

AMENDED ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 6205-D32K35

Issue Date: October 25, 2024

2021960 Ontario Inc. as general partner for and on behalf of New Forest Paper Mills LP
333 Progress Avenue
Toronto, Ontario
M1P 2Z7

Site Location: 333 Progress Avenue
Toronto, Ontario

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act , R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

Description Section

A paperboard manufacturing facility, consisting of the following processes and support units:

- paperboard production;
- effluent treatment (biogas flare);
- general building ventilation;
- biofilter and whitewater and pulp storage tanks;
- One (1) natural gas fired process boiler (West Boiler), with a maximum heat input of 122.3 million kilojoules per hour (115.9 million btu/hr), each boiler exhausting into the atmosphere at a volumetric flow rate of 5.13 cubic metres per second through a stack having an exit diameter of 0.91 metres, extending 23.1 metres above grade and 13.2 metres above the roof; and
- One (1) natural gas fired process boiler (East Boiler), with a maximum heat input of 122.3 million kilojoules per hour (115.9 million btu/hr), each boiler exhausting into the atmosphere at a volumetric flow rate of 6.17 cubic metres per second through a stack having an exit diameter of 0.91 metres, extending 23.1 metres above grade and 13.2 metres above the roof; and
- One (1) natural gas fired process boiler, with a maximum heat input of 316.8 million kilojoules per hour (300.3 million btu/hr), exhausting into the atmosphere at a volumetric rate of 73.74 cubic metres per second through a stack having an exit diameter of 1.72 metres, extending 29.1 metres above grade and 21.6 metres above the roof;

including the Equipment and any other ancillary and support processes and activities, operating at a Facility Production Limit of up to **450,000 tonnes of paperboard per year** discharging to the air as described in the Original ESDM Report.

For the purpose of this environmental compliance approval, the following definitions apply:

1. "ACB list" means the document entitled "Air Contaminants Benchmarks (ACB) List: Standards, guidelines and screening levels for assessing point of impingement concentrations of air contaminants", as amended from time to time and published by the Ministry and available on a Government website;
2. "Acceptable Point of Impingement Concentration" means a concentration accepted by the Ministry as not likely to cause an adverse effect for a Compound of Concern that,
 - a. is not identified in the ACB list, or
 - b. is identified in the ACB list as belonging to the category "Benchmark 2" and has a concentration at a Point of Impingement that exceeds the concentration set out for the contaminant in that document.
With respect to the Original ESDM Report, the Acceptable Point of Impingement Concentration for a Compound of Concern mentioned above is the concentration set out in the Original ESDM Report;
3. "Acoustic Assessment Report" means the report, prepared in accordance with Publication NPC-233 and Appendix A of the Basic Comprehensive User Guide, by Michael Masschaele / GHD and dated April 19, 2024 submitted in support of the application, that documents all sources of noise emissions and Noise Control Measures present at the Facility, as updated in accordance with Condition 5 of this Approval;
4. "Acoustic Assessment Summary Table" means a table prepared in accordance with the Basic Comprehensive User Guide summarising the results of the Acoustic Assessment Report, as updated in accordance with Condition 5 of this Approval;
5. "Acoustic Audit" means an investigative procedure consisting of measurements and/or acoustic modelling of all sources of noise emissions due to the operation of the Facility, assessed to determine compliance with the performance limits for the Facility regarding noise emissions, completed in accordance with the procedures set in Publication NPC-103 and reported in accordance with Publication NPC-233;
6. "Acoustic Audit Report" means a report presenting the results of an Acoustic Audit, prepared in accordance with Publication NPC-233;
7. "Acoustic Barrier" means a barrier or berm positioned such that it completely

interrupts the line of sight between the Equipment and the noise sensitive Points of Reception continuous without holes, gaps and other penetrations, and having a minimum surface mass as specified in Publication NPC-300;

