## 2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

No

What commodity or commodities are being sought in the work program?

Li

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

The personnel will be transported in 4 x 4 vehicles and ATVs. Road 11 will be traveled from Thunder Bay or Beardmore to reach the site. Well constructed bush roads will be used for transport from Road 11 to the site of exploration. These bush roads were established in 2017 for the drilling campaign performed by Infinite Lithium Corp.

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

The drilling company has yet to be contracted for the 2022 campaign. However we expect to employ a drilling company established in Thunder Bay or Red Lake. Transport of the equipment will follow a similar pathway to that used in 2017 and 2018.

What type of equipment will you be using for all of the early exploration activities?

Standard drilling equipment to drill core (ex: Marcotte rig).

What type of drilling will take place? (e.g. core drilling, reverse circulation)  
Diamond Drill Holes will generate NQ core material.

Do you anticipate the removal of the drill casing?

Yes  No

If yes, when will you be removing it?

Immediately  3 to 6 months  6 to 12 months  1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). \*
