Frank Cardinali, President  
Drain-All Ltd.  
3385 Hawthorne Rd Napanee  
Ottawa, Ontario  
K1G 4G2

Dear Frank Cardinali:

**Re: Application for Approval  
Excess Soil Reclamation Operation at 4380 Trail Road, Ottawa  
Ottawa City  
Reference Number 9975-BU5NF9**

Further to David Elsie's conversation with Andrew Neill on December 3, 2021, the Ministry has cancelled the application associated with the above-noted reference number in anticipation of receiving confirmation that the zoning for your site is acceptable to the City of Ottawa and that the hydrogeological assessment for your site has been reviewed by the ministry's Technical Support Section and found to be acceptable. Upon receiving confirmation for both of these items, please forward copies to Andrew Neill in this office and to Lance Larkin at the Ministry's Ottawa District Office and we will re-open your application under a different reference number.

As discussed, we will retain both the fees and the documentation already submitted and transition them to the new file number. The EBR posting for the above-noted reference number will also be amended by adding the new reference number to recognize that this is a continuation of the original application and that the public consultation requirements for the proposed project have already been satisfied.

If you have any questions regarding the above, please contact Andrew Neill, Senior Waste Review Engineer Coordinator (Acting) at (416) 314-8438 or by email at [andrew.neill@ontario.ca](mailto:andrew.neill@ontario.ca)

Yours truly,

Mohsen Keyvani, P.Eng.

Director

appointed for the purposes of Part II.1 of the *Environmental Protection Act*