8. "Acoustical Consultant" means a person currently active in the field of environmental acoustics and noise/vibration control, who is familiar with Ministry noise guidelines and procedures and has a combination of formal university education, training and experience necessary to assess noise emissions from a Facility;
9. "Approval" means this entire Environmental Compliance Approval and any Schedules to it;
10. "Basic Comprehensive User Guide" means the Ministry document titled "Basic Comprehensive Certificates of Approval (Air) User Guide" dated March 2011, as amended;
11. "Biogas Flare" means the flare with the maximum biogas burning capacity of 600 cubic metres per hour as described in the ESDM Report, this Approval and in the Supporting Documentation referred to herein and any other equipment or processes;
12. "*Building Code Act, 1992*" means the *Building Code Act*, S.O. 1992, c.23, as amended and any replacement or successor legislation;
13. "Continuous Monitoring System" means means the continuous monitoring and recording system used to monitor and record the temperature of the Biogas Flare described in this Approval, to the extent approved by this Approval;
14. "Company" means 2021960 Ontario Inc. as general partner for and on behalf of New Forest Paper Mills LP that is responsible for the construction or operation of the Facility and includes any successors and assigns in accordance with section 19 of the EPA;
15. "Compound of Concern" means a contaminant described in paragraph 4 subsection 26 (1) of O. Reg. 419/05, namely, a contaminant that is discharged from the Facility in an amount that is not negligible;
16. "Description Section" means the section on page one of this Approval describing the Company's operations and the Equipment located at the Facility and specifying the Facility Production Limit for the Facility;
17. "Director" means a person appointed for the purpose of section 20.3 of the EPA by the Minister pursuant to section 5 of the EPA;
18. "District Manager" means the District Manager of the appropriate local district office of the Ministry, where the Facility is geographically located;
19. "Emission Summary Table" means a table described in paragraph 14 of

subsection 26 (1) of O. Reg. 419/05;

20. "*Environmental Assessment Act*" means the *Environmental Assessment Act*, R.S.O. 1990, c.E.18;
21. "EPA" means the *Environmental Protection Act*, R.S.O. 1990, c.E.19;
22. "Equipment" means equipment or processes described in the ESDM Report, this Approval and in the Schedules referred to herein and any other equipment or processes;
23. "Equipment with Specific Operational Limits" means the process boilers listed in the Description Section above and any Equipment related to the thermal oxidation of waste or waste derived fuels, fume incinerators or any other Equipment that is specifically referenced in any published Ministry document that outlines specific operational guidance that must be considered by the Director in issuing an Approval;
24. "ESDM Report" means the most current Emission Summary and Dispersion Modelling Report that describes the Facility. The ESDM Report is based on the Original ESDM Report and is updated after the issuance of this Approval in accordance with section 26 of O. Reg. 419/05 and the Procedure Document;
25. "Facility" means the entire operation located on the property where the Equipment is located;
26. "Facility Production Limit" means the production limit placed by the Director on the main product(s) or raw materials used by the Facility;
27. "Highest Ranking Person" means the highest ranking person regularly present at the Facility who has management responsibilities relating to the Facility;
28. "Independent Acoustical Consultant" means an Acoustical Consultant who is not representing the Company and was not involved in preparing the Acoustic Assessment Report or the design/implementation of Noise Control Measures for the Facility and/or Equipment. The Independent Acoustical Consultant shall not be retained by the Acoustical Consultant involved in the noise impact assessment or the design/implementation of Noise Control Measures for the Facility and/or Equipment;
29. "Log" means a document that contains a record of each change that is required to be made to the ESDM Report and Acoustic Assessment Report, including the date on which the change occurred. For example, a record would have to be made of a more accurate emission rate for a source of contaminant, more accurate meteorological data, a more accurate value of a parameter that is related to a source of contaminant, a change to a Point of Impingement and all changes to information associated with a Modification to the Facility that satisfies Condition 2;

30. "Minister" means the Minister of the Environment, Conservation and Parks or such other member of the Executive Council as may be assigned the administration of the EPA under the Executive Council Act;
31. "Ministry" means the ministry of the Minister;
32. "Modification" means any construction, alteration, extension or replacement of any plant, structure, equipment, apparatus, mechanism or thing, or alteration of a process or rate of production at the Facility that may discharge or alter the rate or manner of discharge of a Compound of Concern to the air or discharge or alter noise or vibration emissions from the Facility;
33. "Noise Abatement Action Plan" means the noise abatement program developed by the Company, submitted to the Director and District Manager and approved by the Director, designed to achieve compliance with the sound level limits set in Publication NPC-300. It also means the Noise Abatement Action Plan consisting of the Noise Control Measures identified in Schedule D and in Section 7 of the Acoustic Assessment Report;
34. "Noise Control Measures" means measures to reduce the noise emissions from the Facility and/or Equipment including, but not limited to, silencers, acoustic louvres, enclosures, absorptive treatment, plenums and barriers. It also means the noise control measures outlined in the Acoustic Assessment Report;
35. "Odour Best Management Practices Plan" means a document or a set of documents which describe measures to minimize odour emissions from the Facility and/or Equipment;
36. "O. Reg. 419/05" means Ontario Regulation 419/05: Air Pollution – Local Air Quality, made under the EPA;
37. "Ontario Municipal Board" means the Administrative Tribunal that adjudicates matters related to land use planning, among other things, as replaced by the Local Planning Appeal Tribunal, as replaced by the Ontario Land Tribunal, and as may be replaced by an Administrative Tribunal in the future;
38. "Original ESDM Report" means the Emission Summary and Dispersion Modelling Report which was prepared in accordance with section 26 of O. Reg. 419/05 and the Procedure Document by Jennifer Francis / GHD Ltd. and dated April 12, 2024 submitted in support of the application, and includes any changes to the report made up to the date of issuance of this Approval;
39. "Point of Impingement" has the same meaning as in section 2 of O. Reg. 419/05;
40. "Point of Reception" means Point of Reception as defined by Publication NPC-300;
41. "Procedure Document" means Ministry guidance document titled "Procedure for

