

ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER A-500-5141957442

Version: 1.0

Issue Date: July 10, 2023

Pursuant to section 20.3 of the Environmental Protection Act, Revised Statutes of Ontario (R.S.O.) 1990, c. E. 19 and subject to all other applicable Acts or regulations this Environmental Compliance Approval is issued to:

NOVA CHEMICALS CORPORATION

2100 - 250 5 ST SW
CALGARY ALBERTA
T2P0R4

For the following site:

510 Moore Line , Moore, ST. CLAIR, ONTARIO, CANADA, N0N 1M0

Upon issuance of the environmental compliance approval, I hereby revoke Approval No(s) 8-1231-90-987, issued on November 30, 1998.

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

A polyethylene manufacturing facility, consisting of the following processes and support units:

- utilities unit;
- Low Density High Pressure Polyethylene (LDHPPE) unit,
- Low Pressure High Density Polyethylene (LPHDPE) unit,
- material flow unit;
- laboratory and maintenance operations;
- steam generation;
- blending, storage, transfer, loading and unloading of raw materials, intermediates and product streams;
- hydrocarbon purification;
- water and wastewater treatment;
- purging, venting and pressure relief of process gases to the flare systems; and
- pressure relief of the LDHPPE reactor to the reject system;
- standby power sources to support emergency operations;
- one (1) natural gas-fired regenerative thermal oxidizer, having a maximum thermal input rating of 8.4 million kilojoules per hour, discharging to the air at a maximum volumetric flow rate of 18.6 cubic metres per second through a stack, having an exit diameter of 1.32 metres and extending 19.8 metres above grade, serving the existing pellet dryer (Source ID: LD3) and six (6) new degassing silos of polyethylene bins (Source ID: Bin No. 3) equipped with one (1) new baghouse

filter at the existing Low Density High Pressure Polyethylene (LDHPPE) Manufacturing Facility;

including the Equipment and any other ancillary and support processes and activities, operating at a facility production limit of 350 kilotonnes per year in the LDHPPE unit and a rate in the LPHDPE unit that is limited to a level that will result in a maximum ethylene emission rate of 9800 kilograms per hour (averaged over one hour period) to the flare, discharging to the air as described in the Original ESDM Report.

DEFINITIONS

For the purpose of this environmental compliance approval, the following definitions apply:

1. "ACB list" means the document entitled "Air Contaminants Benchmarks (ACB) List: Standards, guidelines and screening levels for assessing point of impingement concentrations of air contaminants", as amended from time to time and published by the Ministry and available on a Government website;
2. "Acceptable Point of Impingement Concentration" means a concentration accepted by the Ministry as not likely to cause an adverse effect for a Compound of Concern that,
 1. is not identified in the ACB list, or
 2. is identified in the ACB list as belonging to the category "Benchmark 2" and has a concentration at a Point of Impingement that exceeds the concentration set out for the contaminant in that document.With respect to the Original ESDM Report, the Acceptable Point of Impingement Concentration for a Compound of Concern mentioned above is the concentration set out in the Original ESDM Report;
3. "Acoustic Assessment Report" means the report, prepared in accordance with Publication NPC-233 and Appendix A of the Basic Comprehensive User Guide, by Corey Kinart, P. Eng. / HGC Engineering and dated September 5, 2019 submitted in support of the application, that documents all sources of noise emissions and Noise Control Measures present at the Facility, as updated in accordance with Condition 5 of this Approval;
4. "Acoustic Assessment Summary Table" means a table prepared in accordance with the Basic Comprehensive User Guide summarizing the results of the Acoustic Assessment Report, as updated in accordance with Condition 5 of this Approval;
5. "Approval" means this entire Environmental Compliance Approval and any Schedules to it;
6. "Basic Comprehensive User Guide" means the Ministry document titled "Basic Comprehensive Certificates of Approval (Air) User Guide" dated March 2011, as amended;
7. "Building Code Act, 1992" means the Building Code Act, S.O. 1992, c.23, as amended and any replacement or successor legislation;
8. "Company" means NOVA Chemicals Corporation that is responsible for the construction or operation of the Facility and includes any successors and assigns in accordance with section 19 of the EPA;
9. "Compound of Concern" means a contaminant described in paragraph 4 subsection 26 (1) of O. Reg. 419/05, namely, a contaminant that is discharged from the Facility in an amount that is not negligible;
10. "Description Section" means the section on page one of this Approval describing the Company's operations and the Equipment located at the Facility and specifying the Facility Production Limit for the Facility;
11. "Director" means a person appointed for the purpose of section 20.3 of the EPA by the Minister pursuant to section 5 of the EPA;
12. "District Manager" means the District Manager of the appropriate local district office of the Ministry, where the Facility is geographically located;
13. "Emission Summary Table" means a table described in paragraph 14 of subsection 26 (1) of O. Reg. 419/05;

