

Ministry of Mines Ministère des Mines

#### **Exploration Permit/Permis d'exploration**

Number/Numero:

PR-22-000155

This permit is issued under the authority of section 78.3 of the *Mining Act* and the Exploration Plans and Exploration Permits Regulation (O. Reg. 308/12). It is subject to the provisions of the Act and regulation as well as the terms and conditions included in this permit.

Ce permis est emis conformement aux dispositions de section 78.3 de la *Loi sur les mines* et des reglements et est sujet aux restrictions et dispositions de ce lois et reglements ainsi qu'aux conditions ci-enoncees.

Note: The issuance of this permit does not relieve the applicant from the responsibility of acquiring any other agency, board, government, etc. approval as may be required nor does it relieve the permittee from the requirements of any other legislation or guarantee access to the land.

Remarque : La déliverance de ce permis n'exempte pas le demandeur de l'obligation d'obtenir l'autorisation de tout autre organisme, commission, gouvernement, etc. qui pourrait être exigée, n'exempte pas le titulaire des dispositions de toute autre loi et ne garantit pas l'accès à la terre.

# Activity Details Report

Under Section 78 of the Ontario Mining Act

Preferred language of

correspondence

English

French

Collection of personal information, if any, on this form is authorized by sections 7, 78.2, 78.3, and subsection 178.2(1) of the *Mining Act* for the purpose of creating a public record as described in section 37 of of the *Freedom of Information and Protection of Privacy Act*. This information may also be posted in a modified form on the Ministry of Northern Development and Mines website and on the Environmental Registry for public comment. Questions about this collection should be directed to the Mineral Exploration and Development Section, Ministry of Northern Development and Mines, 933 Ramsey Lake Road, Sudbury ON P3E 6B5. Telephone 705-670-5815.

Fields marked with an asterisk (\*) are mandatory.

1. Project Details			
Project Name * Goliath Gold			
Name of Early Exploration Proponent * Treasury Metals Inc.			
Is the proposed early exploration area within the project area for an existing filed closure plan? *			
Are there any mine hazards identified in the <u>Abandoned Mines Information System (AMIS sites)</u> in your project area? *			
Enter the Universal Transverse Mercator Coordinates (UTM) in North American Datum 83 (NAD 83) Grid for the centre of your project area			
Zone (N) * 15	Easting (m) * 532441	Northing (m) * 5511624	

#### 2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

What commodity or commodities are being sought in the work program? Gold, Silver

How will you be transporting personnel to the exploration site for all activities? Describe in detail. Pickup Trucks, Snowmobiles, ATVs (Side by Sides), Boats

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail. Pickup trucks, Flatbed Trucks

What type of equipment will you be using for all of the early exploration activities? A Diamond Drill Rig including equipment required to support the operation (bulldozer, excavator, tracked Kubota, etc.)

Ground Geophysics instrumentation and generator

Do you anticipate the removal of the drill casing?         Yes       No         If yes, when will you be removing it?       I to 2 years         For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed).*       Geophysical surveys requiring a generator         For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed).*       Geophysical surveys requiring a generator         Case of the case of the case of the case of the exploration activities proposed).*       Estimated total line length       20000       metres         Mechanized Stripping       ► Estimated total area of stripped locations