Preparing an Emission Summary and Dispersion Modelling Report" dated March 2018, as amended;

42. "Processes with Significant Environmental Aspects" means the Equipment which, during regular operation, would discharge one or more contaminants into the air in an amount which is not considered as negligible in accordance with section 26 (1) 4 of O. Reg. 419/05 and the Procedure Document;
43. "Publication NPC-103" means the Ministry Publication NPC-103 of the Model Municipal Noise Control By-Law, Final Report, August 1978, published by the Ministry as amended;
44. "Publication NPC-207" means the Ministry draft technical publication "Impulse Vibration in Residential Buildings", November 1983, supplementing the Model Municipal Noise Control By-Law, Final Report, published by the Ministry, August 1978, as amended;
45. "Publication NPC-233" means the Ministry Publication NPC-233, "Information to be Submitted for Approval of Stationary Sources of Sound", October, 1995, as amended;
46. "Publication NPC-300" means the Ministry Publication NPC-300, "Environmental Noise Guideline, Stationary and Transportation Sources – Approval and Planning, Publication NPC-300", August 2013, as amended;
47. "Schedules" means the following schedules attached to this Approval and forming part of this Approval namely:
 - Schedule A - Supporting Documentation
 - Schedule B - Continuous Temperature Monitor and Data Recorder;
 - Schedule C - Odour Best Management Practices Plan; and
 - Schedule D - Noise Abatement Action Plan
48. "Toxicologist" means a qualified professional currently active in the field of risk assessment and toxicology that has a combination of formal university education, training and experience necessary to assess contaminants; and
49. "Written Summary Form" means the electronic questionnaire form, available on the Ministry website, that documents whether Modifications were undertaken at the Facility and compliance with the Approval, in the previous calendar year.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1. GENERAL

1. Except as otherwise provided by this Approval, the Facility shall be designed, developed, built, operated and maintained in accordance with the terms and conditions of this Approval and in accordance with the following Schedules attached hereto:
 - Schedule A - Supporting Documentation
 - Schedule B - Continuous Temperature Monitor and Data Recorder
 - Schedule C - Odour Best Management Practices Plan
 - Schedule D - Noise Abatement Action Plan

2. OPERATIONAL FLEXIBILITY

1. Pursuant to section 20.6 (1) of the EPA and subject to Conditions 2.2 and 2.3 of this Approval, future construction, alterations, extensions or replacements are approved in this Approval if the future construction, alterations, extensions or replacements are Modifications to the Facility that:
 - a. are within the scope of the operations of the Facility as described in the Description Section of this Approval;
 - b. do not result in an increase of the Facility Production Limit above the level specified in the Description Section of this Approval; and
 - c. result in compliance with the performance limits as specified in Condition 4.
2. Condition 2.1 does not apply to,
 - a. the addition of any new Equipment with Specific Operational Limits or to the Modification of any existing Equipment with Specific Operational Limits at the Facility; and
 - b. Modifications to the Facility that would be subject to the Environmental Assessment Act.
3. Condition 2.1 of this Approval shall expire ten (10) years from the date of this Approval, unless this Approval is revoked prior to the expiry date. The Company may apply for renewal of Condition 2.1 of this Approval by including an ESDM Report and an Acoustic Assessment Report that describes the Facility as of the date of the renewal application.

3. REQUIREMENT TO REQUEST AN ACCEPTABLE POINT OF IMPINGEMENT CONCENTRATION

1. Prior to making a Modification to the Facility that satisfies Condition 2.1.a. and 2.1.b., the Company shall prepare a proposed update to the ESDM Report to reflect the proposed Modification.

