2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

Possibly. If needed they will be stored according to relevant regulations and any activities will be executed by qualified personnel. Bold attempts to limit any physical impacts where possible. Preference is to utilize rock saws to access fresh samples from trenching areas.

What commodity or commodities are being sought in the work program?

Gold

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

Truck, ATV, and boat via existing trails whenever possible.

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

Via truck, boat and ATV using existing trails where possible to transport light equipment. Bulldozer or similar for heavy equipment such as a diamond drill for mobilization/demobilization.

What type of equipment will you be using for all of the early exploration activities?

Geophysical equipment including a generator. Truck, ATV, bulldozer and boat for personnel and supplies. Excavator, pumps, hand tools, rock saws for mechanical stripping and channel sampling. Diamond drills, bulldozer or similar for mobilization/demobilization.

What type of drilling will take place? (e.g. core drilling, reverse circulation)

Core drilling

Do you anticipate the removal of the drill casing?

Yes No

If yes, when will you be removing it?

Immediately 3 to 6 months 6 to 12 months 1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). *
