11.3 Hauled Sewage

If development is proposed on privately owned and operated individual or communal septic system, provide confirmation that there is adequate reserve sewage treatment capacity for hauled sewage (septage) resulting from the proposed development. See Table B below.

	Ty	pe of Servicing	Reports/Information Needed
Sewage Disposal	1	Publicly owned and operated sanitary sewage system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient uncommitted reserve sewage system capacity to service the development at the time of conditional consent.
		Public communal septic	Development generating effluent of more than 4,500 litres per day may need a servicing options study and hydrogeological report.
	'	Privately owned and operated individual septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report
' No.	d)	Privately owned and operated communal septic system	may be needed. If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report
			may be needed.
) (a)	e)	Privy	Provide details on location and size of out-houses.
	f)	Other	Please describe.
Hauled Sewage			If development is proposed on privately owned and operated individual or communal septic systems, applicant must provide evidence in the application showing either: i) municipal confirmation of sufficient uncommitted reserve sewage system capacity for
			treatment of septage resulting from the proposed development; OR
			 ii) confirmation (i.e., letter) from a commercial enterprise (private provider) for hauled sewage (septage) indicating that capacity is available to accommodate the specific proposal.
Water Supply	a)	Publicly owned and operated piped water system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient reserve water system capacity to service the development at the time of conditional consent.
	b)	Privately owned and operated individual well	Development on communal or individual well system may need a servicing options repor and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological
			report.
<u>₩</u>	c)	Privately owned and operated communal well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological
3.00	ď) Lake	report. A Permit to Take Water may be required. Contact your regional Municipal Services Office.
		, Luito	and the Ministry of Environment, Conservation and Parks office for guidance.
	е) Other water body	Please describe.
•	n	Other means	Please describe.

Notes

- 1. To facilitate review of the application, submit a letter from the municipality to show concurrence (or not) with the recommendations in the servicing options report.
- 2. Before undertaking a hydrogeological report, consult MMAH for advice given the location of the subject land.
- 3. Where communal services are proposed (water and/or sewage), ownership of these services must be assumed by the municipality or a public body through a signed letter of acceptance.
- 4. To facilitate review of the application, submit a letter from the local health unit indicating that the site is developable and could accommodate the proposal.
- 5. A building permit is required for septic systems under Part 8 of the Building Code. See Appendix A.

12.	Access
12.1	The proposed road access would be by: *
	PUBLIC
	Note: (See Appendix A for information on MTO Access Permits) Certain type of development is not permitted on seasonally maintained roads. Early consultation with your regional MSO is recommended.
12.2	Additional details on "other public road" and "right-of-way"
	Would proposed road access be by:
	☐ Crown road ☐ Crown road ☐ Private road
12.3	If access to the subject land is by "other public road" or "right-of-way", or private road, indicate:
	i) The owner of the land or road
	MINAKI ON THE RIVER INC.
	ii) Who is responsible for maintenance
	MINAKI LOCAL ROLDS BOARD
	iii) Whether maintenance is seasonal or year round
	YEAR ROUND
	Note: Access by right-of-ways and/or private roads are not usually permitted, except as part of a condominium.
12.4	Is water access ONLY proposed?*
	☐ Yes ☑ No
	If yes, on a separate page, describe i) the parking and ii) docking facilities to be used and the approximate distance of these facilities from the subject land and the nearest public road access.
•	☐ Attached
	You may be required to provide a letter from the owner(s) of a commercially operated parking and docking facility indicating that capacity is available to accommodate your specific proposal.
13.	
13.1	Garbage disposal is proposed to be by: KENDRIA TRANSFER

13.3 a) The proposed stormwater drainage would be by:

EXISTING CULVERT SYSTEM

14. Sketch: Use the attached sketch sheet.

To help you prepare the sketch, refer to the attached sample sketch.

- 14.1 The application shall be accompanied by a sketch showing, in metric units, the following:
 - The boundaries and dimensions of the subject land, the part that is intended to be severed and the part that is intended
 to be retained;
 - The location, size and type of all existing and proposed buildings and structures on the subject land, including their setback from the front yard, rear yard, side yard and opposite side yard;
 - · The boundaries and dimensions of any land abutting the subject land that is owned by the owner of the subject land;
 - The approximate distance between the subject land and the nearest township lot line or landmark, such as a railway
 crossing or bridge;
 - The location of all lands previously severed from the parcel originally acquired by the current owner of the subject land;
 - The approximate location of all natural and artificial features on the subject land and adjacent lands that, in the opinion
 of the applicant, may affect the application, such as buildings, railways, roads, watercourses, drainage ditches, river or
 stream banks, wetlands, wooded areas, wells and septic tanks;
 - · The current use(s) on land that is adjacent to the subject land;
 - The location, width and name of any roads within or abutting the subject land, indicating whether it is an unopened road
 allowance, a public travelled road, a private road or a right of way;
 - · If access to the subject land is by water only, the location of the parking and boat docking facilities to be used;
 - · The location and nature of any easement affecting the subject land;
 - · The severed parcel, the date of transfer, the name of the transferee and the use of the land.

