Sections 1.1.6.1 and 1.1.6.4 of the PPS stipulate that on rural lands located in territories without municipal organization, and in areas adjacent to and surrounding rural municipalities, the focus of development shall be related to the sustainable management or use of resources and resource-based recreational uses (including recreational dwellings).

The subject property meets the definition of rural lands contained within the PPS.

The proposed application seeks to sever an existing residential use from an existing farm property.

Agriculture is related to the sustainable management and use of natural resources as outlined in the above PPS policies. Conversely, permanent residential development is generally not considered to be related to the sustainable management or use of resources, or resource-based recreational use. However, a permanent residential dwelling already exists on the proposed severed lot, and no new development is being planned.

The proposed retained lot is currently used for agriculture and will continue to be used for such.

If **Yes** to one or more of the above questions (Part B and C), there is potential for cultural heritage resources on the property or within the project area.

You need to hire a qualified person(s) to undertake:

- a Cultural Heritage Evaluation Report (CHER)

If the property is determined to be of cultural heritage value and alterations or development is proposed, you need to hire a qualified person(s) to undertake:

- a Heritage Impact Assessment (HIA) – the report will assess and avoid, eliminate or mitigate impacts

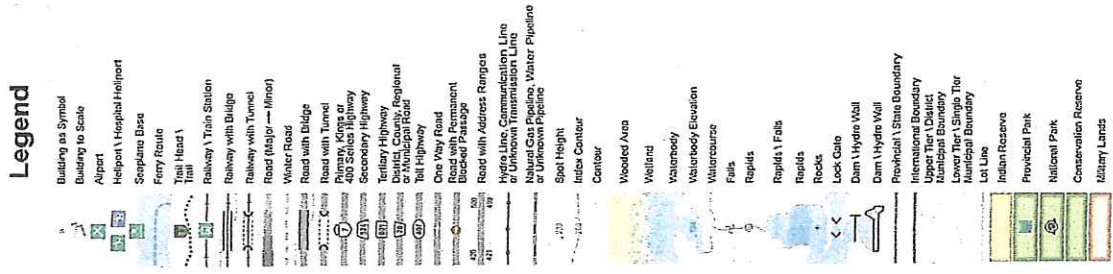

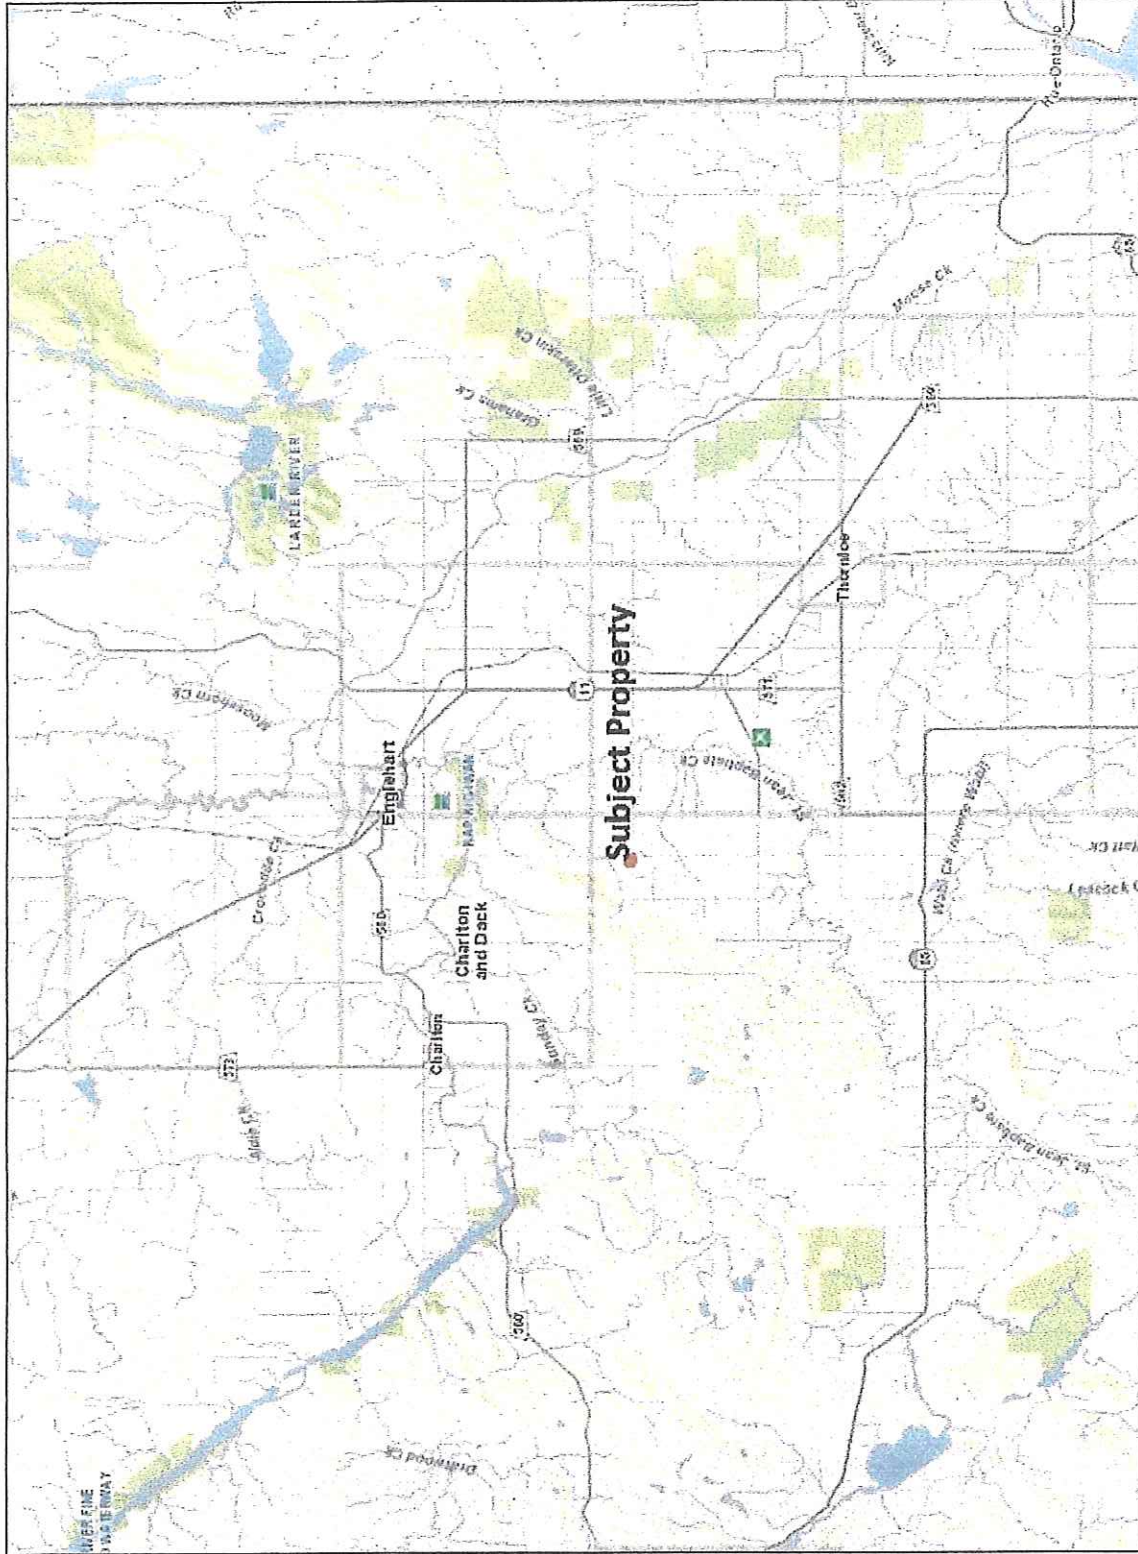

If **No** to all of the above questions, there is low potential for built heritage or cultural heritage landscape on the property.

The proponent, property owner and/or approval authority will:

- summarize the conclusion
- add this checklist with the appropriate documentation to the project file

The summary and appropriate documentation may be:

- submitted as part of a report requirement e.g. under the *Environmental Assessment Act*, *Planning Act* processes
- maintained by the property owner, proponent or approval authority

Location: PIN 613030006, S ½ Lot 3, Con 6, Beauchamp Township,
532324 River Road

Everfarm intends on submitting an application for consent to sever and create a new lot on this subject property. The severed lot would be for rural residential purposes while the larger retained lot would be used for agricultural purposes.

As part of the planning application process, the planning approval authority requires that the Timiskaming Health Unit undertake a more recent inspection report of the existing systems.

The Timiskaming Health Unit certificate of use permit number is 05-423087.

The fee of \$650.00 is enclosed.

Should you require further information or clarification, please contact me at your convenience.

Sincerely,

Karen Gerrard, Office Manager