2. The Company shall request approval of an Acceptable Point of Impingement Concentration for a Compound of Concern if the Compound of Concern is not identified in the ACB list as belonging to the category "Benchmark 1" and a proposed update to an ESDM Report indicates that one of the following changes with respect to the concentration of the Compound of Concern may occur:
 - a. The Compound of Concern was not a Compound of Concern in the previous version of the ESDM Report and
 - i. the concentration of the Compound of Concern exceeds the concentration set out for the contaminant in the ACB list; or
 - ii. the Compound of Concern is not identified in the ACB list; or
 - b. The concentration of the Compound of Concern in the updated ESDM Report exceeds the higher of,
 - i. the most recent Acceptable Point of Impingement Concentration, and
 - ii. the concentration set out for the contaminant in the ACB list, if the contaminant is identified in that document.
3. The request required by Condition 3.2 shall propose a concentration for the Compound of Concern and shall contain an assessment, performed by a Toxicologist, of the likelihood of the proposed concentration causing an adverse effect at Points of Impingement.
4. If the request required by Condition 3.2 is a result of a proposed Modification described in Condition 3.1, the Company shall submit the request, in writing, to the Director at least 30 days prior to commencing to make the Modification. The Director shall provide written confirmation of receipt of this request to the Company.
5. If a request is required to be made under Condition 3.2 in respect of a proposed Modification described in Condition 3.1, the Company shall not make the Modification mentioned in Condition 3.1 unless the request is approved in writing by the Director.
6. If the Director notifies the Company in writing that the Director does not approve the request, the Company shall,
 - a. revise and resubmit the request; or
 - b. notify the Director that it will not be making the Modification.
7. The re-submission mentioned in Condition 3.6 shall be deemed a new submission under Condition 3.2.

8. If the Director approves the request, the Company shall update the ESDM Report to reflect the Modification.
9. Condition 3 does not apply if Condition 2.1 has expired.

4. PERFORMANCE LIMITS

1. Subject to Condition 4.2, the Company shall not discharge or cause or permit the discharge of a Compound of Concern into the air if,
 - a. the Compound of Concern is identified in the ACB list as belonging to the category "Benchmark 1" and the discharge results in the concentration at a Point of Impingement exceeding the Benchmark 1 concentration; or
 - b. the Compound of Concern is not identified in the ACB list as belonging to the category "Benchmark 1" and the discharge results in the concentration at a Point of Impingement exceeding the higher of,
 - i. if an Acceptable Point of Impingement Concentration exists, the most recent Acceptable Point of Impingement Concentration, and
 - ii. the concentration set out for the contaminant in the ACB list, if the contaminant is identified in that document.
2. Condition 4.1 does not apply if the benchmark set out in the ACB list has a 10-minute averaging period and no ambient monitor indicates an exceedance at a Point of Impingement where human activities regularly occur at a time when those activities regularly occur.
3. The Company shall:
 - a. implement the Noise Abatement Action Plan as described in the Acoustic Assessment Report and in Schedule D of this Approval;
 - b. ensure, at all times, that the noise emissions from the Facility comply with the limits set out in Ministry Publication NPC-300; and
 - c. ensure that the Noise Control Measures are properly maintained and continue to provide the acoustical performance outlined in the Acoustic Assessment Report.
4. The compliance of the noise emissions of the Facility at each Point of Reception at the property located at 1680 Brimley Road, Toronto shall be determined in accordance with the limits set out in Ministry Publication NPC-300 and, as applicable, the requirements for Acoustic Barriers described in the Minutes of Settlement between Brimley Progress Developments Inc., Atlantic Packaging Products Ltd. and New Forest Paper Mills LLP, dated October 4, 2017, Ontario Municipal Board Case File PL160387, with particular reference to "Barriers."

5. The Company shall, at all times, only permit the use of the low-noise shunt truck at the locations identified in the Acoustic Assessment Report as iShunt4, iShunt5, and iShunt7, as described in Sections 4.2, 6.1.2 and 7.2.1 and Table 1 of the Acoustic Assessment Report.
6. The Company shall ensure that the sound emissions of any truck coupling or uncoupling operation performed on the site shall not exceed the values specified in Table 1 of the Acoustic Assessment Report.
7. The Company shall, at all times, ensure that the vibration emissions from the Facility comply with the limits set out in Ministry Publication NPC-207.
8. The Company shall operate any Equipment with Specific Operational Limits approved by this Approval in accordance with the Original ESDM Report.
9. The Company shall install and maintain operational a Continuous Monitoring System to continuously monitor and record the temperature in the combustion chamber of the Biogas Flare, when the Biogas Flare is in operation. The continuous temperature monitoring and recording system shall comply with the requirements outlined in Schedule B of this Approval.
10. The Company shall operate the Biogas Flare in such a manner that a minimum temperature, as recorded by the Continuous Monitoring System, shall be 850 degrees Celsius at a point representing a minimum duration of 0.3 seconds when biogas incineration is in progress.

