

AMENDED ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 5566-D64Q8H

Issue Date: June 27, 2024

QM GP Inc.
5035 South Service Rd, No. 200
Burlington, Ontario
L7L 6M9

Site Location: Anywhere in Ontario

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act , R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

fifty (50) temporary mobile treatment Works for the collection, transmission, treatment and disposal of process water, stored water, surface water or groundwater impacted with petroleum hydrocarbons, gasoline, diesel fuel, oil, volatile organic compounds, polycyclic-aromatic hydrocarbons, halogenated and non-halogenated solvents, surfactants, metals, organic and inorganic contaminants and/or total suspended solids, with each temporary mobile treatment Works having a rated hydraulic capacity of up to 3,785 litres per minute, with treated effluent to be disposed depending upon the Site Location through discharge to municipal sewer system or drainage ditches (where allowed by municipal by-laws); onto the ground for infiltration or into a man-made or natural waterbodies.

Local and municipal permits shall be obtained as applicable prior to treatment and discharge.

Each mobile treatment Works treatment train consisting of the following:

Settling Tank(s)

- one (1) or more **settling tank(s)**, as necessary;

Pre-treatment System(s)

- one (1) or more **pre-treatment system** (i.e. aeration unit(s), sand filter unit(s), grit removal unit(s), air stripper unit(s), chemical addition unit(s), etc.) receiving wastewater from the inlet source for physical and/or chemical pre-treatment, as necessary;

Oil/Water Separator(s)

- one (1) or more **oil/water separator(s)**, as necessary;

Bag Filter(s)

- one (1) or more **bag filter(s)** connected in series or in parallel, as necessary;

Sand/Anthracite Filter(s)

- one (1) or more **sand/anthracite vessel(s)** containing sand/anthracite filter media, as necessary;

Zeolite Filter(s)

- one (1) or more **zeolite filter(s)** containing zeolite media, as necessary;

Organo Clay Filter(s)

- one (1) or more **organo clay pressure filter(s)** containing organo clay filter media, as necessary;

Granular Activated Carbon Filtration System

- one (1) or more **granulated activated carbon filter(s)** containing Granular Activated Carbon (GAC) media, as necessary;

Activated Alumina Filter System

- one (1) or more **activated alumina filter(s)** containing activated alumina media, as necessary;

Specialty Media Filter System

- one (1) or more **specialty media filter(s)** containing sacrificial or regenerative filter media that consists of media pellets, granules or powder with pH adjustment upstream or downstream of the filter(s), as necessary;

Membrane Filtration System

- one (1) or more **membrane filtration system(s)**, as necessary;

Miscellaneous System

- including instrumentation, piping, valves and appurtenances essential for the proper operation of the aforementioned Works, housed within a mobile treatment trailer or mobile skid temporarily located on-site.
- additional pumping system(s) if required depending on the elevation of the discharge point relative to the mobile treatment unit.

including pressure gauge, compressor, flow meter and flow regulators, sample ports, oil storage drums, and all other controls, electrical equipment, instrumentation, piping, pumps, valves and appurtenances essential for the proper operation of the aforementioned Works all housed in a secured mobile trailer, or an enclosed trailer, or a sea can or a skid.

all in accordance with supporting documents listed in **Schedule A**.

For the purpose of this environmental compliance approval, the following definitions apply:

1. "Approval" means this environmental compliance approval, any schedules attached to it, and the Application;
2. "Client" means the client of QM GP Inc. and the owner of the Site where the mobile sewage Works is to be deployed;
3. "Director" means a person appointed by the Minister pursuant to section 5 of the

EPA for the purposes of Part II.1 of the EPA;

