

305 Saunders Road – Laguna Trading Ltd. (Site)

D. Jeffery ECA Review – Amended ECA 6993-6X4QNM

- The Site shall be operated and maintained, and the management and disposal of all waste shall be carried out, in accordance with the Act, O.Reg. 347 and the conditions of this Approval. At no time shall the discharge of a contaminant that causes, or is likely to cause an adverse effect, be permitted.
- Use of the Site for any other type of waste, or other waste management activity is not permitted and would require separate approval.
- The owner shall take steps to minimize and ameliorate any adverse effect on the natural environment or impairment of water quality resulting from the Site, including such accelerated or additional monitoring as may be necessary to determine the nature and extent of the effect or impairment.
- Recommended that daily inspections are completed ensuring that all equipment and facilities are in good working order and operated in a manner that will not negatively impact the environment, that waste storage, unloading and loading areas are orderly and that security features are in good working order.
- Any deficiencies that are detected during inspections that might negatively impact the environment shall be corrected forthwith.
- The owner shall take immediate measures to clean up all spills, related discharges and process upsets of wastes that result from the operation of the Site.
- The Owner shall immediately report all spills and upsets to SAC for electronic filing and recording.
- The Owner shall always have a Spill Contingency Plan and Emergency Response Plan in place and on Site.
- The owner shall maintain all records of any spills or process upsets at the Site, the nature of the spill, the spill or process upset, the action taken for the clean up or correction of the spill, the time and date of the spill or process upset. And for spills, the time that the Ministry and other parties were notified
