PROJECT NUMBER 10146

Antonia Testa
Ministry of Environment, Conversation and Parks
135 St. Clair Avenue West
Toronto ON, M4V1 1P5
antonia.testa@ontario.ca

Dear Antonia,

Re: ERO number -019-1882
Proposed regulation for a streamlined environmental assessment process for the Ministry of Transportation's Greater Toronto Area West Transportation Corridor project.

The Municipal Infrastructure Group Ltd. (TMIG) is the consultant engineer acting on behalf of the Landowners, who collectively own approximately 153.8 hectares (380 acres) of land located within Block 66 West in the City of Vaughan. Block 66 West is bounded by Major Mackenzie Drive to the south, Highway 50 to the west, Nashville Road to the north, and a mid-concession Hydro corridor to the east

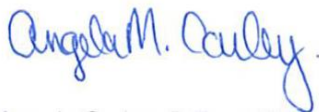

On behalf of the Landowners, we are pleased to submit this letter in response to the above noted Proposal. These comments have also been submitted via the online form:

The MTO West Transportation Corridor EA is an Individual EA. Stage 1 of the EA has been completed and Stage 2 is underway. It is not clear how the proposed regulation for a streamlined EA process will be incorporated into the existing MTO West Transportation Corridor project since the EA is already underway and does not follow the MTO Class EA process. Please specify the proposed modification to the existing EA process for the GTA West Transportation Corridor. Please outline how the new EA process differs from the old process for this particular project.

According to the Proposed regulation for a streamlined environmental assessment process for the Ministry of Transportation's Greater Toronto Area West Transportation Corridor project, "the proposed regulation will eliminate duplication with other planning and approvals processes and as a result, shortening timelines for building important infrastructure". Please specify how timelines will be shortened for the MTO West Transportation Corridor EA.

We request to be added to the stakeholders list for notices related to this project. If you have any questions or comments in relation to this letter or the Subject Lands, please do not hesitate to contact the undersigned.
