date on this Approval.

Barrier at Armor Stone Area: One (1) 80 metres long, 2.5 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

Barrier at Secondary Processing: One (1) 12 metres long, 7.5 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

Barrier at Secondary Processing Southeast: One (1) 53 metres long, 9 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

Corn Oil Building Exhaust Fans (Sources DB_EP32 to DB_EP34) - Acoustically Lined Elbows or New Quieter Fans

Each existing Corn Oil Building Fans Exhaust, Sources DB_EP32 to DB_EP34, requires installation of the acoustically lined 90-degree elbows directing noise downward. Each acoustically lined elbow shall provide at least the following minimum acoustical performance specifications in terms of sound insertion loss (IL) throughout the octave bands:

Octave Band Centre Frequency (Hz)	63	125	250	500	1 k	2 k	4 k	8 k
Insertion-Loss (dB)	-	1	4	7	7	7	7	7

Or, if the fans are to be replaced with new quieter units/fans:

- Each new EP17 and EP18 fan shall have maximum sound power level not greater than 81 dBA, including any applicable adjustments;
- Each new EP38 to EP42 fans shall have maximum sound power level not greater than 77 dBA,

- including all applicable adjustments; and
- Each new EP53 to EP55 and EP60 fan shall have maximum sound power level not greater than 90 dBA, including any applicable adjustments.

The Company shall implement the following Noise Control Measures not later than two (2) years after the date on this Approval.

Barrier at Secondary Processing West: One (1) 78 metres long, 12 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

Barrier at Secondary Processing Northwest: One (1) 100 metres long, 12 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

The Company shall implement the following Noise Control Measures not later than three (3) years after the date on this Approval.

Barrier at Q_DC: One (1) 25 metres long, 6 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

The Company shall implement the following Noise Control Measures not later than four (4) years after the date on this Approval.

Baghouse Stack (Sources Q_DC08b, Q_DC09b)

Each existing baghouse stack (Sources Q_DC08b, Q_DC09b), shall be equipped with a silencer. The silencer shall have at least the following minimum acoustical performance specifications in terms of sound insertion loss (IL) throughout the octave bands:

Octave Band Centre Frequency (Hz)	63	125	250	500	1 k	2 k	4 k	8 k
Insertion-Loss (dB)	9	12	20	26	34	30	22	17

Corn Storage Bin vents/exhaust fans (Sources CS_BV01 to CS_BV05)

Each existing Corn Storage Bin vent/exhaust fan, sources CS_BV01-CSBV05, shall be equipped with a silencer or replaced with a new quieter unit. The silencer shall have at least the following minimum acoustical performance specifications in terms of sound insertion loss (IL) throughout the octave bands:

Octave Band Centre Frequency (Hz)	63	125	250	500	1 k	2 k	4 k	8 k
Insertion-Loss (dB)	5	8	13	19	26	27	22	13

As a result of proposed mitigation, the vents/exhaust fans under consideration shall have following maximum sound power levels:

- AS_BV01 and CS_BV02 shall have maximum sound power levels not greater than 84 dBA, including any applicable adjustments;
- CS_BV03 shall have maximum sound power levels not greater than 88 dBA, including any applicable adjustments;
- CS_BV04 shall have maximum sound power levels not greater than 77 dBA, including any applicable adjustments; and
- CS_BV05 shall have maximum sound power levels not greater than 78 dBA, including any applicable adjustments.

Corn Storage Bin Vents (Sources CS_BV06 to CS_BV08)

Each existing Corn Storage Bin vent/exhaust fan, sources CS_BV06-CSBV08) shall be equipped with a silencer or replaced with a new quieter unit. The silencer shall have at least the following minimum acoustical performance specifications in terms of sound insertion loss (IL) throughout the octave bands:

Octave Band Centre Frequency (Hz)	63	125	250	500	1 k	2 k	4 k	8 k
Insertion-Loss (dB)	-	1	4	7	7	7	7	7

Mitigation shall ensure noise reduction of at least 14 dB per each vent/exhaust fan, and as a result each vent/exhaust fan under consideration shall have a maximum sound power level not greater than 86 dBA, including any applicable adjustments.

The Company shall implement the following Noise Control Measures not later than five (5) years after the date on this Approval.

Barrier at Secondary Processing South: One (1) 60 metres long, 2.5 metres high acoustic barrier positioned as per Table 4 of the Acoustic Assessment Report prepared by Cambium Inc, dated 15 January 2021 and signed by Trevor Copeland and Trevor Ross, continuous without any holes, gaps and other penetrations, and having a surface mass of at least 20 kilograms per square metre.

Dryer Intake (Source Q_ST07): shall be equipped with a silencer. The silencer shall have at least the following minimum acoustical performance specifications in terms of sound insertion loss (IL) throughout the octave bands:

Octave Band Centre Frequency (Hz)	63	125	250	500	1 k	2 k	4 k	8 k
Insertion-Loss (dB)	2	5	10	15	24	27	24	13

Administrative:

The Company shall implement the following Noise Control Measures upon issuance of this Approval

- Loader at the working face, in the north east parcels of the quarry shall operate below grade and behind the working face of the quarry, and
- Quarry primary crushing, screen, loaders drill and rock trucks are limited to daytime hours 07:00 to 19:00, and

- Maximum thirty (30) quarry highway truck arrivals and thirty(30) quarry highway truck departures per sixty minute time period during the daytime and evening hours 07:00 to 23:00, and night time hours 05:00 to 07:00, and
- Maximum two (2) quarry highway truck arrivals and two(2) quarry highway truck departures per sixty minute time period during the night time hours 23:00 to 05:00, and
- Maximum twelve (12) quarry trucks per sixty minute time period during the daytime hours 07:00 to 19:00, and
- Maximum six (6) truck round trips per sixty minute time period during the daytime hours 07:00 to 19:00, for armor stone yard loaders, and
- Maximum two (2) armor stone haul truck arrivals and two(2) armor stone haul truck departures per sixty minute time period during the daytime hours 07:00 to 19:00, and
- Armor stone blade saws shall not operate during the night time hours 05:00 to 07:00.