4. "District Manager" means the District Manager of the local Ministry District / Area Office with jurisdiction over the remediation site where the herein approved mobile sewage Works are to be operated;
5. "EPA" means the *Environmental Protection Act, R.S.O 1990, c.E.19*, as amended;
6. "Ministry" means the ministry of the government of Ontario responsible for the EPA and OWRA and includes all officials, employees or other persons acting on its behalf;
7. "Owner" means QM GP Inc., and includes its successors and assignees;
8. "OWRA" means the *Ontario Water Resources Act, R.S.O. 1990, c. O.40*, as amended;
9. "PWQO" means Provincial Water Quality Objectives;
10. "Site" means the location where the mobile sewage Works is to be deployed; and
11. "Works" means the sewage works described in the Owner's application, and this Approval.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1. GENERAL PROVISIONS

1. The Owner shall ensure that any person authorized to carry out work on or operate any aspect of the Works is notified of this Approval and the terms and conditions herein and shall take all reasonable measures to ensure any such person complies with the same.
2. The Owner shall design, construct, operate and maintain the Works in accordance with the conditions of this Approval.
3. Where there is a conflict a provision of any document referred to in this Approval and the conditions of this Approval, the conditions in this Approval shall take precedence.
4. The issuance of, and compliance with the conditions of this Approval does not:
 - a. relieve any person of any obligation to comply with any provision of any applicable statute, regulation or other legal

requirement, including, but not limited to, the obligation to obtain approval from the local conservation authority or municipality necessary to operate the Works; or

- b. limit in any way the authority of the Ministry to require certain steps be taken to require the Owner to furnish any further information related to compliance with this Approval.

2. CHANGE OF OWNER

1. The Owner shall notify the District Manager and the Director, in writing, of any of the following changes within **thirty (30) days** of the change occurring:

1. change of address of Owner;
2. change of Owner, including address of new Owner;
3. change of partners where the Owner is or at any time becomes a partnership, and a copy of the most recent declaration filed under the *Business Names Act, R.S.O. 1990, c. B.17* shall be included in the notification; and
4. change of name of the corporation and a copy of the most current information filed under the *Corporations Information Act, R.S.O. 1990, c. C.39* shall be included in the notification.

2. In the event of any change in ownership of the Works, the Owner shall notify in writing the succeeding owner of the existence of this Approval, and a copy of such notice shall be forwarded to the District Manager.
3. The Owner shall ensure that all communications made pursuant to this condition refer to the number of this Approval.

3. AREA OF OPERATION

1. The Owner may operate up to fifty (50) temporary mobile treatment Works for the purposes of treating process water, stored water, surface water or groundwater that has become contaminated provided that only the parameters listed in Condition 8 of this Approval is present in the process water, stored water, surface water or groundwater. Any use of the system for treatment of any additional parameters not listed in Condition 8 but detected at the site can only be undertaken with the written approval of the Director pursuant to section 20.2 of the EPA for the purposes of Part II.1 of the EPA.
2. The Owner shall ensure that the temporary mobile treatment Works are not deployed at a Site for more than **one (1) year**.

3. Pursuant to site specific conditions, the time period identified in Condition 3.2 may be extended by the District Manager in writing by **one (1)** additional year.
4. The Owner shall notify the Client in writing that continuation of operation of the Works at a Site beyond the time period outlined in Condition 3.3 above would require the Client to submit an application to the Director for a site specific Environmental Compliance Approval, complete with all required supporting information and appropriate application fee. The Owner shall provide a copy of this notification to the District Manager along with a letter outlining the proposed course of action to be pursued with respect to continued operation of the Works at the Site or a decommissioning plan for their removal from the Site.

