As noted in the previous submissions, there are several concerns the landowners group still has with the proposed Official Plan. Considering these concerns, the landowners believe it would be beneficial to approve the Official Plan in part, which would allow the Salem Secondary Plan to remain intact.

The rationale behind the request to leave the Salem Secondary Plan in place is a significant amount of time, effort and expense went into the creation of the Salem Secondary Plan, including the preparation of several master plans, including, but not limited to transportation and servicing. Within the Salem Secondary Plan area, development is just starting in earnest as a result of landowners trying to work with the City to develop an efficient and effective servicing strategy to develop within the Salem area. This took a significant amount of time to discuss and ultimately resulted in the installation of an interim pumping station due to the City's reluctance to invest in DC infrastructure, solely at the expense of the landowners, in order to allow development to proceed.

As a result, the Secondary Plan vision is now just being realized. The new Official Plan would remove this vision and would materially impact how the future neighbourhoods within the Secondary Plan would be developed. Approval of the new Official Plan in the Salem Secondary plan will trigger a series of Official Plan amendments going forward, it could potentially cancel previously constructed/tendered works and abandon approved Master Infrastructure Plans, that will ultimately delay houses coming to the market, decrease affordability and add millions of dollars in costs to the Salem Secondary Plan area.

The landowners recognize the existing Salem Secondary Plan only extends to the 2031 planning horizon. As such, it is the landowners recommendation that the master plan, which formed an appendix (Appendix 8A) to the Secondary Plan (attached), and which identifies land uses both pre and post 2031, become the new land use schedule. In the landowners view, this will allow development to continue as originally contemplated by the Secondary Plan.

In conclusion, the landowners request the Salem Secondary Plan remain in place and the Province only approve the City of Barrie Official Plan in part and permit the Salem Secondary Plan to continue to the 2051 planning horizon. This will support the Province in achieving their housing goals in an affordable and timely fashion.

Should you require anything further, do not hesitate to contact the undersigned.

