9. Provincial Plans

9.1 Is the subject land for the proposed development located within an area of land designated in any provincial plan?*

Yes No *There will not be any development on the subject land.*

9.2 If yes, identify which provincial plan(s) and explain the current designation(s) of the subject land(s).

N/A

9.3 If yes, does the proposal conform/not conflict with the policies contained in the provincial plan(s)?*

Yes No

If yes, please explain. Attach a separate page, if necessary. Submit a copy of the planning report, if applicable.

N/A

10. Archaeology

10.1 Does the subject land contain any known archaeological resources or areas of archaeological potential?

Yes No Unknown

If yes, does the plan propose to develop lands within the subject lands that contain:

- Known archaeological resources? Yes No
- Areas of archaeological potential? Yes No

10.2 If yes, contact the regional Municipal Services Office-MMA staff to discuss whether any reports may be needed.

N/A

11. Servicing

11.1 Indicate in a) and b) the proposed type of servicing for the subject land. Select the appropriate type of servicing from Table B.

11.1 a) Indicate the proposed type of sewage disposal system - whether sewage disposal will be provided to the subject land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? * The subject land has a privately owned and operated individual septic system. (Table B - item c) The retained portion of PIN 42059-0076 (2.0ha.) will remain the same. Lot addition will become part of PIN 42059-0075 which has its own privately owned and operated individual septic system (No changes).

11.1 b) Indicate the proposed type of water supply system - whether water will be provided to the subject land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? * The subject land has a privately owned and operated individual well (Table B - item b). The retained portion of PIN 42059-0076 (2.0ha.) will remain the same. The lot addition will become part of PIN 42059-0075 which has its own privately owned and operated individual well.

11.2 Hauled Sewage

If development is proposed on privately owned and operated individual or communal septic system, provide confirmation that there is adequate reserve sewage treatment capacity for hauled sewage (septage) resulting from the proposed development. See Table B below.

There is no development proposed on the privately owned and operated individual septic systems. The retained (2.0ha.) piece will remain the same (no changes). The lot addition will become part of PIN 42059-0075. There will be nothing (no development) done to the lot addition. PIN 42059-0075 has its own septic system. Both privately owned and operated septic systems are pumped out by a privately owned local business named B & M Delivery of Dryden, Ontario

Table B - Sewage Disposal and Water Supply

	Type of Servicing	Reports/Information Needed
Sewage Disposal	a) Publicly owned and operated sanitary sewage system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient uncommitted reserve sewage system capacity to service the development at the time of conditional consent.
	b) Public communal septic	Development generating effluent of more than 4,500 litres per day may need a servicing options study and hydrogeological report.
	c) Privately owned and operated individual septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	d) Privately owned and operated communal septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	e) Privy	Provide details on location and size of out-houses.
	f) Other	Please describe
Hauled Sewage		If development is proposed on privately owned and operated individual or communal septic systems, applicant must provide evidence in the application showing either: i) municipal confirmation of sufficient uncommitted reserve sewage system capacity for treatment of septage resulting from the proposed development; OR ii) confirmation (i.e., letter) from a commercial enterprise (private provider) for hauled sewage (septage) indicating that capacity is available to accommodate the specific proposal.
Water Supply	a) Publicly owned and operated piped water system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient reserve water system capacity to service the development at the time of conditional consent.
	b) Privately owned and operated individual well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	c) Privately owned and operated communal well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	d) Lake	A Permit to Take Water may be required. Contact your regional Municipal Services Office and the Ministry of the Environment and Climate Change office for guidance.
	e) Other water body	Please describe
	f) Other means	Please describe

Notes:

1. To facilitate review of the application, submit a letter from the municipality to show concurrence (or not) with the recommendations in the servicing options report.
2. Before undertaking a hydrogeological report, consult MMA for advice given the location of the subject land.
3. Where communal services are proposed (water and/or sewage), ownership of these services must be assumed by the municipality or a public body through a signed letter of acceptance.
4. To facilitate review of the application, submit a letter from the local health unit indicating that the site is developable and could accommodate the proposal.
5. A building permit is required for septic systems under Part 8 of the Building Code. See Appendix A.

12. Access

12.1 The proposed road access would be by: *There is no road access being proposed. The existing Henderson Loop Road will access PIN 42059-0076 and PIN 42059-0075. The lot addition portion will have no road access.*