4. OPERATIONS AND MAINTENANCE

1. The Owner shall ensure that at all times, the Works and related equipment and appurtenances which are installed or used to achieve compliance with this Approval are properly operated and maintained in accordance with manufacturer's specifications.
2. In furtherance of, but without limiting the generality of, the obligation imposed by Condition 4.1, the Owner shall ensure that:
 - a. funding, staffing, training of staff, laboratory and process controls, quality assurance and quality control procedures of or in relation to the Works are adequate to achieve compliance with this Approval; and
 - b. equipment and material are kept on hand and in good repair for immediate use in the event of:
 - i. upset;
 - ii. bypass;
 - iii. abnormal loss of any product, by-product, intermediate product, oil, solvent, waste material or any other polluting substance into the environment or interior of any building; or
 - iv. spill within the meaning of Part X of the EPA.
 - c. and staff are trained in the use of said equipment and material and in the methods and procedures to be employed upon the occurrence of such an event.
3. The Owner shall prepare an operations manual of the Works prior to the

commencement of the operation of the Works. The operations manual shall include, but not necessarily limited to, the following information:

- a. treatment configuration proposed;
 - b. operating procedures for routine operation of the Works;
 - c. inspection programs, including frequency of inspection, for the Works and the methods or tests employed to detect when maintenance is necessary;
 - d. repair and maintenance programs, including the frequency of repair and maintenance for the Works;
 - e. contingency plans and procedures for dealing with upset, bypasses and any other abnormal situations, and for notifying the District Manager; and
 - f. complaint procedures for receiving and responding to public complaints, including a reporting system which records what steps the Owner took to determine the cause of the complaint and what corrective measures were taken to alleviate the cause and prevent its recurrence.
4. The Owner shall maintain the operations manual up to date through revisions undertaken from time to time and retain a copy at the location of the Works. Upon request, the Owner shall make the manual available for inspection and copying by Ministry personnel.
5. The Owner shall ensure that, the following activities are undertaken:
- a. any waste or sludge collected from the use of the Works shall be disposed in accordance with Part V of the Environmental Protection Act; and
 - b. all components of the Works are inspected for proper operation, cleaned and any necessary repairs or replacement are made as necessary.
6. The Owner shall ensure that the temperature of the effluent shall not alter the natural thermal regime of any body of water so as to impair the quality of the natural environment. In particular, the diversity, distribution and abundance of plant and animal life shall not be significantly changed.
7. The Owner shall retain a copy of this Approval at each Site at which the Works are in operation for inspection by the Ministry's staff.

5. PRE-DEPLOYMENT CONSULTATION WITH DISTRICT MANAGER

1. The Owner shall ensure that, prior to the Works being deployed for operation at a Site, the following analysis is undertaken by a qualified professional(s) and the information submitted to the local District Office of the Ministry where the Works are to be deployed as part of a pre-deployment consultation:
 - a. a detailed characterization of the surface water/industrial wastewater/groundwater from the Site is carried out through sampling and analysis for potential parameters of concern. This characterization is to be completed to determine the contaminants present at the Site and their quantities;
 - b. an environmental study report is completed to determine the suitability of the mobile Works to complete the proposed remedial work and to meet the effluent limits stipulated in Condition 8 of this Approval. In addition, the report is also to evaluate the assimilative capacity of the effluent receiver if needed in consultation with the District Manager and the Ministry's Regional Technical Support Section, to evaluate the maximum treatment capacity that can be deployed at a given time for a given Site ensuring that the effluent receiver is not adversely impacted; and
 - c. information/documentation requested in Condition 6.1a. and Condition 6.1.b. should be submitted along with the operations manual requested by Condition 5.3.
2. Notwithstanding Condition 9, the District Manager, in consultation with the Ministry's Regional Technical Support Section, may require additional monitoring for the duration of deployment at a Site to ensure the effluent discharge receiver is not adversely impacted.
3. The Owner shall not commence operation of the mobile treatment Works at a Site until the District Manager is satisfied with the pre-deployment consultation information submitted pursuant to Condition 5.1.