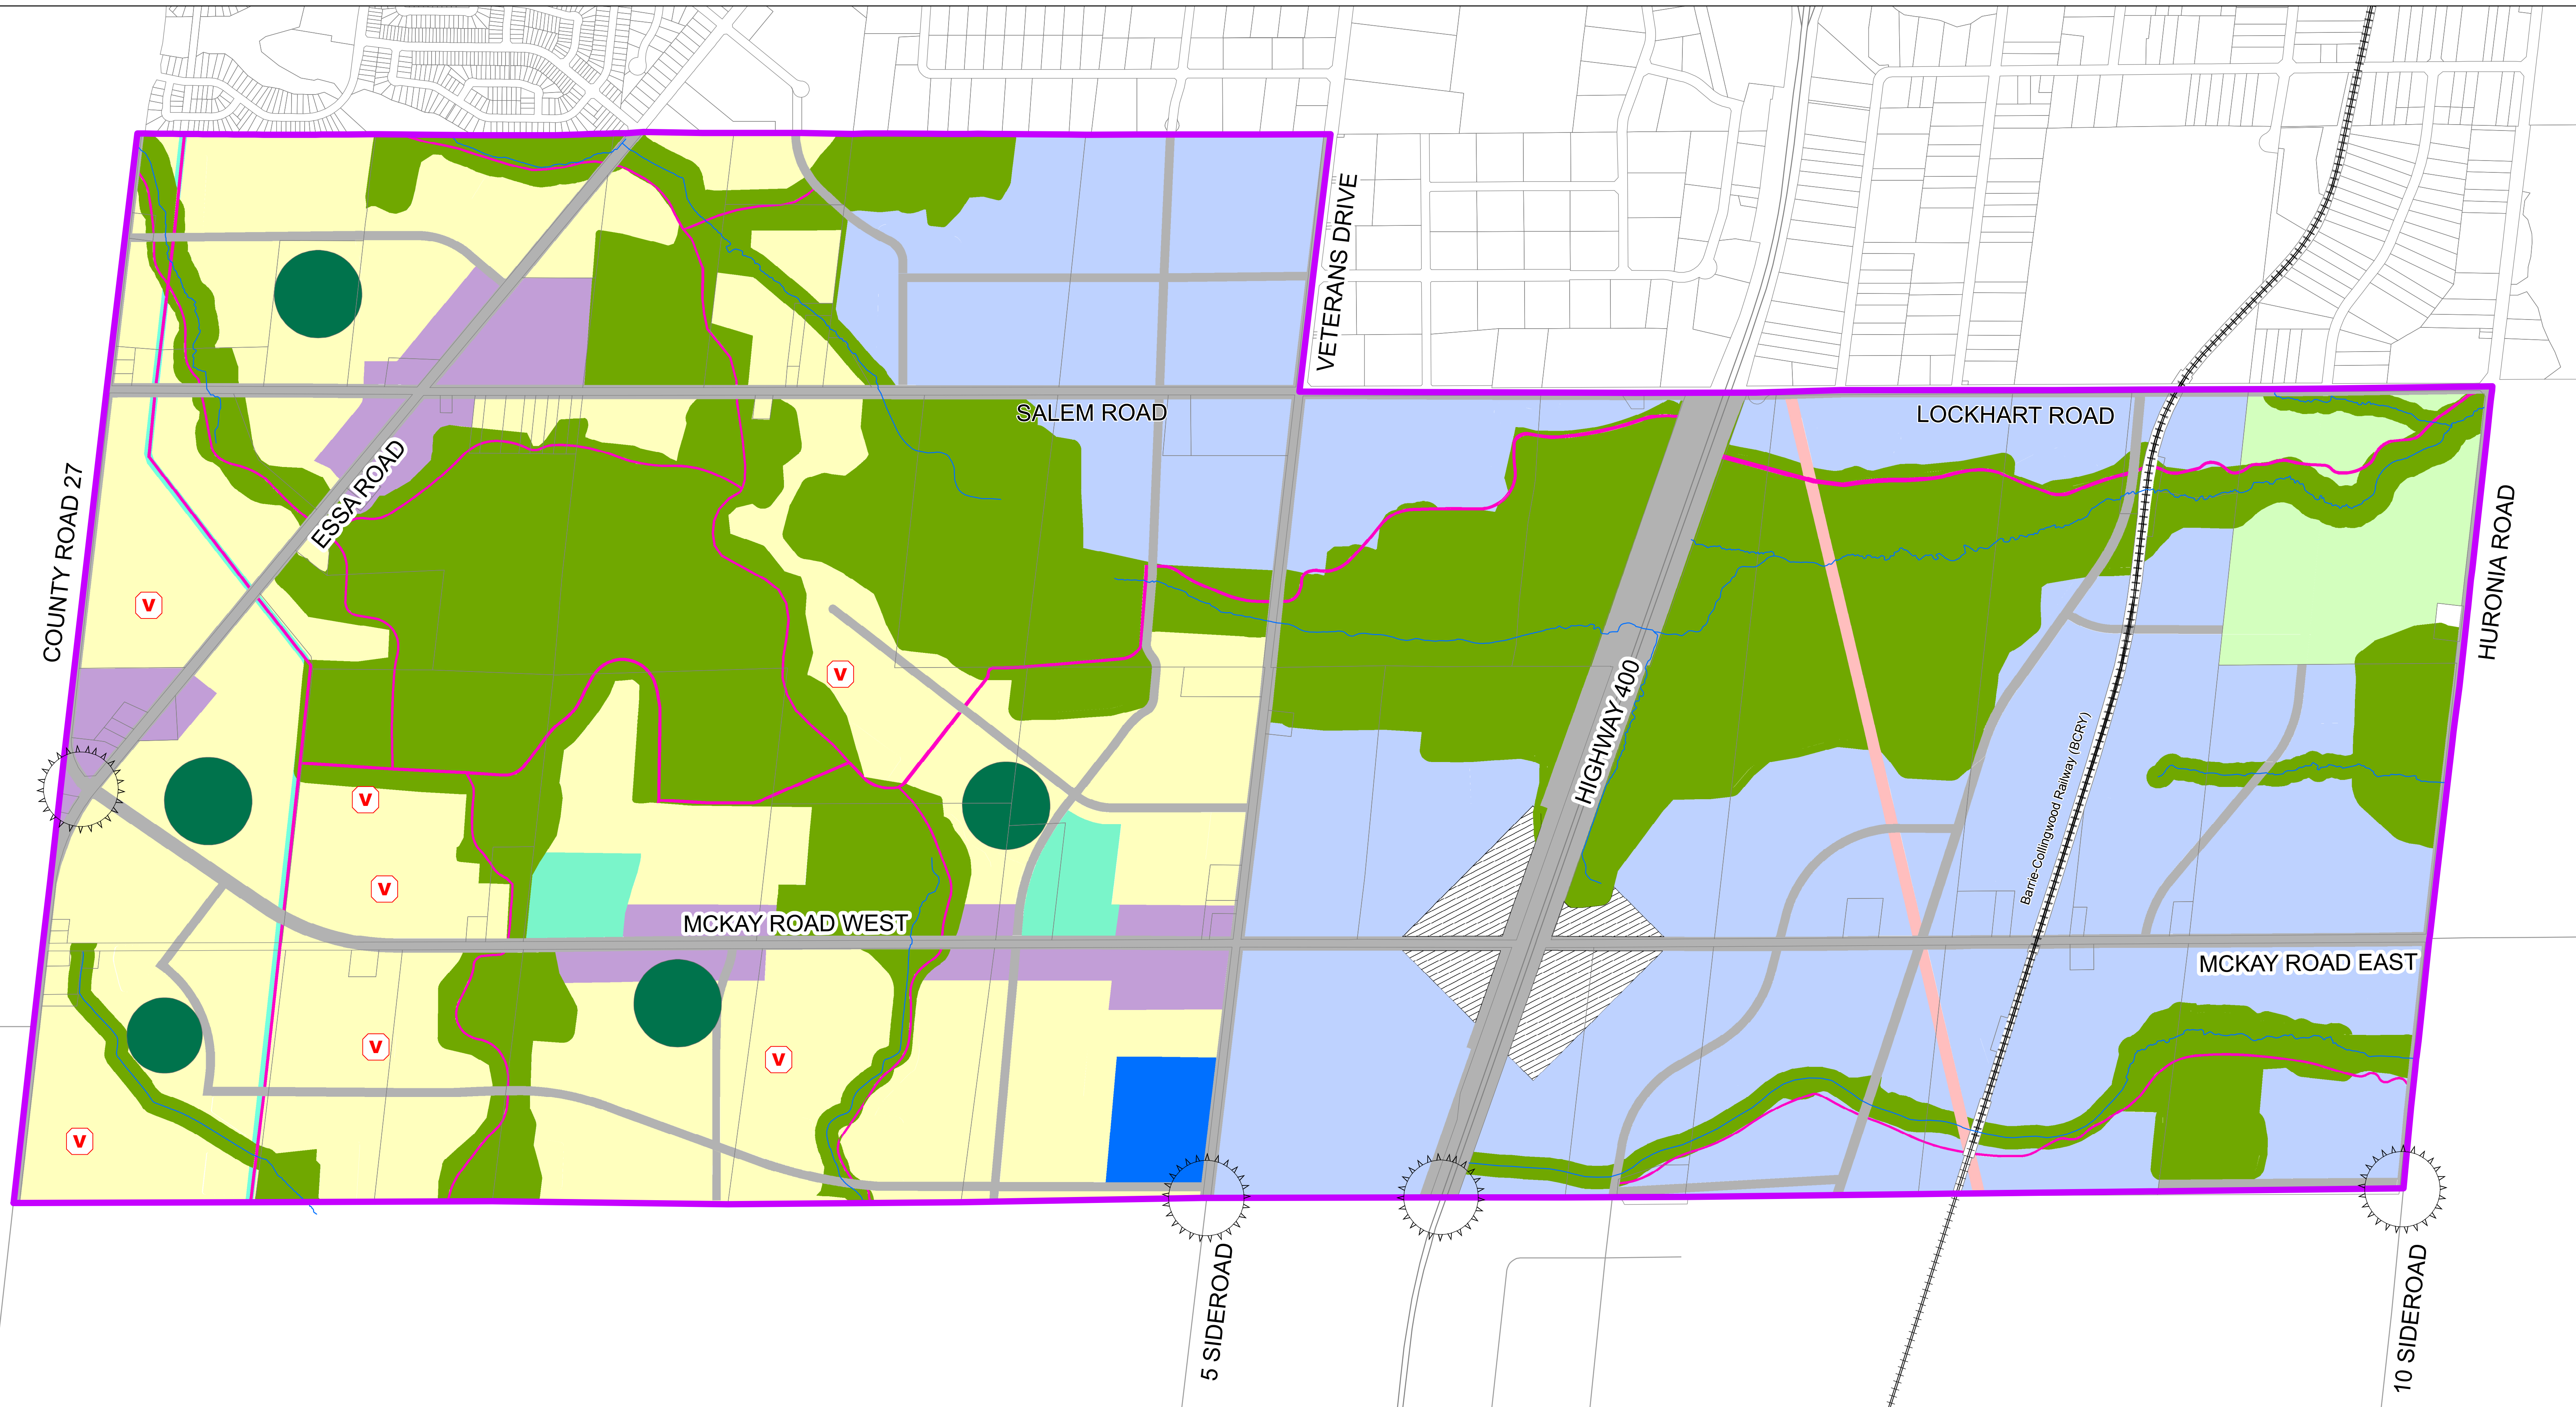

Yours truly,

KLM PLANNING PARTNERS INC.

A handwritten signature in blue ink, appearing to be 'KM', is written over the company name.