5. DOCUMENTATION REQUIREMENTS

1. The Company shall maintain an up-to-date Log.
2. No later than March 31 in each year, the Company shall update the Acoustic Assessment Report and shall update the ESDM Report in accordance with section 26 of O. Reg. 419/05 so that the information in the reports is accurate as of December 31 in the previous year.
3. The Company shall make the Emission Summary Table (see section 27 of O. Reg. 419/05) and Acoustic Assessment Summary Table available for examination by any person, without charge, by posting it on the Internet or by making it available during regular business hours at the Facility.
4. The Company shall, within three (3) months after the expiry of Condition 2.1 of this Approval, update the ESDM Report and the Acoustic Assessment Report such that the information in the reports is accurate as of the date that Condition 2.1 of this Approval expired.
5. Conditions 5.1 and 5.2 do not apply if Condition 2.1 has expired.

6. WRITTEN SUMMARY FORM

1. Subject to Condition 6.2, the Company shall prepare, and make available to

the Ministry upon request, no later than June 30 of each year, a Written Summary Form signed by the Highest Ranking Person.

2. Condition 6.1 does not apply if:
 - a. Condition 2.1 has expired; and
 - b. the Written Summary Form has been completed for the year in which Condition 2.1 expired.

7. OPERATION AND MAINTENANCE

1. The Company shall prepare and implement, not later than three (3) months from the date of this Approval, operating procedures and maintenance programs for all Processes with Significant Environmental Aspects, which shall specify as a minimum:
 - a. frequency of inspections and scheduled preventative maintenance;
 - b. procedures to prevent upset conditions;
 - c. procedures to minimize all fugitive emissions;
 - d. procedures to prevent and/or minimize odorous emissions;
 - e. procedures to prevent and/or minimize noise emissions; and
 - f. procedures for record keeping activities relating to the operation and maintenance programs.
2. The Company shall ensure that all Processes with Significant Environmental Aspects are operated and maintained in accordance with this Approval, the operating procedures and maintenance programs.

8. COMPLAINTS RECORDING AND REPORTING

1. If at any time, the Company receives an environmental complaint from the public regarding the operation of the Equipment approved by this Approval, the Company shall take the following steps:
 - a. Record and number each complaint, either electronically or in a log book. The record shall include the following information: the time and date of the complaint and incident to which the complaint relates, the nature of the complaint, wind direction at the time and date of the incident to which the complaint relates and, if known, the address of the complainant.
 - b. Notify the District Manager of the complaint within two (2) business days after the complaint is received, or in a manner acceptable to the District Manager.
 - c. Initiate appropriate steps to determine all possible causes of the

complaint, and take the necessary actions to appropriately deal with the cause of the subject matter of the complaint.

- d. Complete and retain on-site a report written within five (5) business days of the complaint date. The report shall list the actions taken to appropriately deal with the cause of the complaint and set out steps to be taken to avoid the recurrence of similar incidents.

9. RECORD KEEPING REQUIREMENTS

1. Any information requested by any employee in or agent of the Ministry concerning the Facility and its operation under this Approval, including, but not limited to, any records required to be kept by this Approval, shall be provided to the employee in or agent of the Ministry, upon request, in a timely manner.
2. Unless otherwise specified in this Approval, the Company shall retain, for a minimum of five (5) years from the date of their creation all reports, records and information described in this Approval, including,
 - a. a copy of the Original ESDM Report and each updated version;
 - b. a copy of each version of the Acoustic Assessment Report;
 - c. supporting information used in the emission rate calculations performed in the ESDM Reports and Acoustic Assessment Reports;
 - d. the records in the Log;
 - e. copies of each Written Summary Form prepared under Condition 6.1 of this Approval;
 - f. records of maintenance, repair and inspection of Equipment related to all Processes with Significant Environmental Aspects; and
 - g. all records related to environmental complaints made by the public as required by Condition 8 of this Approval.

10. CHANGE OF OWNERSHIP

1. The Company shall notify the Director in writing, and forward a copy of the notification to the District Manager, within thirty (30) days of the occurrence of any of the following changes to Facility operations:
 - a. the ownership of the Facility;
 - b. the operator of the Facility;
 - c. the address of the Company;
 - d. the partners, where the Company is or any time becomes a partnership and a copy of the most recent declaration filed under the Business

Names Act, R.S.O. 1990, c. B.17, shall be included in the notification; or

e. the name of the corporation where the Company is or at any time becomes a corporation, other than a municipal corporation, and a copy of the most current information filed under the Corporations Information Act, R.S.O. 1990, c. C.39, shall be included in the notification.