6. NOTIFICATION OF DISTRICT MANAGER

1. The Owner shall carry out the pre-deployment consultation with the District Manager of the Ministry's District Office where the mobile sewage Works are to be deployed as specified in Condition 5.1.
2. The Owner shall provide operation commencement notification to the District Manager of the Ministry's District Office where the mobile sewage Works are to be deployed at least **fifteen (15) working days**, or other time period as

specified by the District Manager, prior to commencing operation at any Site by submitting:

- a. a copy of this Approval; and
 - b. a completed Form 1 (see Schedule D attached to this Approval); plus a scaled site plan, indicating the intended location of the equipment relative to the onsite structures, all property lines, drainage ditches, wells, surface watercourses and discharge location of the Works.
3. The Owner shall retain a copy of this Approval at each Site at which the Works are in operation for inspection by the Ministry's staff.

7. EBR PUBLIC NOTIFICATION

1. The Owner shall, at least **five (5) days** prior to commencing operation at a new Site, provide public notification to those residing in the vicinity of the site in a form as described in s. 28(1) of the Environmental Bill of Rights.

8. EFFLUENT LIMITS

1. The Owner shall operate the Works such that the concentrations of the contaminant(s) of concern identified pursuant to Condition 5.1.a. and named as effluent parameters in the Effluent Limits Table in **Schedule B** are not exceeded in the effluent.
2. The limit for Lead shall be based on the interim Provincial Water Quality Objective (PWQO) level which is determined based on the hardness of water. If the hardness (as CaCO₃ concentration) is less than 30 milligrams per litre, the limit is 1 microgram per litre. If the hardness is between 30 milligrams per litre and 80 milligrams per litre, inclusive, the limit is 3 micrograms per litre. If the hardness is greater than 80 milligrams per litre the limit is 5 micrograms per litre.
3. The limit for lead as specified in Condition 8.2 may be modified by the District Manager in writing from time to time if the Owner requests for a deviation by providing a rationale and environmental justification.
4. Per-and PolyFluoroAlkyl Substances (PFAS) Effluent Limits: The Owner shall prepare and submit for the approval of the District Manager an environmental study report (as required by Condition 5.1.b) that develops PFAS effluent limits in consultation with the District Manager.
5. The Owner shall maintain the pH of the effluent between 6.5 to 8.5, inclusive, at all times.
6. For the purposes of determining compliance with and enforcing Condition

8.1, exceedance of a effluent concentration is deemed to have occurred when any single sample analyzed for a parameter named in Column 1 of any Table in **Schedule B** is greater than the corresponding effluent concentration set out in Column 2 of any Table in **Schedule B**.

9. EFFLUENT QUALITY MONITORING AND RECORDING

1. The Owner shall collect samples at the sampling points named below, in accordance with the measurement frequency and sample type specified for each parameter named in the Effluent Monitoring Table in **Schedule C**, unless otherwise required in writing by this Approval or by the District Manager.
2. The methods and protocols for sampling, analysis and recording shall conform, in order of precedence, to the methods and protocols specified in the following:
 - a. the Ministry's publication "Guidance on Sampling and Analytical Methods for Use at Contaminated Sites in Ontario" (December 1996), ISBN 0-7778-4056-1, as amended from time to time by more recently published editions;
 - b. the Ministry's publication "Protocol for Analytical Methods Used in the Assessment of Properties under Part XV.1 of the *Environmental Protection Act*" (March 9, 2004), as amended from time to time by more recently published editions;
 - c. the publication "Standard Methods for the Examination of Water and Wastewater" (22nd edition) as amended from time to time by more recently published editions; and
 - d. for any parameters not mentioned in the documents referenced in Conditions 9.2.a., 9.2.b. and 9.2.c., the written approval of the District Manager shall be obtained prior to sampling.
3. The sampling frequency for Locations #2:
 - a. shall be once each day for the first **one (1) week** of operation at a site and may be reduced to once a week thereafter, if no exceedance of the criteria in Condition 8 has been observed during the **one (1) week** daily sampling; and
 - b. shall revert to daily followed by weekly, as outlined in

paragraph (a), following replacement of treatment media.

