Dear Mr. Donahue:

**Re: Application for Approval
Stormwater Management Works to serve Superior Environmental Services
City of Windsor, County of Essex
Reference Number 1045-C7TLZT**

As indicated in the e-mail dated October 20, 2022, from your technical representative, Mr. Douglas Kerr, P.Eng., Associate - Senior Civil Engineer, Golder Associates Ltd., you would like to modify the proposed stormwater management works to serve the transfer station site located at 2045 Continental Avenue in the City of Windsor.

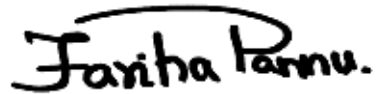

Since we cannot process your proposal without the updated stormwater management works design report, including a proposed stormwater monitoring program, your application is considered withdrawn and the above-noted file is now closed.

The submitted application fee will be retained and will be applied to the re-opened application file along with an expedited review granted once the information is ready for ministry review.

We also emphasize that under section 20.2 of Part II.1 of the Environmental Protection Act, (Act) you are required to obtain an approval under section 20.3 of Part II.1 of the Act before construction, alteration, extension or replacement of any sewage works.

If you have any questions regarding the above, please contact Katrina Chrzanowska, P.Eng., Senior Wastewater Engineer at (416) 314-7988.

Yours truly,

A handwritten signature in black ink that reads "Fariha Pannu." The signature is written in a cursive style with a large, sweeping arch over the first few letters.

Fariha Pannu, P.Eng.

Director

appointed for the purposes of Part II.1 of the *Environmental Protection Act*