2. In the event of any change in ownership of the Facility, the Company shall notify the successor of the existence of this Approval and provide the successor with a copy of this Approval, and the Company shall provide a copy of the notification to the District Manager and the Director.

11. REVOCATION OF PREVIOUS APPROVALS

1. This Approval replaces and revokes all Certificates of Approval (Air) issued under section 9 EPA and Environmental Compliance Approvals issued under Part II.1 EPA to the Facility in regards to the activities mentioned in subsection 9(1) of the EPA and dated prior to the date of this Approval.

12. ODOUR BEST MANAGEMENT PRACTICES PLAN

1. The Company shall prepare an Odour Best Management Practices Plan in accordance with the requirements outlined in Schedule C of this Approval.

13. ACOUSTIC AUDIT

1. The Company shall carry out Acoustic Audit measurements on the actual noise emissions due to the operation of the Facility, following the completion of the Noise Abatement Action Plan.

a. The Company:

i. shall carry out Acoustic Audit measurements in accordance with the procedures in Publication NPC-103;

ii. shall submit an Acoustic Audit Report on the results of the Acoustic Audit, prepared by an Independent Acoustical Consultant, in accordance with the requirements of Publication NPC-233, to the District Manager and the Director, not later than twelve (12) months after the completion of the Noise Abatement Action Plan.

b. The Director:

i. may not accept the results of the Acoustic Audit if the requirements of Publication NPC-233 were not followed;

ii. may require the Company to repeat the Acoustic Audit if the results of the Acoustic Audit are found unacceptable to the Director.

SCHEDULE A

Supporting Documentation

1. Environmental Compliance Approval Application, dated February 14, 2023, signed by Fatima Correia and submitted by the Company;
2. Emission Summary and Dispersion Modelling Report, prepared by Jennifer Francis / GHD Ltd. and dated April 12, 2024;
3. Acoustic Assessment Report, prepared by Michael Masschaele / GHD and dated April 19, 2024; and
4. The additional information provided by Michael Masschaele of GHD in the emails dated February 28, 2024, March 15, 2024, April 11, 2024, April 19, 2024, May 13, 2024, July 24, 2024 and July 31, 2024; and the additional information provided by Andrew Castaneda of the City of Toronto in the email dated September 3, 2024.

SCHEDULE B

Continuous Temperature Monitoring System

PARAMETER:

Temperature

LOCATION:

The sample point for the Continuous Temperature Monitor shall be located in the combustion chamber where the minimum retention time of the combustion gases at a minimum temperature of 1,000 degrees Celsius for at least 0.3 seconds is achieved.

PERFORMANCE:

The Continuous Temperature Monitor shall meet the following minimum performance specifications for the following parameters:

PARAMETERS	SPECIFICATION
Type	shielded "K" type thermocouple, or equivalent
Accuracy	± 1.5 percent of the minimum gas temperature

DATA RECORDER:

The data recorder must be capable of registering continuously the measurement of the monitor without a significant loss of accuracy and with a time resolution of 1 minute or better.

RELIABILITY:

The monitor shall be operated and maintained so that accurate data is obtained during a minimum of 95 percent of the time the biogas flare is operational for each calendar quarter.

SCHEDULE C

Odour Best Management Practices Plan

1. The Company shall submit to the District Manager not later than thirty (30) days from the date of this Approval, an Odour Best Management Practices Plan that includes preventative and control measures in place or under development to minimize odour emissions. Details of the Odour Best Management Practices Plan shall include:
 - a. Facility and process descriptions;
 - b. identification of sources of odour at the Facility;
 - c. Facility best management practices including a description of all odour control measures;
 - d. the frequency of occurrence of periodic preventative activities, including inspection and maintenance procedures and monitoring initiatives to ensure the effective implementation of the odour control measures, as applicable; and
 - e. record keeping and complaint response procedures;
2. The Company shall:
 - a. implement by not later than three (3) months from the date of this Approval, the Odour Best Management Practices Plan;
 - b. review and evaluate once every twelve (12) months from the date of this Approval, or at a frequency directed or agreed to in writing by the District Manager, the Odour Best Management Practices Plan for the control of odour emissions;
 - c. record the results of each annual review and evaluation, and update the Odour Best Management Practices Plan accordingly;
 - d. maintain the updated Odour Best Management Practices Plan at the Facility