4. The Owner shall measure, record and calculate the daily volume of flow discharged from the Works.
5. The Owner shall undertake the appropriate monitoring to determine when breakthrough will occur in any of the absorption/adsorption vessels and shall terminate operation upon breakthrough until the filter media in the vessel(s) or the vessel(s) itself has been replaced.
6. The Owner shall maintain a log book to record:
 - a. all analytical and monitoring information;
 - b. a tabulation and description of any operating problems encountered and corrective actions taken;
 - c. a summary of any maintenance carried out on any equipment; and
 - d. keep this book with each individual mobile treatment works.

10. REPORTING

1. The Owner shall submit a copy of the analytical results and flow volume records, collected pursuant to Condition 9, to the District Manager on a **monthly** basis, or at any other frequency specified in writing by the District Manager.
2. The Owner shall report to the District Manager or designate, any exceedence of any parameter specified in Condition 8 orally, as soon as reasonably possible, and in writing within **seven (7) days** of the exceedence.
3. The Owner shall, upon completion of remedial operations at a Site, prepare and submit a performance report to the District Manager of the local District Office of the Ministry, no later than **thirty (30) working days** following the end of operations. The report shall contain, but shall not be limited to, the following information in a format acceptable to the District Manager:
 - a. a summary and comprehensive interpretation of all monitoring data and analytical data collected relative to the Works during the reporting period and a comparison to the effluent quality criteria described in this Approval;
 - b. a description of any environmental and operating problems encountered and corrective actions taken during the reporting period; and

c. any other information the District Manager requires from time to time.

11. UNIT IDENTIFICATION

1. The Owner shall ensure that each mobile treatment unit approved under this Approval is clearly marked with a unique identification number while in operation.

12. ANNUAL REPORT

1. The Owner shall prepare and submit a report to the District Manager of the Halton-Peel District Office, on an annual basis, which includes a summary of which mobile treatment units were operated during the previous calendar year, where they were operated and for how long they operated at each Site. This report shall be submitted within **ninety (90) days** following the end of the calendar year.

Schedule A

1. Application for Environmental Compliance Approval Application for Industrial Sewage Work submitted by QM GP Inc., dated November 20, 2023, including all supporting documentation and information.

Schedule B

Table 1 - Effluent Limits	
Column 1	Column 2
Effluent Parameters	Effluent Concentration (micrograms per litre unless otherwise indicated)
Petroleum Hydrocarbons	
Benzene	1
Ethylbenzene	2.4
Methyl Ethyl Ketone	400
Toluene	0.8
Total Petroleum Hydrocarbons (Light) (F1+F2)	900
Total Petroleum Hydrocarbons (Heavy) (F3+F4)	1000
m&p-Xylene	32
o-Xylene	40
Total Xylene	72
Effluent Limits in general based on Provincial Water Quality Objectives, Ontario Drinking Water Standards, Objectives and Guidelines and/or Full Depth Generic Site Condition Standards in a Potable Ground Water Condition (Soil, Ground Water and Sediment Standards for Use Under Part XV.1 of the EPA).	

Table 2 - Effluent Limits

Effluent Limits in general based on Provincial Water Quality Objectives, Ontario Drinking Water Standards, Objectives and Guidelines and/or Full Depth Generic Site Condition Standards in a Potable Ground Water Condition (Soil, Ground Water and Sediment Standards for Use Under Part XV.1 of the EPA.	