14. "Environmental Assessment Act" means the Environmental Assessment Act, R.S.O. 1990, c.E.18;
15. "EPA" means the Environmental Protection Act, R.S.O. 1990, c.E.19;
16. "Equipment" means equipment or processes described in the ESDM Report, this Approval and in the Schedules referred to herein and any other equipment or processes;
17. "Equipment with Specific Operational Limits" means any Equipment related to the thermal oxidation of waste or waste derived fuels, fume incinerators, including the aforementioned Thermal Oxidizer, or any other Equipment that is specifically referenced in any published Ministry document that outlines specific operational guidance that must be considered by the Director in issuing an Approval;
18. "ESDM Report" means the most current Emission Summary and Dispersion Modelling Report that describes the Facility. The ESDM Report is based on the Original ESDM Report and is updated after the issuance of this Approval in accordance with section 26 of O. Reg. 419/05 and the Procedure Document;
19. "Facility" means the entire operation located on the property where the Equipment is located;
20. "Facility Production Limit" means the production limit placed by the Director on the main product(s) or raw materials used by the Facility;
21. "Highest Ranking Person" means the highest ranking person regularly present at the Facility who has management responsibilities relating to the Facility;
22. "Log" means a document that contains a record of each change that is required to be made to the ESDM Report and Acoustic Assessment Report, including the date on which the change occurred. For example, a record would have to be made of a more accurate emission rate for a source of contaminant, more accurate meteorological data, a more accurate value of a parameter that is related to a source of contaminant, a change to a Point of Impingement and all changes to information associated with a Modification to the Facility that satisfies Condition B;
23. "Minister" means the Minister of the Environment, Conservation and Parks or such other member of the Executive Council as may be assigned the administration of the EPA under the Executive Council Act;
24. "Ministry" means the ministry of the Minister;
25. "Modification" means any construction, alteration, extension or replacement of any plant, structure, equipment, apparatus, mechanism or thing, or alteration of a process or rate of production at the Facility that may discharge or alter the rate or manner of discharge of a Compound of Concern to the air or discharge or alter noise or vibration emissions from the Facility;
26. "Noise Control Measures" means measures to reduce the noise emissions from the Facility and/or Equipment including, but not limited to, silencers, acoustic louvres, enclosures, absorptive treatment, plenums and barriers. It also means the noise control measures outlined in the Acoustic Assessment Report;
27. "O. Reg. 419/05" means Ontario Regulation 419/05: Air Pollution – Local Air Quality, made under the EPA;
28. "Original ESDM Report" means the Emission Summary and Dispersion Modelling Report which was prepared in accordance with section 26 of O. Reg. 419/05 and the Procedure Document by NOVA Chemicals Corporation and dated September 14, 2021, submitted in support of the application, and includes any changes to the report made up to the date of issuance of this Approval;
29. "Point of Impingement" has the same meaning as in section 2 of O. Reg. 419/05;
30. "Point of Reception" means Point of Reception as defined by Publication NPC-300";
31. "Procedure Document" means Ministry guidance document titled "Procedure for Preparing an Emission Summary and Dispersion Modelling Report" dated March 2018, as amended;
32. "Processes with Significant Environmental Aspects" means the Equipment which, during regular operation, would discharge one or more contaminants into the air in an amount which is not considered as negligible in accordance with section 26 (1) 4 of O. Reg. 419/05 and the Procedure Document;
33. "Provincial Officer" means the Provincial Officer appointed by the Minister under the EPA;