15. Other Information

15.1 Is there any other information that may be useful to the ministry in reviewing this application (e.g., information relating to the requirements and policies in the municipal official plan or efforts made to resolve outstanding objections or concerns by area resident(s), the municipality, other)?

If so, explain below or attach a separate page with this information.

NIA

- 15.2 The original or certified copy of any other information and materials, as required by the official plan of the municipality/planning board, must be provided with this application.
- 15.3 Where applicable and relevant information is available in a planning report submitted to council, or in a technical study/ report(s) prepared for the proposal, please provide the name, section and page number if you have referenced the study/ report(s) in any of the questions above.
- 15.4 Include a copy of the agreement of purchase and sale for the proposed severed lands and a statement from a lawyer certifying that there are no abutting lands.

Appendix A

Some General Requirements for Development Applications Where Ministry of Municipal Affairs and Housing is the Approval Authority

Planning Application Fees

Fees are required for permit(s) and certificate(s) of approval and set by individual permitting agencies. There is also an application processing fee for consents and other planning applications to be submitted to the Ministry of Municipal Affairs (MMAH) (a certified cheque or money order made out to the Minister of Finance) at the time of submission of the application.

Please see the attached Fee Schedule for more details.

Early Consultation

Prior to formally submitting an application, the applicant and/or agent(s) are strongly encouraged to contact staff of the regional Municipal Services Office (MSO) of the MMAH to discuss the development proposal. Early consultation is highly beneficial, as the applicant can review the proposal with ministry staff and discuss what supporting documents and information may be required.

Please contact your local Municipal Services Office (MSO) to discuss your proposed development. (Refer to Page 1 for office locations).

Consistency with the Provincial Policy Statement (PPS)

The Planning Act requires that decisions affecting planning matters "shall be consistent with" the PPS which supports a comprehensive, integrated and long-term approach to planning in Ontario, and recognizes linkages among policy areas. The PPS is intended to be read in its entirety and the relevant policies are to be applied to each situation.

For more information, visit the ministry's website:

Conformity to Official Plan

Assessment/review of a consent application is based on land use planning legislation, policies and principles and potential social, economic and environmental impacts. A major consideration is conformity to the official plan policies.

Applicants are advised to determine if the proposed development is in conformity with official plan policies by discussing the proposal with MMAH and/or the relevant municipality/planning board.

Some 'Commonly Required' Permits and Approvals

Part 8 Permit/Certificate of Approval for Sewage System

Consents proposed on small, private sewage servicing systems, generating 10,000 or less litres of effluent per day on one lot, would require a Part 8 permit under the Building Code issued by either the local municipality, public health unit or area conservation authority where it exists (if there is no health unit). The municipality (through the health unit or conservation authority) administers Part 8 of the Building Code that sets out the standards for locating accepted kinds of sewage/septic systems on a lot.

Prior to issuing a permit, the health unit would inspect the property, may stake the septic system site and recommend to the planning approval authority whether a servicing options report and/or a hydrogeological report is required.

Consents proposed on larger sewage systems that generate more than 10,000 litres of effluent per day on one lot would require a Certificate of Approval from the Ministry of Environment, Conservation and Parks under the Environmental Protection Act.

Some larger private or communal sewage treatment systems are also subject to the *Environmental Assessment Act* (generally where there is a surface water discharge).

For more information on larger private or communal sewage treatment systems, contact the Ministry of Environment, Conservation and Parks.

Communal Systems

Communal septic and communal well systems would generally require a servicing options and a hydrogeological report based on assessment of the specific circumstances.