Table 9b - Effluent Limits

Column 1	Column 2
Effluent Parameters	Effluent Concentration (becquerels per litre unless otherwise indicated)
Radionuclides	
Barium-140	40.0
Bromine-82	300.0
Calcium-45	200.0
Calcium-47	60.0
Carbon-14	200.0
Cerium-141	100.0
Cerium-144	20.0
Cesium-131	2000.0
Cesium-134	7.0
Cesium-136	50.0

Cesium-137	10.0
Chromium-51	3000.0
Cobalt-57	40.0
Cobalt-58	20.0
Cobalt-60	2.0
Gallium-67	500.0
Gold-198	90.0
Indium-111	400.0
Iodine-125	10.0
Iodine-129	1.0
Iodine-131	6.0
Iron-55	300.0
Iron-59	40.0
Manganese-54	200.0
Mercury-197	400.0
Mercury-203	80.0
Molybdenum-99	70.0

Neptunium-239	100.0
Niobium-95	200.0
Phosphorus-32	50.0
Plutonium-238	0.3
Plutonium-239	0.2
Plutonium-240	0.2

Effluent Limits in general based on Provincial Water Quality Objectives, Ontario Drinking Water Standards, Objectives and Guidelines and/or Full Depth Generic Site Condition Standards in a Potable Ground Water Condition (Soil, Ground Water and Sediment Standards for Use Under Part XV.1 of the EPA.

Table 9c - Effluent Limits

Column 1	Column 2
Effluent Parameters	Effluent Concentration (becquerels per litre unless otherwise indicated)
Radionuclides	
Plutonium-241	10.0
Rhodium-105	300.0
Rubidium-81	3000.0
Rubidium-86	50.0
Ruthenium-103	100.0
Ruthenium-106	10.0
Selenium-75	70.0

Silver-108m	70.0
Silver-110m	50.0
Silver-111	70.0
Sodium-22	50.0
Strontium-85	300.0
Strontium-89	40.0
Strontium-90	5.0
Sulphur-35	500.0
Technetium-99	200.0
Technetium-99m	7000.0
Tellurium-129m	40.0
Tellurium-131m	40.0
Tellurium-132	40.0
Thallium-201	2000.0
Tritium	7000.0
Ytterbium-169	100.0
Yttrium-90	30.0

Yttrium-91	30.0
Zinc-65	40.0
Zirconium-95	100.0

Schedule C

TABLE 1 - Monitoring Requirements

<p>Sampling Port (Location #1): sampling port at the system inlet.</p> <p>Sampling Port (Location #2): final effluent discharged from the Works.</p> <p>Where more than one mobile treatment unit is deployed sampling ports shall be established at the same locations as above with samples measuring average values of the parameters coming out of the different train combinations; provided internal controls are established to detect when break through occurs in any vessel.</p>	
FREQUENCY	<p>Location # 1: Once a day for the first week of operation then once a week thereafter.</p> <p>Location #2: in accordance with Condition 9.3</p>
SAMPLE TYPE	Grab
PARAMETERS	All parameters identified pursuant to Condition 5.1.a

Schedule D

FORM 1

NOTICE OF INTENDED LOCATION

FORM 1: NOTICE OF INTENDED LOCATION
Name of Owner/Operator:
Address of Owner/Operator:
Name of Contact person(s):
Telephone number(s) of Contact Person(s):
Environmental Compliance Approval Number & Date of Issuance:

Proposed Location of Mobile Treatment Unit: (street address and municipality or lot and concession number)
Land use in the immediate vicinity of the Site:
Identify the Source of Contamination:
Listing of Parameters Present and Concentrations:
Date of Commencement of Operation:
Estimated Duration of Operation:
Will additional public consultation in compliance with S. 28(1) of the <i>Environmental Bill of Rights</i> be conducted within five (5) days prior to the commencement of operation of the Works?
Must attach a Scaled Site Plan indicating the location of the equipment relative to all on-site structures, all property lines, drainage ditches, wells and surface water courses and the discharge location of the Works.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition 1 is imposed to ensure that the Works are built and operated in the manner in which they were described for review and upon which approval was granted. This condition is also included to emphasize the precedence of conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review. Condition 1.(6) is included to emphasize that the issuance of this Approval does not diminish any other statutory and regulatory obligations to which the Owner is subject in the construction, maintenance and operation of the Works. The condition specifically highlights the need to obtain any necessary conservation authority approvals. The condition also emphasizes the fact that this Approval doesn't limit the authority of the Ministry to require further information.
2. Condition 2 is included to ensure that the Ministry records are kept accurate and current with respect to approved Works and to ensure that subsequent owners of the Works are made aware of the Approval and continue to operate the Works in compliance with it.
3. Condition 3 is included to ensure that the Works are only operated under conditions and in areas covered in the application for Approval.
4. Conditions 4 is included to require that the Works be properly operated, maintained, funded, staffed and equipped such that the environment is protected and deterioration, loss, injury or damage to any person or property is prevented. As well, the inclusion of a comprehensive operations manual governing all significant areas of operation, maintenance and repair is prepared, implemented and kept up-to-date by the Owner and made available to the Ministry. Such a manual is an integral part of the operation of the Works. Its compilation and use should assist the Owner in staff training, in