34. "Publication NPC-207" means the Ministry draft technical publication "Impulse Vibration in Residential Buildings", November 1983, supplementing the Model Municipal Noise Control By-Law, Final Report, published by the Ministry, August 1978, as amended;
35. "Publication NPC-233" means the Ministry Publication NPC-233, "Information to be Submitted for Approval of Stationary Sources of Sound", October, 1995, as amended;
36. "Publication NPC-300" means the Ministry Publication NPC-300, "Environmental Noise Guideline, Stationary and Transportation Sources – Approval and Planning, Publication NPC-300", August 2013, as amended;
37. "Schedules" means the following schedules attached to this Approval and forming part of this Approval namely:
 - Schedule 1 - Supporting Documentation;
 - Schedule 2 - Continuous Temperature Monitoring and Recording System;
 - Schedule 3 - Revocation of Approvals;
38. "Spills Action Centre" means the Spills Action Centre of the Ministry;
39. "Thermal Oxidizer" means the regenerative thermal oxidizer (RTO) described in the Company's application, this Approval and in the supporting documentation submitted with the application, to the extent approved by this Approval;
40. "Toxicologist" means a qualified professional currently active in the field of risk assessment and toxicology that has a combination of formal university education, training and experience necessary to assess contaminants; and
41. "Written Summary Form" means the electronic questionnaire form, available on the Ministry website, that documents whether Modifications were undertaken at the Facility and compliance with the Approval, in the previous calendar year.

TERMS AND CONDITIONS

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

A. GENERAL

1. Except as otherwise provided by this Approval, the Facility shall be designed, developed, built, operated and maintained in accordance with the terms and conditions of this Approval and in accordance with the following Schedules attached hereto:
 - Schedule 1 - Supporting Documentation;
 - Schedule 2 - Continuous Temperature Monitoring and Recording System;
 - Schedule 3 - Revocation of Approvals.

B. OPERATIONAL FLEXIBILITY

1. Pursuant to section 20.6 (1) of the EPA and subject to Conditions B.2 and B.3 of this Approval, future construction, alterations, extensions or replacements are approved in this Approval if the future construction, alterations, extensions or replacements are Modifications to the Facility that:
 - a. are within the scope of the operations of the Facility as described in the Description Section of this Approval;
 - b. do not result in an increase of the Facility Production Limit above the level specified in the Description Section of this Approval; and
 - c. result in compliance with the performance limits as specified in Condition D.

2. Condition B.1 does not apply to,
 - a. the addition of any new Equipment with Specific Operational Limits or to the Modification of any existing Equipment with Specific Operational Limits at the Facility; and
 - b. Modifications to the Facility that would be subject to the Environmental Assessment Act.
3. Condition B.1 of this Approval shall expire ten (10) years from (or date based on O. Reg. 419/05 phase-in dates, AE EASR applicability or other site specific factors) the date of this Approval, unless this Approval is revoked prior to the expiry date. The Company may apply for renewal of Condition B.1 of this Approval by including an ESDM Report and an Acoustic Assessment Report that describes the Facility as of the date of the renewal application.

C. REQUIREMENT TO REQUEST AN ACCEPTABLE POINT OF IMPINGEMENT CONCENTRATION

1. Prior to making a Modification to the Facility that satisfies Condition B.1.a. and B.1.b., the Company shall prepare a proposed update to the ESDM Report to reflect the proposed Modification.
2. The Company shall request approval of an Acceptable Point of Impingement Concentration for a Compound of Concern if the Compound of Concern is not identified in the ACB list as belonging to the category "Benchmark 1" and a proposed update to an ESDM Report indicates that one of the following changes with respect to the concentration of the Compound of Concern may occur:
 - a. The Compound of Concern was not a Compound of Concern in the previous version of the ESDM Report and
 - i. the concentration of the Compound of Concern exceeds the concentration set out for the contaminant in the ACB list; or
 - ii. the Compound of Concern is not identified in the ACB list; or
 - b. The concentration of the Compound of Concern in the updated ESDM Report exceeds the higher of,
 - i. the most recent Acceptable Point of Impingement Concentration, and
 - ii. the concentration set out for the contaminant in the ACB list, if the contaminant is identified in that document.
3. The request required by Condition C.2 shall propose a concentration for the Compound of Concern and shall contain an assessment, performed by a Toxicologist, of the likelihood of the proposed concentration causing an adverse effect at Points of Impingement.
4. If the request required by Condition C.2 is a result of a proposed Modification described in Condition C.1, the Company shall submit the request, in writing, to the Director at least 30 days prior to commencing to make the Modification. The Director shall provide written confirmation of receipt of this request to the Company.
5. If a request is required to be made under Condition C.2 in respect of a proposed Modification described in Condition C.1, the Company shall not make the Modification mentioned in Condition C.1 unless the request is approved in writing by the Director.
6. If the Director notifies the Company in writing that the Director does not approve the request, the Company shall,
 - a. revise and resubmit the request; or
 - b. notify the Director that it will not be making the Modification.
7. The re-submission mentioned in Condition C.6 shall be deemed a new submission under Condition C.2.
8. If the Director approves the request, the Company shall update the ESDM Report to reflect the Modification.