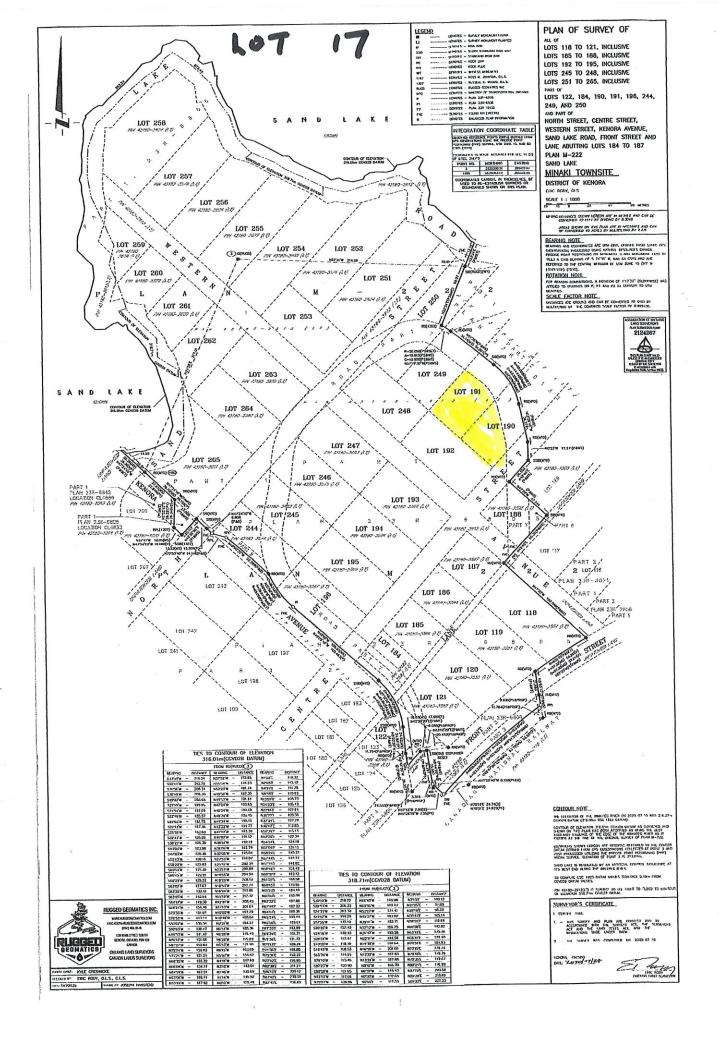

Communal septic systems generating effluent of more than 4,500 litres per day would need a servicing options and a hydrogeological report.

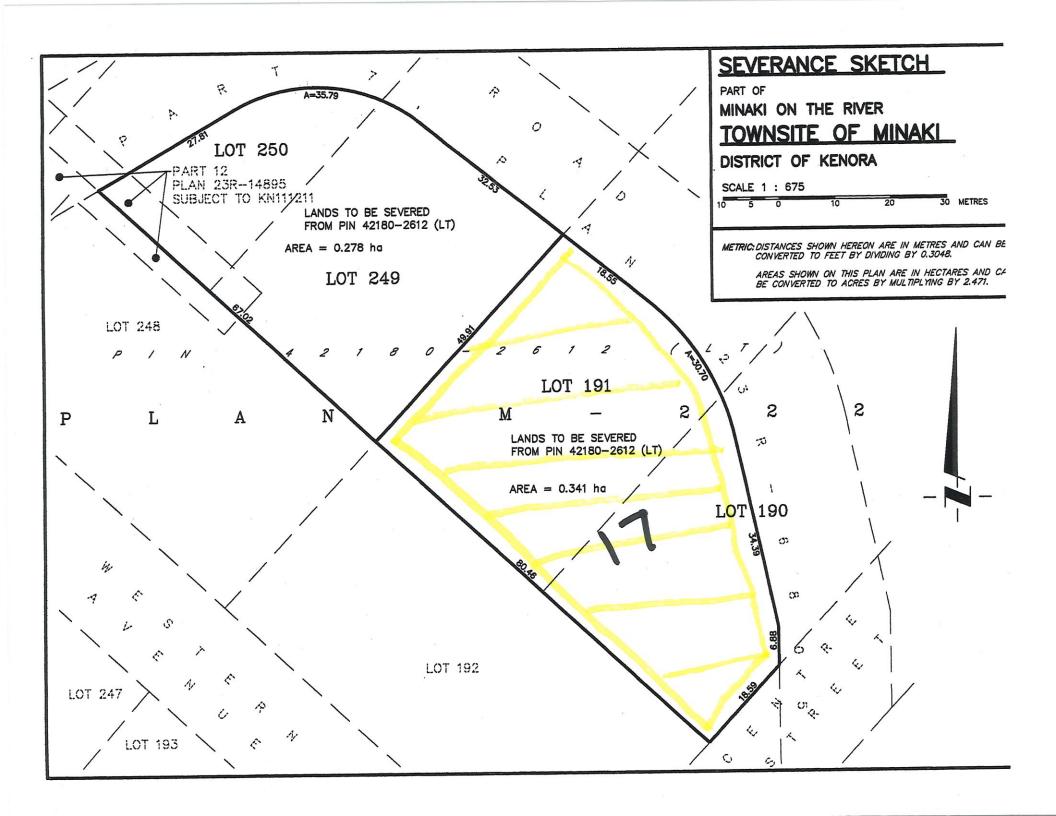

Communal well systems for non-residential development may need a hydrogeological report.

Where communal services are proposed (water and/or sewage), the applicant must confirm, through a signed letter of acceptance, that the municipality or other public body would assume ownership and maintenance of these systems.
