2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

No

What commodity or commodities are being sought in the work program?

Au, Ag, Cu, Zn

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

Using existing established resource logging roads that branch off to exploration trails leading to the claims area. A historical cut exploration trail exists that leads to the West property boundary, an exploration trail will need to be made from the West property boundary to access the claims of interest and trench locations as per submitted map.

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

From the West property boundary an Excavator will be walked in on the cut exploration trail. All other equipment will be transported by ATV and ATV trailers.

What type of equipment will you be using for all of the early exploration activities?

Track Excavator, and ATVs. Possibly a Muskeg tractor.

What type of drilling will take place? (e.g. core drilling, reverse circulation)

N/A

Do you anticipate the removal of the drill casing?

Yes No

If yes, when will you be removing it?

Immediately 3 to 6 months 6 to 12 months 1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). *