9. Condition C does not apply if Condition B.1 has expired.

D. PERFORMANCE LIMITS

1. Subject to Condition D.2, the Company shall not discharge or cause or permit the discharge of a Compound of Concern into the air if,
 - a. the Compound of Concern is identified in the ACB list as belonging to the category "Benchmark 1" and the discharge results in the concentration at a Point of Impingement exceeding the Benchmark 1 concentration; or
 - b. the Compound of Concern is not identified in the ACB list as belonging to the category "Benchmark 1" and the discharge results in the concentration at a Point of Impingement exceeding the higher of,
 - i. if an Acceptable Point of Impingement Concentration exists, the most recent Acceptable Point of Impingement Concentration, and
 - ii. the concentration set out for the contaminant in the ACB list, if the contaminant is identified in that document.
2. Condition D.1 does not apply if the benchmark set out in the ACB list has a 10-minute averaging period and no ambient monitor indicates an exceedance at a Point of Impingement where human activities regularly occur at a time when those activities regularly occur.
3. The Company shall:
 - a. implement the Noise Control Measures as outlined in Section 3 and Table A.1 of the Acoustic Assessment Report;
 - b. implement the Noise Control Measures outlined in Section 6 of the Acoustic Assessment Report by not later than twenty-four (24) months after the issuance of an above grade building permit under the Building Code Act, 1992 for a building containing a noise sensitive space, as defined by Ministry Publication NPC-300, on the vacant agriculture zoned land immediately southwest of the Facility, identified as VL1 in the Acoustic Assessment Report;
 - c. ensure, at all times, that the noise emissions from the Facility comply with the limits set out in Ministry Publication NPC-300; and
 - d. ensure that the Noise Control Measures are properly maintained and continue to provide the acoustical performance outlined in the Acoustic Assessment Report.
4. The Company shall, at all times, ensure that the vibration emissions from the Facility comply with the limits set out in Ministry Publication NPC-207.
5. The Company shall operate any Equipment with Specific Operational Limits approved by this Approval in accordance with the Original ESDM Report and conditions in this Approval.
6. The Company shall ensure that the Thermal Oxidizer is designed and operated to comply with the following requirements:
 - a. The combustion chamber of the Thermal Oxidizer shall be preheated to a minimum of 871 degrees Celsius, as measured by the continuous monitoring and recording system, prior to introducing the process exhaust gases;
 - b. The temperature in the combustion chamber of the Thermal Oxidizer, is maintained at a minimum of 871 degrees Celsius, as measured by the continuous monitoring and recording system, at all times, when the Thermal Oxidizer is in operation;
 - c. The residence time of the combustion gases in the combustion chamber of the Thermal Oxidizer shall not be less than 0.75 seconds at a temperature of 871 degrees Celsius minimum; and

- d. The concentration of total hydrocarbons in the exhaust gas emitted from the Thermal Oxidizer, having a carbon content expressed as equivalent methane, being an average of ten measurements taken at approximately one minute intervals, shall not be greater than 100 parts per million by volume.
7. The Company shall continuously monitor and record the temperature in the combustion chamber of the Thermal Oxidizer, when the Thermal Oxidizer is in operation. The temperature monitor and recorder shall comply with the requirements outlined in Schedule 2.
8. The Company shall continue the existing ambient air monitoring program, to measure the ambient air concentration of ethylene and to record the wind speed and wind direction, in the area of the Facility.
9. The Company shall submit annual reports to the District Manager no later than March 31st of each year. The annual reports are:
 - a. Annual report on the ambient air monitoring results on ethylene emissions from the Facility;
 - b. Summary on the abnormal ethylene emissions from the Facility, including false rejects, decompositions, reactor blowdowns if the ethylene emission lasts more than thirty (30) seconds during the year. The summary shall include but not limited to:
 - i. the number of abnormal ethylene emission;
 - ii. quantity of ethylene emission;
 - iii. duration of the emission;
 - iv. wind speed and direction at the time of the emission.