- and make it available to the Ministry staff upon request; and
- e. implement, at all times, the most recent version of the Odour Best Management Practices Plan within sixty (60) days of an update.
3. The Company shall record, and retain such records, each time a specific preventative and control measure described in the Odour Best Management Practices Plan is implemented. The Company shall record, as a minimum:
- a. the date when each emission control measure is implemented, including a description of the control measure;
 - b. the date when each new preventative measure or operating procedure to minimize emissions is implemented, including a description of the preventative measure or operating procedure; and
 - c. the date, time of commencement, and time of completion of each periodic activity conducted to minimize emissions, including a description of the preventative measure/procedure and the name of the individual performing the periodic activity.

SCHEDULE D

Noise Abatement Action Plan

1. The Company shall implement the Noise Abatement Action Plan according to the following schedule:

The following Noise Control Measures are to be completed by not later than thirty-six (36) months after the issuance of an above grade building permit under the *Building Code Act, 1992*, for either:

- i. a noise sensitive building on the property located at 1680 Brimley Road, Toronto; or
- ii. a noise sensitive building on the lands located north of the Facility and Progress Avenue, bounded by Highway 401 on the north and Brimley Road on the east.

The Company shall notify the District Manager and the Director within two (2) business days of receiving notice of issuance of a building permit under the *Building Code Act, 1992*, for either:

- i. a noise sensitive building on the property located at 1680 Brimley Road, Toronto; or
- ii. a noise sensitive building on the lands located north of the Facility and Progress Avenue, bounded by Highway 401 on the north and Brimley Road on the east.

Administrative Noise Control Measures

1. Discontinue the use of Yard #2B and Yard #2A and relocate the employee parking so that the trailer parking activities in the northeast area of the site can be relocated as shown in Figure 1 of the Acoustic Assessment Report and described as follows:
2. Noise source iShunt1 relocated to the northwest area of the Facility; and
3. Noise source TR-5/TR-5A relocated to the south side of the Facility.
4. Implement the "Standard Operating Procedures" described in Section 7.2.1 of the Acoustic Assessment Report, including a driver training program for the shunting operations and careful techniques to minimize the coupling/uncoupling noise.
5. Limit the coupling/uncoupling of transport trailers in accordance with the following:
 - vi. During the night-time hours of 11 p.m. to 7 a.m., a combined frequency no greater than six (6) events per sixty (60) minute period at the locations identified as iShunt1 and iShunt2 in Figure 1 of the Acoustic Assessment Report.
 - vii. At all times, an individual frequency no greater than six (6) events per sixty (60) minute period at the location identified as iShunt3 in Figure 1 of the Acoustic Assessment Report.
 - viii. At all times, an individual frequency no greater than eight (8) events per sixty (60) minute period at the location identified as iShunt6 in Figure 1 of the Acoustic Assessment Report.
 - ix. At all times, a combined frequency no greater than six (6) events per sixty (60) minute period at the locations identified as iShunt3 and iShunt6 in Figure 1 of the Acoustic Assessment Report.

Physical Noise Control Measures

1. Construct a partial enclosure for the East Dock loading area and reorient the East Dock to face southward, as illustrated in Figure 4 of the Acoustic Assessment Report. The loading dock partial enclosure will be constructed in a manner that there will be no gaps or holes in the roof or walls, with a minimum density of 20 kilograms per square metre, having acoustic lining installed on the insides, and constructed in accordance with the details provided in Section 7.2.2 of the Acoustic Assessment Report.

The reasons for the imposition of these terms and conditions are as follows:

1. GENERAL

Condition No. 1 is included to require the Approval holder to build, operate and maintain the Facility in accordance with the Supporting Documentation in Schedule A considered by the Director in issuing this Approval.

2. OPERATIONAL FLEXIBILITY, REQUIREMENT TO REQUEST AN ACCEPTABLE POINT OF IMPINGEMENT CONCENTRATION AND PERFORMANCE LIMITS

Conditions No. 2, 3 and 4 are included to limit and define the Modifications permitted by this Approval, and to set out the circumstances in which the Company shall request approval of an Acceptable Point of Impingement Concentration prior to making Modifications. The holder of the Approval is approved for operational flexibility for the Facility that is consistent with the description of the operations included with the application up to the Facility Production Limit. In return for the operational flexibility, the Approval places performance based limits that cannot be exceeded under the terms of this Approval. Approval holders will still have to obtain other relevant approvals required to operate the Facility, including requirements under other environmental legislation such as the Environmental Assessment Act.

