Are you planning to store fuel or other hazardous materials on the property? *

Yes No

Please provide any other information relevant to this project.

Fuel will be stored on site beside the pump shack, which is located 25m from Gullwing Lake and Tot Lake, in a 3000L double wall fuel cube which is mounted on skids and set further back than the pump shack. The fuel only requires refilling periodically. CCRC ensures proper handling of fuel and regular inspection of storage containers to ensure prevention of any potential fuel spillage on site. Two spill kits are kept on site and personnel are trained to handle any spillages.