E. DOCUMENTATION REQUIREMENTS

1. The Company shall maintain an up-to-date Log.
2. No later than March 31 of each year, the Company shall update the Acoustic Assessment Report and shall update the ESDM Report in accordance with section 26 of O. Reg. 419/05 so that the information in the reports is accurate as of December 31 in the previous year.
3. The Company shall make the Emission Summary Table (see section 27 of O. Reg. 419/05) and Acoustic Assessment Summary Table available for examination by any person, without charge, by posting it on the Internet or by making it available during regular business hours at the Facility.
4. The Company shall, within three (3) months after the expiry of Condition B.1 of this Approval, update the ESDM Report and the Acoustic Assessment Report such that the information in the reports is accurate as of the date that Condition B.1 of this Approval expired.
5. Conditions E.1 and E.2 do not apply if Condition B.1 has expired.

F. WRITTEN SUMMARY FORM

1. Subject to Condition F.2, the Company shall prepare, and make available to the Ministry upon request, no later than June 30 of each year, a Written Summary Form signed by the Highest Ranking Person.
2. Condition F.1 does not apply if:
 - a. Condition B.1 has expired; and
 - b. the Written Summary Form has been completed for the year in which Condition B.1 expired.

G. OPERATION AND MAINTENANCE

1. The Company shall prepare and implement, not later than three (3) months from the date of this Approval,

operating procedures and maintenance programs for all Processes with Significant Environmental Aspects, which shall specify as a minimum:

- a. frequency of inspections and scheduled preventative maintenance;
- b. procedures to prevent upset conditions;
- c. procedures to minimize all fugitive emissions;
- d. procedures to prevent and/or minimize odorous emissions;
- e. procedures to prevent and/or minimize noise emissions; and
- f. procedures for record keeping activities relating to the operation and maintenance programs.

2. The Company shall ensure that all Processes with Significant Environmental Aspects are operated and maintained in accordance with this Approval, the operating procedures and maintenance programs.

H. COMPLAINTS RECORDING AND REPORTING

1. If at any time, the Company receives an environmental complaint from the public regarding the operation of the Equipment approved by this Approval, the Company shall take the following steps:
 - a. Record and number each complaint, either electronically or in a log book. The record shall include the following information: the time and date of the complaint and incident to which the complaint relates, the nature of the complaint, wind direction at the time and date of the incident to which the complaint relates and, if known, the address of the complainant.
 - b. Notify the District Manager of the complaint within two (2) business days after the complaint is received, or in a manner acceptable to the District Manager.
 - c. Initiate appropriate steps to determine all possible causes of the complaint, and take the necessary actions to appropriately deal with the cause of the subject matter of the complaint.
 - d. Complete and retain on-site a report written within five (5) business days of the complaint date. The report shall list the actions taken to appropriately deal with the cause of the complaint and set out steps to be taken to avoid the recurrence of similar incidents.

I. RECORD KEEPING REQUIREMENTS

1. Any information requested by any employee in or agent of the Ministry concerning the Facility and its operation under this Approval, including, but not limited to, any records required to be kept by this Approval, shall be provided to the employee in or agent of the Ministry, upon request, in a timely manner.
2. Unless otherwise specified in this Approval, the Company shall retain, for a minimum of five (5) years from the date of their creation all reports, records and information described in this Approval, including,
 - a. a copy of the Original ESDM Report and each updated version;
 - b. a copy of each version of the Acoustic Assessment Report;
 - c. supporting information used in the emission rate calculations performed in the ESDM Reports and Acoustic Assessment Reports;
 - d. the records in the Log;
 - e. copies of each Written Summary Form prepared under Condition F.1 of this Approval;
 - f. records of maintenance, repair and inspection of Equipment related to all Processes with Significant Environmental Aspects;

- g. all records of the continuous monitoring and recording system for the Thermal Oxidizer; and
- h. all records related to environmental complaints made by the public as required by Condition 8 of this Approval.

J. REVOCATION OF PREVIOUS APPROVALS

1. This Approval replaces and revokes all Certificates of Approval (Air) issued under section 9 EPA and Environmental Compliance Approvals issued under Part II.1 EPA to the Facility in regards to the activities mentioned in subsection 9(1) of the EPA and dated prior to the date of this Approval.

REASONS

The reasons for the imposition of these terms and conditions are as follows:

1. GENERAL

Condition No. A1 is included to require the Approval holder to build, operate and maintain the Facility in accordance with the Supporting Documentation in Schedule A considered by the Director in issuing this Approval.