3. DOCUMENTATION REQUIREMENTS

Condition No. 5 is included to require the Company to maintain ongoing documentation that demonstrates compliance with the performance limits as specified in Condition 4 of this Approval and allows the Ministry to monitor ongoing compliance with these performance limits. The Company is required to have an up to date ESDM Report and Acoustic Assessment Report that describe the Facility at all times and make the Emission Summary Table and Acoustic Assessment Summary Table from these reports available to the public on an ongoing basis in order to maintain public communication with regard to the emissions from the Facility.

4. WRITTEN SUMMARY FORM

Condition No. 6 is included to require the Company to prepare, and make available to the Ministry upon request, a yearly Written Summary Form, to assist the Ministry with the review of the site's compliance with the EPA, the regulations and this Approval.

5. OPERATION AND MAINTENANCE

Condition No. 7 is included to require the Company to properly operate and maintain the Processes with Significant Environmental Aspects to minimize the impact to the environment from these processes.

6. COMPLAINTS RECORDING AND REPORTING PROCEDURE

Condition No. 8 is included to require the Company to respond to any environmental complaints regarding the operation of the Equipment, according to a procedure that includes methods for preventing recurrence of similar incidents

and a requirement to prepare and retain a written report.

7. RECORD KEEPING REQUIREMENTS

Condition No. 9 is included to require the Company to retain all documentation related to this Approval and provide access to employees in or agents of the Ministry, upon request, so that the Ministry can determine if a more detailed review of compliance with the performance limits as specified in Condition 4 of this Approval is necessary.

8. CHANGE OF OWNERSHIP

Condition No. 10 is included to require the Company to notify/report to the Ministry so that compliance with the EPA, the regulations and this Approval can be verified.

9. REVOCATION OF PREVIOUS APPROVALS

Condition No. 11 is included to identify that this Approval replaces all Section 9 Certificate(s) of Approval and Part II.1 Approvals in regards to the activities mentioned in subsection 9(1) of the EPA and dated prior to the date of this Approval.

10. ODOUR BEST MANAGEMENT PRACTICES PLAN

Condition No. 12 is included to emphasize that the Facility must be maintained and operated according to a procedure that will result in compliance with the EPA, the regulations and this Approval.

11. ACOUSTIC AUDIT

Condition No. 13 is included to require the Company to gather accurate information and submit an Acoustic Audit Report in accordance with procedures set in the Ministry's noise guidelines, so that the environmental impact and subsequent compliance with this Approval can be verified.

Upon issuance of the environmental compliance approval, I hereby revoke Approval No(s). 3123-8YHK7P issued on October 10, 2012

In accordance with Section 139 of the *Environmental Protection Act*, you may by written notice served upon me, the Ontario Land Tribunal and in accordance with Section 47 of the *Environmental Bill of Rights*, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the *Environmental Protection Act* provides that the notice requiring the hearing ("the Notice") shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

Pursuant to subsection 139(3) of the *Environmental Protection Act*, a hearing may not be required with respect to any terms and conditions in this environmental compliance approval, if the terms and conditions are substantially the same as those contained in an approval that is amended or revoked by this environmental compliance approval.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

Registrar*
Ontario Land Tribunal
655 Bay Street, Suite 1500
Toronto, Ontario
M5G 1E5
OLT.Registrar@ontario.ca

and

The Minister of the Environment,
Conservation and Parks
777 Bay Street, 5th Floor
Toronto, Ontario
M7A 2J3

and

The Director appointed for the purposes of
Part II.1 of the *Environmental Protection Act*
Ministry of the Environment, Conservation
and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, Ontario
M4V 1P5

*** Further information on the Ontario Land Tribunal's requirements for an appeal can be obtained directly from the Tribunal at: Tel: (416) 212-6349 or 1 (866) 448-2248, or www.olt.gov.on.ca**

This instrument is subject to Section 38 of the *Environmental Bill of Rights*, 1993, that allows residents of Ontario to seek leave to appeal the decision on this instrument. Residents of Ontario may seek leave to appeal within 15 days from the date this decision is placed on the Environmental Registry. By accessing the Environmental Registry at <https://ero.ontario.ca/>, you can determine when the leave to appeal period ends.

The above noted activity is approved under s.20.3 of Part II.1 of the *Environmental Protection Act*.

DATED AT TORONTO this 25th day of October,
2024

Nancy E Orpana, P.Eng.
Director
appointed for the purposes of Part
II.1 of the *Environmental Protection*

Act
