## Appendix B:

## Summary Table of Proposed Key Policy Changes To The Growth Plan 2017

Section Introduction	Proposed Amendment	City of Brampton Comments
		This will be hard to define, and unclear whether this will entail a
1.2	New objective to match housing supply with market demand.	market study as part of new housing development. Although the terminology remains vague, this has no impact on the
	Removal of the concept of "net zero" communities, replaced with the concept of "environmentally sustainable" communities.	City of Brampton.
/here and How to Gr		
2.1	Removal of the concept that there is a large supply of land already designated for future urban development which may exceed needs.	This is not relevant to the City of Brampton
lanaging Growth		A
2.2.1.2.b	Change from growth being limited in "undelineated built-up areas" to being limited in "rural settlements". "Rural settlements" is a	City of Brampton supports this clarification.
	newly defined term. "undelineated built-up areas" is removed as a term. Reminder to use "additional tools" for lapsing provisions and deregistration of plans of subdivision in situations where excess lands	
2.2.1.6.c		As City of Brampton does not foresee excess lands fo rdevelopment this is not relevant.
Pelineated Built-up Are		
2.2.2.1	<ul> <li>Removal of the requirement that 50% of all residential development occurring annually occur within the delineated built-up area by the time of the next MCR and up to 2031."</li> <li>"Removal of the requirement that 60% of all residential development occurring annually occur within the delineated built-up area by 2031. Replaced with targets that scale with degree of urbanization of a municipality:</li> <li>60% for Hamilton, Peel Region, Waterloo Region, York Region</li> <li>50% for Barrie, Brantford, Guelph, Orillia, Peterborough, Durham Region, Halton Region, Niagara Region</li> <li>Maintain or improve upon existing target for Kawartha Lakes, Brant County, Dufferin County, Haldimand County, Northumberland County, Peterborough County, Simcoe County, Wellington County.</li> <li>Removal of the requirement that 50% of all residential development occurring annually occur within the delineated built-up area by the time of the next MCR and up to 2031."</li> </ul>	Target relevant to City of Brampton is the same, however the lack o phased approach is a concern, request to maintain the phased implementation of intensification targets.
///4	Simplification of the alternative minimum intensification target request criteria to being that it is appropriate given the size, location, and capacity of the delineated built-up area.	City of Brampton supports this proposed change.
ransit Corridors and St	ation Areas	
2.2.4.4	Simplification of the criteria applied to a request for reducing the targeted combined residents and jobs per hectare to: a) prohibited or severely restricted by provincial policy, b) there are a limited number of jobs or residents but a major trip generator or feeder service will sustain high ridership at the station/stop.	Clarification required, this implies that the major trip generator is located outside of the MTSA. If this interpretation is correct, conside revising the policy to read "but a major generator accessed by tran via the station or stop or feeder service will sustain" for clarity.
	Upper- and single-tier municipalities may delineate the boundaries of major transit station areas and identify minimum density targets in advance of an MCR, if done in accordance with s. 16(15), (16) of the <i>Planning Act</i> . Note: s. 16(15), (16) of the <i>Planning Act</i> deal with the minimum requirements that an OP must meet when identifying planned higher order transit stations and stops or protecting major transit station areas for lower and upper tier municipalities, respectively.	City of Brampton supports this proposed change, with caveats.
mployment	Removes the concept and definition of "prime employment area"	
All	Note: "Prime employment area" is essentially meant to identify land extensive employment uses.	City of Brampton supports this proposed change.
	Adds a clarification that employment lands may be designated in advance of the next MCR.	Staff contend that such applications are best considered holistically, this facilitates consideration of the collective impact of all applicatio on employment lands.
2.2.5.8	Adds the concept of land use compatibility between sensitive land uses, major retail uses and major office uses and industrial, manufacturing or other uses particularly vulnerable to encroachment.	City of Brampton supports this proposed change.
2.2.5.10	Allows for the conversion of employment lands to a designation that permits non-employment uses in advance of an MCR, provided that it is demonstrated there is: a need, no adverse effects on the viability of an employment area or achievement of minimum intensification targets, there are existing or planned services in place, and a significant amount of jobs are maintained on the lands. Note: This is allowed only once prior to the MCR process.	Staff contend that such applications are best considered holistically, this facilitates consideration of the collective impact of all applicatio on employment lands.
2.2.5.12	Minister may now identify provincially significant employment zones to support coordination of planning for jobs and economic	
	development at the regional scale. Lands so identified cannot be converted using s. 2.2.5.10.	refinements prior to implementation require further clarity. Further clarity on criteria, how this is addressed or calculated would
		helpful.
2.2.5.16.0	Addition of the requirement that non-employment uses in an office park are limited and do not negatively impact the primary function of the area.	City of Brampton supports this proposed change.
esignated Greenfield		
2.2.7.2	<ul> <li>Removal of the requirement that all designated greenfield areas meet a minimum of 80 residents and jobs combined per hectare.</li> <li>Replaced with targets that scale with degree of urbanization of a municipality:</li> <li>Minimum 60 for Hamilton, Peel Region, Waterloo Region, York Region</li> <li>Minimum 50 for Barrie, Brantford, Guelph, Orillia, Peterborough, Durham Region, Halton Region, Niagara Region.</li> <li>Minimum 40 for Kawartha Lakes, Brant County, Dufferin County, Haldiman County, Northumberland County, Peterborough County, Simcoe County and Wellington County.</li> </ul>	City of Brampton supports this proposed change.
	Removal of former s. 2.2.7.4 which granted upper- and single-tier municipalities in the inner ring an exemption from the requirement to meet the 80 residents and jobs combined per hectare target where an official plan was approved and in effect as of July 1, 2017., but, required that over time intensification occur.	This is superceeded by the above targets, therefore this is not applicable for comment
2.2.7.4	Simplification of the requirements that must be met in a request for an alternative target in the DGA to being: 1) the target cannot be achieved, 2) the alternative target will support housing diversity, and 3) the alternative target will help achieve a more compact built form.	This City supports this clarification.
	Removal of policies indicating the targets in Official Plans already in effect continue to apply.	This does not apply to the City of Brampton.
 ettlement Area Bound		This does not apply to the City of Brampton. City of Brampton suggests language to "prohibit" rather than