2. OPERATIONAL FLEXIBILITY, REQUIREMENT TO REQUEST AN ACCEPTABLE POINT OF IMPINGEMENT CONCENTRATION AND PERFORMANCE LIMITS

Conditions No. B, C and D are included to define the Modifications permitted by this Approval, and to set out the circumstances in which the Company shall request approval of an Acceptable Point of Impingement Concentration prior to making Modifications. The holder of the Approval is approved for operational flexibility for the Facility that is consistent with the description of the operations included with the application up to the Facility Production Limit. In return for the operational flexibility, the Approval places performance based limits that cannot be exceeded under the terms of this Approval. Approval holders will still have to obtain other relevant approvals required to operate the Facility, including requirements under other environmental legislation such as the Environmental Assessment Act.

3. DOCUMENTATION REQUIREMENTS

Condition No. E is included to require the Company to maintain ongoing documentation that demonstrates compliance with the performance limits as specified in Condition D of this Approval and allows the Ministry to monitor on-going compliance with these performance limits. The Company is required to have an up to date ESDM Report and Acoustic Assessment Report that describe the Facility at all times and make the Emission Summary Table and Acoustic Assessment Summary Table from these reports available to the public on an ongoing basis in order to maintain public communication with regard to the emissions from the Facility.

4. WRITTEN SUMMARY FORM

Condition No. F is included to require the Company to prepare, and make available to the Ministry upon request, a yearly Written Summary Form, to assist the Ministry with the review of the site's compliance with the EPA, the regulations and this Approval.

5. OPERATION AND MAINTENANCE

Condition No. G is included to require the Company to properly operate and maintain the Processes with Significant Environmental Aspects to minimize the impact to the environment from these processes.

6. COMPLAINTS RECORDING AND REPORTING PROCEDURE

Condition No. H is included to require the Company to respond to any environmental complaints regarding the operation of the Equipment, according to a procedure that includes methods for preventing recurrence of similar incidents and a requirement to prepare and retain a written report.

7. RECORD KEEPING REQUIREMENTS

Condition No. I is included to require the Company to retain all documentation related to this Approval and provide access to employees in or agents of the Ministry, upon request, so that the Ministry can determine if a more detailed review of compliance with the performance limits as specified in Condition 4 of this Approval is necessary.

8. REVOCATION OF PREVIOUS APPROVALS

Condition No. J is included to identify that this Approval replaces all Section 9 Certificate(s) of Approval and Part II.1

Approvals in regards to the activities mentioned in subsection 9(1) of the EPA and dated prior to the date of this Approval.

APPEAL PROVISIONS

In accordance with Section 139 of the *Environmental Protection Act*, you may by written notice served upon me and the Ontario Land Tribunal, within 15 days after the service of this notice, require a hearing by the Tribunal. You must also provide notice to, the Minister of the Environment, Conservation and Parks in accordance with Section 47 of the *Environmental Bill of Rights, 1993* who will place notice of your appeal on the Environmental Registry. Section 142 of the *Environmental Protection Act* provides that the notice requiring the hearing ("the Notice") shall state:

- I. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- II. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

Pursuant to subsection 139(3) of the *Environmental Protection Act*, a hearing may not be required with respect to any terms and conditions in this environmental compliance approval, if the terms and conditions are substantially the same as those contained in an approval that is amended or revoked by this environmental compliance approval.

The Notice should also include:

- I. The name of the appellant;
- II. The address of the appellant;
- III. The environmental compliance approval number;
- IV. The date of the environmental compliance approval;
- V. The name of the Director, and;
- VI. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

Registrar* Ontario Land Tribunal 655 Bay Street, Suite 1500 Toronto, Ontario M5G 1E5 OLT.Registrar@ontario.ca	and	The Minister of the Environment, Conservation and Parks 777 Bay Street, 5th Floor Toronto, Ontario M7A 2J3	and	The Director appointed for the purposes of Part II.1 of the <i>Environmental Protection Act</i> Ministry of the Environment, Conservation and Parks 135 St. Clair Avenue West, 1st Floor Toronto, Ontario M4V 1P5
--	-----	--	-----	---

*** Further information on the Ontario Land Tribunal's requirements for an appeal can be obtained directly from the Tribunal at: Tel: (416) 212-6349 or 1 (866) 448-2248, or www.olt.gov.on.ca**

This instrument is subject to Section 38 of the *Environmental Bill of Rights, 1993*, that allows residents of Ontario to seek leave to appeal the decision on this instrument. Residents of Ontario may seek leave to appeal within 15 days from the date this decision is placed on the Environmental Registry. By accessing the Environmental Registry at ero.ontario.ca, you can determine when the leave to appeal period ends.

