## 2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

Explosives would potentially be used for bulk sample collection and trail development, however they would not be stored on site and would be controlled by a certified third party.

What commodity or commodities are being sought in the work program?

Pd, Pt, Au, Cu, Ni

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

The work site is accessible by four wheel drive small light vehicles, along the Mink trail starting from the Trans Canada highway 17, 20km west of the town of Marathon. four wheel drive vehicles travel for 7km to lay-down area at which point all terrain vehicles are used to travel the remaining 10 km.

Helicopter may be used as well to access areas in the project site that do not have a trail network

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

Heavy equipment will be floated to the Mink trail head 20km west of the town of marathon. Equipmetn will be walked along the 17 km trail to the exploration site. For remote locations where there is no trail access the equipment will be flown into site.

What type of equipment will you be using for all of the early exploration activities?

Diamond drills, excavators, dozer, helicopters, generators, geophysical equipment, geotechnical equipment.

What type of drilling will take place? (e.g. core drilling, reverse circulation)  
Majority of drilling will be diamond core drilling, NQ,

Do you anticipate the removal of the drill casing?

Yes  No

If yes, when will you be removing it?

Immediately  3 to 6 months  6 to 12 months  1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). \*
