**2. Exploration Logistics and Detailed Information**

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

No

What commodity or commodities are being sought in the work program?

Au, Ag, Cu, Ni, Pt, Pd, Rh

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

Drill rig will be via float, personnel will travel by truck and ATV.

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

Drill rig will be floated as far down road as feasible. After that a bulldozer will most likely be used to clear drill pads and pull the drill rig to the drill pads. For the stripping either a small tow excavator will be used (attached to ATV) or a full size excavator depending on access and area that is to be stripped.

What type of equipment will you be using for all of the early exploration activities?

Drill rig, bulldozer, truck/float, atv, excavator

What type of drilling will take place? (e.g. core drilling, reverse circulation)

CORE

Do you anticipate the removal of the drill casing?

Yes  No

If yes, when will you be removing it?

Immediately  3 to 6 months  6 to 12 months  1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). \*

- Ground geophysical surveys without a generator
- Airborne geophysical surveys

Are you planning to store fuel or other hazardous materials on the property?

Yes  No

Please provide any other information relevant to this project.

Fuel will be stored during the drilling process.

Trails may be made to access drill pads and facilitate the drill rig getting to the set up. At this time the exact location of the drilling is unknown as further work needs to be completed to determine optimal set up.

The line cutting total is an estimate and will be refined after further work is completed on the project.