The above noted activity is approved under s.20.3 of Part II.1 of the *Environmental Protection Act*.

Dated at Toronto this 10th day of July, 2023

Nancy Orpana

Director

appointed for the purposes of Part II.1 of the Environmental Protection Act

c: Matt Kachler, NOVA Chemicals Corporation
Corey Kinart, HGC Engineering
Richard Ilves, NOVA CHEMICALS CORPORATION

The following schedules are a part of this environmental compliance approval:

SCHEDULE 1

Supporting Documentation

1. Environmental Compliance Approval Application, dated September 14, 2021 and certified by Richard Ilves of the Company;
2. Emission Summary and Dispersion Modelling Report, prepared by NOVA Chemicals Corporation and dated September 2021;
3. Acoustic Assessment Report, prepared by Corey Kinart of HGC Engineering and dated September 5, 2019; and
4. The additional information provided by Corey Kinart of HGC Engineering in the email dated September 9, 2022.

SCHEDULE 2

Continuous Temperature Monitoring and Recording System

PARAMETER: Temperature

LOCATION:

The sample point for the continuous temperature monitoring and recording system shall be installed at a location where the measurements are representative of the minimum temperature of the undiluted gases leaving the combustion chamber of the Thermal Oxidizer.

PERFORMANCE:

The Continuous Temperature Monitoring system shall meet the following minimum performance specifications for the following parameters.

PARAMETERS	SPECIFICATION
Type	shielded "K". type thermocouple, or equivalent
Accuracy	± 1.5 percent of the minimum gas temperature

RECORDER:

The recorder must be capable of registering continuously the measurement of the monitoring system without a significant loss of accuracy and with a time resolution of 5 minutes or better.

RELIABILITY:

The monitor shall be operated and maintained so that accurate data is obtained during a minimum of 90 percent of the time for each calendar quarter during the first full year of operation, and 95 percent, thereafter

SCHEDULE 3

Revocation of Approvals

Upon issuance of the environmental compliance approval, the following Approvals are revoked:

Notice No. 1A of Approval No. 8-1231-90-987, issued on September 18, 2007;
Notice No. 1B of Approval No. 8-1231-90-987, issued on and August 31, 2008;
Notice No. 2 of Approval No. 8-1231-90-987, issued on October 31, 2009;
Notice No. 3 of Approval No. 8-1231-90-987, issued on May 25, 2010;
Notice No. 4 of Approval No. 8-1231-90-987, issued on December 29, 2011;
Notice No. 5 of Approval No. 8-1231-90-987, issued on July 27, 2012;
Notice No. 6 of Approval No. 8-1231-90-987, issued on September 30, 2013;
Notice No. 7 of Approval No. 8-1231-90-987, issued on May 17, 2019;

Notice No. 1 of Approval No. 8-1137-90-988, issued on February 17, 2016;
Notice No. 2 of Approval No. 8-1137-90-988, issued on August 11, 2016;
Notice No. 1 of Approval No. 8-1023-76-867, issued on July 22, 2008;
Notice No. 1 of Approval No. 8-1146-90-916, issued on October 17, 1991;

Approval No. 4817-778KLD, issued on September 20, 2007;
Approval No. 0137-6MALSW, issued on March 27, 2006;
Approval No. 2298-AP5R6T, issued on July 31, 2017;
Approval No. 9088-9Y9K5C, issued on July 14, 2015;
Approval No. 2151-8QWS77, issued on June 27, 2012;
Approval No. 7029-8R8SMP, issued on March 30, 2012;
Approval No. 2001-8KJSC4, issued on August 30, 2011;
Approval No. 1333-B5DJWL, issued on November 27, 2018;

Approval No. 8-1231-90-987, issued on November 30, 1998;
Approval No. 8-1137-90-988, issued on November 26, 1998;
Approval No. 8-1082-95-006, issued on August 15, 1995;
Approval No. 8-1146-90-916, issued on February 6, 1991;
Approval No. 8-1023-76-867, issued on March 3, 1986;
Approval No. 8-1110-85-006, issued on November 13, 1985;
Approval No. 8-1029-76-006, issued on March 9, 1976;
Approval No. 8-1091-75-006, issued on November 19, 1975;