proper plant operation and in identifying and planning for contingencies during possible abnormal conditions. The manual will also act as a benchmark for Ministry staff when reviewing the Owner's operation of the Works.

5. Condition 5 and 6 is included to ensure that the Ministry is consulted and notified when and where the mobile treatment Works shall be deployed to ensure that their operation does not lead to impairment of the local environment.

6. Due to the nature of this operation, it is not practical to undertake the additional public consultation required by the Environmental Bill of Rights before issuance of the Approval, therefore, Condition 7 is included to satisfy the additional public consultation requirements of the Environmental Bill of Rights, after this Approval is issued.

7. Conditions 8 and 9 are included to require the Owner to demonstrate on a continual basis that the quality of the effluent from the approved Works is consistent with the design objectives and effluent limits specified in the Approval and that the approved Works do not cause any impairment to the receiver.

8. Conditions 10, 11, and 12 are included to ensure that the Ministry is updated, on a regular basis, on the operations of the mobile treatment Works approved under this Approval.

Upon issuance of the environmental compliance approval, I hereby revoke Approval No(s). 8125-6UUKPC issued on December 5, 2006

In accordance with Section 139 of the *Environmental Protection Act*, you may by written notice served upon me, the Ontario Land Tribunal and in accordance with Section 47 of the *Environmental Bill of Rights*, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the *Environmental Protection Act* provides that the notice requiring the hearing ("the Notice") shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

Pursuant to subsection 139(3) of the *Environmental Protection Act*, a hearing may not be available with respect to any terms and conditions in this environmental compliance approval, if the terms and conditions are substantially the same as those contained in an approval that is amended or revoked by this environmental compliance approval.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

Registrar*
Ontario Land Tribunal
655 Bay Street, Suite 1500
Toronto, Ontario

OLT.Registrar@ontario.ca

and

The Minister of the Environment,
Conservation and Parks
777 Bay Street, 5th Floor
Toronto, Ontario
M7A 2J3

and

The Director appointed for the purposes of
Part II.1 of the *Environmental Protection Act*
Ministry of the Environment, Conservation
and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, Ontario
M4V 1P5

*** Further information on the Ontario Land Tribunal's requirements for an appeal can be obtained directly from the Tribunal at: Tel: (416) 212-6349 or 1 (866) 448-2248, or www.olt.gov.on.ca**

This instrument is subject to Section 38 of the *Environmental Bill of Rights*, 1993, that allows residents of Ontario to seek leave to appeal the decision on this instrument. Residents of Ontario may seek leave to appeal within 15 days from the date this decision is placed on the Environmental Registry. By accessing the Environmental Registry at <https://ero.ontario.ca/>, you can determine when the leave to appeal period ends.

The above noted activity is approved under s.20.3 of Part II.1 of the *Environmental Protection Act*.

DATED AT TORONTO this 27th day of June, 2024

Aziz Ahmed, P.Eng.
Director
appointed for the purposes of Part
II.1 of the *Environmental Protection Act*