Schedule C

Maximum Limits

Test Contaminant	Maximum Limit
Nitrogen Oxide	0.4 kg/MWh

Note: "kg/MWh" means kilogram per megawatt-hour

The reasons for the imposition of these terms and conditions are as follows:

1. GENERAL

Condition No. 1 is included to require the Approval holder to build, operate and maintain the Facility in accordance with the Supporting Documentation in Schedule A considered by the Director in issuing this Approval.

2. LIMITED OPERATIONAL FLEXIBILITY, REQUIREMENT TO REQUEST AN ACCEPTABLE POINT OF IMPINGEMENT CONCENTRATION AND PERFORMANCE LIMITS

Conditions No. 2, 3 and 4 are included to limit and define the Modifications permitted by this Approval, and to set out the circumstances in which the Company shall request approval of an Acceptable Point of Impingement Concentration prior to making Modifications. The holder of the Approval is approved for operational flexibility for the Facility that is consistent with the description of the operations included with the application up to the Facility Production Limit. In return for the operational flexibility, the Approval places performance based limits that cannot be exceeded under the terms of this Approval. Approval holders will still have to obtain other relevant approvals required to operate the Facility, including requirements under other environmental legislation such as the Environmental Assessment Act.

3. DOCUMENTATION REQUIREMENTS

Condition No. 5 is included to require the Company to maintain ongoing documentation that demonstrates compliance with the performance limits as specified in Condition 4 of this Approval and allows the Ministry to monitor on-going compliance with these performance limits. The Company is required to have an up to date ESDM Report and Acoustic Assessment Report that describe the Facility at all times and make the Emission Summary Table and Acoustic Assessment Summary Table from these reports available to the public on an ongoing basis in order to maintain public communication with regard to the emissions from the Facility.

4. REPORTING REQUIREMENTS

Condition No. 6 is included to require the Company to provide a yearly Written Summary Form to the Ministry, to assist the Ministry with the review of the site's compliance with the EPA, the regulations and this Approval.

5. OPERATION AND MAINTENANCE

Condition No. 7 is included to require the Company to properly operate and maintain the Processes with Significant Environmental Aspects to minimize the impact to the environment from these processes.

6. COMPLAINTS RECORDING AND REPORTING PROCEDURE

Condition No. 8 is included to require the Company to respond to any environmental complaints regarding the operation of the Equipment, according to a procedure that includes methods for preventing recurrence of similar incidents and a requirement to prepare and retain a written report.

7. RECORD KEEPING REQUIREMENTS

Condition No. 9 is included to require the Company to retain all documentation related to this Approval and provide access to employees in or agents of the Ministry, upon request, so that the Ministry can determine if a more detailed review of compliance with the performance limits as specified in Condition 4 of this Approval is necessary.

8. SOURCE TESTING

Condition No. 10 is included to require the Company to gather and retain accurate information so that compliance with the EPA, the regulations and this Approval can be verified.

9. ACOUSTIC AUDIT

Condition No. 11 is included to require the Company to gather accurate information and submit an Acoustic Audit Report in accordance with procedures set in the Ministry's noise guidelines, so that the environmental impact and subsequent compliance with this Approval can be verified.

10. REVOCATION OF PREVIOUS APPROVALS

Condition No. 12 is included to identify that this Approval replaces all Section 9 Certificate(s) of Approval and Part II.1 Approvals in regards to the activities mentioned in subsection 9(1) of the EPA and dated prior to the date of this Approval.

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

- 1. The name of the appellant;
- 2. The address of the appellant;
- 3. The environmental compliance approval number;
- 4. The date of the environmental compliance approval;
- 5. The name of the Director, and;
- 6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

The Secretary*
Environmental Review Tribunal
655 Bay Street, Suite 1500
Toronto, Ontario
M5G 1E5

AND

The Minister of the Environment,
Conservation and Parks
777 Bay Street, 5th Floor
Toronto, Ontario
M7A 2J3

AND

The Director appointed for the purposes of
Part II.1 of the Environmental Protection Act
Ministry of the Environment,
Conservation and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, Ontario
M4V 1P5

*** Further information on the Environmental Review Tribunal's requirements for an appeal can be obtained directly from the Tribunal at: Tel: (416) 212-6349, Fax: (416) 326-5370 or www.ert.gov.on.ca**

This instrument is subject to Section 38 of the Environmental Bill of Rights, 1993, that allows residents of Ontario to seek leave to appeal the decision on this instrument. Residents of Ontario may seek leave to appeal within 15 days from the date this decision is placed on the Environmental Registry. By accessing the Environmental Registry at <https://ero.ontario.ca/>, you can determine when the leave to appeal period ends.

The above noted activity is approved under s.20.3 of Part II.1 of the Environmental Protection Act.

DATED AT TORONTO this 22nd day of September, 2021

Neryed Ragbar, P.Eng.

Director

appointed for the purposes of Part II.1 of the
Environmental Protection Act