• • F		
• F	Settlement area boundaries may be adjusted without a MCR when:	
F	<ul> <li>There would be no net increase in land within settlement areas;</li> <li>The adjustment would support the municipality's ability to meet the intensification and density targets established pursuant to the</li> </ul>	
2204	Plan;	This does not impact the City of Brampton as most of the lands are
	<ul> <li>The location of any lands added to a settlement area will satisfy the normally applicable requirements of settlement area</li> </ul>	already designated as Settlement Area.
	expansion; • The affected settlement areas are not rural settlements or in the Greenbelt Area; and	
	<ul> <li>The settlement area is serviced by municipal water and wastewater systems</li> </ul>	
	and there is sufficient reserve infrastructure capacity to service the lands.	
	Settlement area boundary expansion may occur in advance of a MCR when: <ul> <li>The lands that are added will be planned to achieve at least the minimum density targets set out in the Growth Plan;</li> </ul>	
	• The location of any lands added to a settlement area will satisfy the normally applicable requirements of settlement area	
	expansion;	This does not impact the City of Brampton as most of the lands are
	<ul> <li>The affected settlement areas are not rural settlements or in the Greenbelt Area;</li> <li>The settlement area is serviced by municipal water and wastewater systems and there is sufficient reserve infrastructure capacity</li> </ul>	already designated as Settlement Area.
	to service the lands; and,	
	• The additional lands and associated forecasted growth will be fully accounted for in the land needs assessment associated with the	
C	next municipal comprehensive review. Settlement area expansion may occur under 2.2.8.5 (above) as long as the amount to be added to the Settlement Area is no larger	This does not impact the City of Brampton as most of the lands are
2.2.8.b	chan 40 hectares.	already designated as Settlement Area.
Rural Areas		
	Vinor adjustments may be made to boundaries of the rural settlements without an MCR, if:	
	<ul> <li>The affected settlement area is not in the Greenbelt Area;</li> <li>The change would constitute minor republic out of quicting development, in keeping with the number of the cree.</li> </ul>	This does not apply to the City of Brampton, no rural settlement
	<ul> <li>The change would constitute minor rounding out of existing development, in keeping with the rural character of the area;</li> <li>Confirmation that water and wastewater servicing can be provided in an appropriate manner that is suitable for long-term; and,</li> </ul>	designations exist within the City.
	• Sections 2 (Wise Use and Management of Resources) and 3 (Protecting Public Health and Safety) of the PPS are applied.	
Infrastructure to Suppo	ort Growth	
F	Planning for new or expanded infrastructure will be supported by "relevant studies" and no longer requires specifically	
	'infrastructure master plans, asset management plans, community energy plans, watershed planning, and environmental	City of Brampton supports this proposed change.
ہ Protecting What is Valu	assessments". uable	
Water Resources Systems		
	Watershed planning, in addition to informing decisions on the allocation of growth, will now inform:	
	<ul> <li>The identification of water resource systems;</li> <li>The protection, enhancement, or restoration of the quality and quantity of water; and</li> </ul>	City of Brampton supports this proposed change.
	<ul> <li>Planning for water/stormwater infrastructure.</li> </ul>	
Natural Heritage System		
	Mapping for the Natural Heritage System for the Growth Plan does not apply unless implemented in an applicable OP. Until that	This does not impact the city as mapping is already sufficiently
	time, the Natural Heritage System for the Growth Plan policies only apply to natural heritage systems identified in upper- and single- tier OPs that are outside settlement areas and were approved and in effect as of July 1, 2017.	detailed.
	Mapping for the Natural Heritage System for the Growth Plan may be refined by upper- or single-tier municipalities at the time of	This does not impact the city as mapping is already sufficiently
11	nitial implementation of OP, but afterwards it may only be refined through a MCR.	detailed.
Agricultural System		
	Vitigation measures to limit affect non-agricultural uses on agricultural uses will be based on an agricultural impact assessment.	No significant agricultural lands exist within the City, this is irrelevant.
	Mapping for the agricultural land base does not apply unless implemented in an applicable OP. Until that time, prime agricultural	No significant agricultural lands ovist within the City, this is irrelevant
	areas identified in upper- and single-tier OPs that were approved and in effect as of July 1, 2017 will be considered agricultural land pase for the purposes of the Growth Plan.	No significant agricultural lands exist within the City, this is irrelevant.
